

### GEOTECHNICAL FIELD SURVEY MAP

### Work Starts Monday, March 4, 2024

The AECOM Geotechnical Survey Team will be working in the community starting on Monday, March 4, 2024, and our efforts are scheduled to be complete by approximately March 29, 2024.

AECOM will collect soil samples along the banks of the canals in the Lake Bonnet Drainage Project study area. The proposed drilling locations are noted by the red triangles on the map above. Access may be needed from both the water and the land side at each location.
