INDEPENDENT AUDITORS' REPORT

Board of Trustees
City of Lakeland, Florida
Firefighters' Supplemental Pension Plan

We have audited the accompanying statement of plan net assets of the Firefighters' Supplemental Pension Plan of the City of Lakeland, Florida, as of September 30, 2006, and the related statement of changes in plan net assets for the year then ended. These financial statements are the responsibility of the Firefighters' Supplemental Pension Plan's Board of Trustees. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Board of Trustees, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note A, the financial statements present only the Firefighters' Supplemental Pension Plan of the City of Lakeland, Florida, and are not intended to present the financial position of the City of Lakeland, Florida, and the results of its operations in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the information regarding the Firefighters' Supplemental Pension Plan of the City of Lakeland, Florida's net assets held in trust for pension benefits as of September 30, 2006, and the changes therein for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The Plan has not presented management's discussion and analysis that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be a part of the basic financial statements.

The Schedule of Contributions on page 9 is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

CITY OF LAKELAND, FLORIDA
FIREFIGHTERS' SUPPLEMENTAL PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General - These financial statements represent only the Firefighters' Supplemental Pension Plan (Plan) of the City of Lakeland, Florida (City). The statements presented herein do not constitute the basic financial statements of the City, which are issued separately under the title "Comprehensive Annual Financial Report (CAFR).

The Plan is a pension trust fund (fiduciary fund type) of the City. This fund is the single employer defined benefit pension plan for full-time, uniformed City firefighters.

The Plan has elected not to present management's discussion and analysis as required by GASB Statement No. 34, "Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments."

Basis of Accounting - The Plan is maintained using the accrual basis of accounting. Expenses are recognized when they are incurred and revenues are recognized when they are earned. The plan participant contributions are recognized when they are due, which is bi-weekly. The contribution from the State of Florida is recognized when due according to the terms of the State's formal letter of commitment to the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Valuation of Investments - Plan investments are reported at fair value. Money market funds are reported at cost, which approximates fair value. Fixed income and equity securities are valued at the last reported sales price.

NOTE B - DESCRIPTION OF PLAN

General – The authority for the establishment and amendment of the Plan, benefits, vesting, and contributions are established by City ordinances. The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

Plan Membership – The Plan is a single-employer, defined benefit pension plan that covers substantially all regular, full-time uniformed firefighters of the City. Government plans are not subject to the provisions of the Employees' Retirement Income Security Act of 1974 (ERISA). The number of employees covered by the Plan is shown in the following table.

Active plan participants	136
Retirees and beneficiaries	78
Terminated vested participants	<u>1</u>
Total number of participants	<u>215</u>

Administrative Costs – Administrative costs are paid by the Plan from contributions and investment income.

Plan Benefits

Pension Benefits – A member firefighter may retire after attaining age 50 and completing 10 years of credited service. The monthly benefit for 15 or more years of credited service is determined by multiplying 1/12 of \$565 by credited service multiplied by a benefit factor. For those members with more than 10 years but less than 15 years of credited service the monthly benefit is determined by multiplying 1/12 of \$535 by credited service multiplied by a benefit factor. The benefit factor is based on the age of the employee and the years of credited service at the time of retirement.

Cost of Living Increase – The plan has been amended various times to allow for a cost of living adjustment increase of retirement benefits for participants currently receiving benefits.

Disability Benefits – A firefighter that becomes totally and permanently unable to perform useful and efficient service as a firefighter may apply to the Board for a disability benefit. If granted and the disability is service connected, the monthly benefit will equal 1/12 of \$535 multiplied by the number of years of credited service. If the disability is not service connected, the monthly benefit will equal 1/12 of \$267.50 multiplied by the number of years of credited service. Non-service connected disability benefits are only available to firefighters with at least 10 years of credited service.

Termination Benefits – If a firefighter is terminated, either voluntarily or involuntarily, with less than 10 years of credited service, the Plan member is entitled to a refund of the contributions made by the employee to the Plan. In lieu of refund, the funds may be optionally left on deposit in the Plan for 5 years, pending the possibility of being reemployed and without losing credit for the time the member was in the plan as a firefighter. Upon the plan member reemployment the firefighter must remain employed for a period of 3 years, or the accumulated contribution will be returned without interest. If the firefighter has 10 or more years of credited service and the contributions are left in the plan, then the firefighter will be entitled to the vested portion of the accrued monthly benefit commencing on the normal retirement date. Plan members are 50% vested after completing 10 years of credited service. This percentage increases annually by 10% per year until reaching 15 years of service, at which time Plan members are considered fully vested.

NOTES TO FINANCIAL STATEMENTS

NOTE B - DESCRIPTION OF PLAN (CONTINUED)

Death Benefits – If a vested firefighter were to die prior to normal retirement, the surviving spouse would receive 50% of the firefighter's accrued benefit payable for life.

Funding Requirements:

Member Contributions - Firefighters are required by City ordinance to contribute 3% of their basic annual compensation to the Plan.

State Contributions - The City deposits the income received from the 1.85% excise tax on property insurance premiums into the Plan, in accordance with the Florida Statutes, Section 175.08.

Covered Payroll - Covered payroll for the Plan for the year ending September 30, 2006 was \$6,821,706 (adjusted base).

Termination of Plan:

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. While some benefits may be fully or partially provided, others may not be provided at all. This provision depends upon the priority of the benefits and the availability of plan assets existing at the time of such termination.

NOTE C - CONTRIBUTIONS

The Plan is funded from an annual distribution from a trust fund established by the State of Florida for the express purpose of providing retirement benefits to firefighters, plus a 3% payroll contribution from employees. The amount of the deposit from the state trust fund for the year ended September 30, 2006 equaled 5.4% of covered payroll. The actuarially determined contribution rate for 2006 for both the State of Florida trust fund contribution and the employee contribution was 8.3%. The date of the latest actuarial valuation of the Plan was December 27, 2005.

NOTE D – CASH, CASH EQUIVALENTS AND INVESTMENTS

Authorized Investments – Several forms of legal provisions govern the types of investments in which Plan monies may be invested. Plan monies may be invested in any of the following:

- Direct obligations of the Federal Government
- Interest bearing time deposits
- The Florida State Board of Administration
- Corporate stocks and bonds
- Money market and mutual funds
- Obligations guaranteed by the Government National Mortgage Association
- Obligations guaranteed by the Federal National Mortgage Association
- Obligations of the Federal Home Loan Mortgage Corporation
- Obligations of the Federal Home Loan Bank
- Obligations of the Federal Farm Credit Bank

Investment Violations- There were no violations of legal or contractual provisions for deposits and investments during the year.

Custodial Credit Risk. Custodial credit risk, for an investment, is the risk that, in the event of the failure of the counterparty, the City of Lakeland will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. As of September 30, 2006, the City of Lakeland Firefighters' Supplemental Pension Plan held \$70,872 and \$15,581,320 in Money Market Funds and Mutual Funds respectively. These investments are held by an investment's counterparty, not in the name of the City. The City of Lakeland's Firefighters' Pension Plan's investment policy does not limit the investment in Money Market Funds and Mutual Funds, including Commingled Trust Funds.

Foreign Currency Risk. Foreign current risk, for an investment, is the risk associated with currency fluctuations when an investment is denominated in a foreign currency. As of September 30, 2006, the City of Lakeland did not hold any investments denominated in a foreign currency. However, a Firefighters' Supplemental Pension Plan mutual fund held \$1,641,146 (10.53%) in foreign securities. The investment policy for this fund limits the investment in foreign securities to 10% of the fair market value of the assets held.

The investments in foreign securities percentage is not in compliance due to the investment in the Westwood Equity International Mutual Fund which experienced a 32% increase in value

Credit Risk. Credit risk is the risk of loss due to the failure of the security issuer or other counterparty. The City of Lakeland's investment policy is to minimize credit risk by limiting investments in securities that have higher credit risks, pre-qualifying the financial institutions, brokers/dealers, intermediaries, and advisors with which the City will do business, and diversifying the investment portfolio so that potential losses on individual securities will be minimized.

The City of Lakeland's investment policy requires the following Standard & Poor's or Moody's credit quality ratings for fixed income securities of the Firefighters' Retirement System Fund:

<u>Investment Class</u>	<u>S & P Rating</u>	<u>Moody's Rating</u>
Firefighters' Retirement System Fund		
Money Market Funds	A-1	P-1
Fixed Income	BBB or higher	Baa or higher

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

General - The actuarial cost method utilized is the aggregate actuarial cost method. This method does not identify or separately amortize unfunded actuarial accrued liabilities. The actuarial value of assets was determined by applying an actuarial adjustment factor to the market value of assets. The actuarial adjustment factor was determined as the amount which current market prices were inflated in relation to a longer-range trend. The actuarial report was done as of December 27, 2005.

Actuarial Assumptions Utilized:

Interest Rate	7.5 %
Combined Inflation and Projected Salary Increase Rate	6.0 %
Post Retirement Benefit Increases	0.0 %
