

# Neighborhood Traffic Calming Program

## Traffic Study Petition

This petition is required **ONLY** for an individual submitting an application independent of a homeowner's association or taxing district board. Homeowners associations and taxing district boards are not required to submit a petition. **Email completed form to [TrafficCalming@lakelandgov.net](mailto:TrafficCalming@lakelandgov.net).**

Name of Neighborhood:

Please note that in order to move forward to a traffic calming study, the petition must contain signatures of a minimum of 25 or at least 50% of the property owners in the Neighborhood (one per street address), whichever is smaller.

For the purposes of this petition, Neighborhood is defined as any contiguous area within the city that generally has as its boundaries:

1. The interior right of way line of any arterial or collector street
2. The interior boundary or right of way line of any railroad, utility or pipeline corridor, river or aterway (not including drainage or flood control ditches) not being transversed by roadways in the general locale.
3. The City limits
4. Any combination of one or more of the foregoing boundaries.

A Neighborhood in this meaning may consist of one or more subdivisions and/or homeowners associations. The Manager of Traffic Operations may adjust the boundary of a neighborhood based on judgment or special conditions.

Arterial Street shall mean a high capacity roadway whose primary function is to move traffic from one location to another.  
 Collector Street shall mean a public roadway that collects traffic from local roadways and delivers then to arterial streets.

Street Number	Street	Property Owner Name	I request that the City conduct a traffic calming study (signature)	Email Address (or phone number if no email address)
