

# Current Construction Projects within City Limits

This message was updated Thursday, February 15, 2012

Let them work – let them live. The City of Lakeland Public Works Construction & Maintenance Division wants you to be safe. Speeding through construction and work zones puts you and the workers at risk. Please slow down. The workers might be your family, friends, or neighbors.

February 22, 2012, contractors will begin resurfacing Pilgrim Lane, Mayflower Drive, Baker Drive and Standish Drive. Work is expected to take 2 days to complete. Any detours will be clearly marked and City of Lakeland employees will be on-site to address any concerns.

City crews are upgrading the sidewalks along both sides of Main Street from Bartow Highway to Fern Road. Lane closures can be expected.

February 20, 2012, contractors working for the City of Lakeland will be resurfacing the following streets: Orangeview Lane, Pinellas Street, Highview Lane, Carleton Circle, Carleton Court, Carleton Place, Carleton Street, Aberdeen Court N, Aberdeen Court S, Polk Avenue, Tiffany Terrace, Oak Drive, Circle Drive and Collins Lane. There will be city personnel on site to assist with any concerns. All detours will be clearly marked.

Contact Michael Whigham at 834-3300 with questions and continue to check this number (8 3 4 R O A D) for updated information.
