March 24, 2023

Honorable Mayor, Members of the City Commission and Citizens of the City of Lakeland, Florida:

It is our pleasure to submit this Annual Comprehensive Financial Report for the City of Lakeland, Florida for the fiscal year ended September 30, 2022. The organization, form and contents of this report plus the accompanying financial statements and statistical tables are prepared in accordance with the requirements of the Governmental Accounting Standards Board, the American Institute of Certified Public Accountants, and the Governmental Finance Officers Association.

This report has been prepared by the Finance Department of the City of Lakeland, which assumes full responsibility for the completeness and accuracy of the information presented herein. To provide assurance that financial data incorporated into this report is as accurate as possible, the Finance Department has adopted internal control procedures which are intended to ensure that financial transactions are recorded in a manner that is consistent with generally accepted accounting principles. These internal control procedures are also intended to prevent loss of assets due to theft or mismanagement. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met.

Florida Statutes require that all municipalities in the State conduct an annual financial audit of the books and records, performed by an independent certified public accountant. The City has contracted with the firm of Crowe LLP to conduct the audit for the year ended September 30, 2022. The independent auditor's report, which indicates that the financial statements included in this document are free from material misstatement and are fairly presented in conformity with accounting principles generally accepted in the United States of America appears on page B-1 of this document.

The report titled Management's Discussion and Analysis is intended to provide a narrative explanation of the results of operations and financial condition of the City. It should be read in conjunction with this transmittal letter to provide a general overview of the City's finances. This report starts on page C-1 of this bound document.

### Profile of the City of Lakeland

Located between two major urban areas – Tampa and Orlando – Lakeland enjoys the quality of life characteristics of smaller cities, while affording easy access and the amenities of larger metropolitan areas. Per the University of Florida's Bureau of Economic & Business Research (BEBR), incorporated Lakeland's 2022 population is 120,279. The City limits include approximately 76 square miles.

The City is governed by a seven-member City Commission. This Commission employs a full-time City Manager to run the day-to-day operations of the entity. Page A-5 of this report graphically presents the Organization Chart for the City. The services provided by the City of Lakeland government are extremely diverse, ranging from traditional police, fire, public works, and an extensive parks and recreation system to utility services including electric power generation and supply, treated water, wastewater treatment, stormwater, solid waste collection, municipal parking facilities, an airport, convention center and 27-hole golf course.

Annual operating budgets are formally adopted by the City Commission. Legally authorized appropriations are prepared based on total expenses by fund and department. Any variation between the budgeted expenses and actual expenses at the fund and departmental level of detail must be authorized by the City Commission by affirmative action throughout the year.

The City of Lakeland derives its name from the 28,000 acres of 38 named lakes and numerous smaller lakes, ranging in size from 2.5 acres (Lake Blanton) to 2,272 acres (Lake Parker).

Lakeland boasts many unique features, including the world's largest on-site collection of Frank Lloyd Wright-designed buildings at Florida Southern College. Lakeland hosts Florida's largest aircraft convention – the Sun 'n Fun International Fly-In & Expo – which draws more than 140,000 people and 4,000 aircraft to Lakeland Linder International Airport. Lakeland's annual outdoor art festival, Mayfair by-the-Lake, began in 1971 and attracts more than 70,000 visitors and artists to the shores of Lake Mirror.

Lakeland is the spring home of the Detroit Tigers who have been training in Lakeland since 1934. The organization has a year-round presence and operates one of their minor league teams, developmental squads and rehabilitative facilities in Lakeland. Other sports teams that call Lakeland home include the Lakeland Magic who are the NBA G League developmental affiliate of the NBA's Orlando Magic and the Florida Tropics SC who are a professional soccer team playing indoor soccer in the Major Arena Soccer League and outdoor soccer in the United Premiere Soccer League.

### **Profile of the City of Lakeland (continued)**

### **Local Economy**

Lakeland is home to the headquarters of Publix Super Markets, which was founded in nearby Winter Haven by Mr. George Jenkins in 1930. Publix operates 1,297 grocery stores in Florida, Georgia, South Carolina, North Carolina, Alabama, Tennessee, and Virginia and is the largest employee-owned grocery chain in the United States. Ranked as one of Fortune's Best Big Companies to work for, Publix has more than 225,000 employees and is a Fortune 100 company with \$48.3 billion in retail sales in 2021. The total taxable value of real property owned by Publix within the Lakeland city limits is approximately \$461 million.

The City also boasts the fifth largest hospital in the state and the busiest single-site Emergency Department in the state – Lakeland Regional Health, an 864-bed not-for profit hospital. Lakeland is also home to Watson Clinic, LLC which provides close to 1 million outpatient visits annually. Lakeland Regional Systems recently completed construction on an 80,000-square foot \$50 million freestanding Center for Behavior Health and Wellness on a 9.3-acre property that is adjacent to the current campus.

Residential construction activity in Lakeland continues to be active. Lakeland issued 402 new single-family permits and 458 multi-family permits in 2022. This marked a year-over-year decrease from 2021 for single-family permits and a slight increase for multi-family permits. Single-family permitting in Lakeland has averaged over 500 new permits annually per year for the past 5-years and multi-family has averaged approximately 400 annually during the same period. 2022 was an active year for residential construction with totals for single family and multi-family far outpacing Lakeland's long-term annual average for each. Historically, it has been understood locally that a healthy single-family residential market in Lakeland could support 200-250 new single-family permits per year. This belief is based upon balanced and consistent suburban growth pushing to the south and north away from the central city. With growth surging beyond that average number, the City is demonstrating a great deal of core strength as the real estate market signals a continued expanding pattern for residential development. The right mix of a growing population, new buyers and shifting demographics have Lakeland positioned well. Rising interest rates and supply chain delays have temporarily pushed some buyers away from the single-family market. With that, demand for more affordable multi-family units in lower density areas has increased in an attempt to help balance Lakeland's residential market. Understanding that normalization of the economy may be prolonged post pandemic, many economists recognize that the biggest concerns for the supply of new residential construction in 2023 will be tied the stabilization of interest rates, an under abundance of qualified labor, the rising costs of building supplies and materials and project delays associated with supply chain issues.

Existing and new companies in Lakeland are helping to fuel the City's growing population which has a direct correlation on employment opportunities and the local unemployment rate. Post COVID, Lakeland has seen a stabilization of low unemployment rates. In 2022, Lakeland's, monthly unemployment rates began the year at a high of 4.2% in January, before decreasing monthly to a low of 2.6% in December. The relative consistency seen in local unemployment figures also mirrors the state and national economy as it is tied to a strong labor market. Closing out 2022, Lakeland's unemployment rate achieved month-over-month decreases for 10 of the 12 months during the year, ending 2022 with a 12-month average of 3.3%. This annual rate marked a 2.0% year-over-year drop from 2021, signaling a message of employment stabilization and demand. Complimenting Lakeland's expanding population, the City's month-over-month labor force for 2022 experienced a noticeable expansion. Starting the year with 50,772 individuals in the labor force, Lakeland's workforce grew by 1,198 individuals ending 2022 with 51,970. This is better illustrated by tracking the actual number of unemployed persons within the workforce. In 2022, Lakeland began the year with a monthly unemployment rate of 4.2% equating to 2,526 individuals within the local workforce seeking work. The year closed with a monthly December unemployment rate of 2.6% and just 1,348 individuals unemployed and actively seeking work. This decrease illustrates Lakeland's economic health as determined by job growth. As new companies locate and existing ones expand and grow their workforce, new jobs are required. These new jobs help balance available opportunities for residents, thus allowing the City's overall unemployment rate to remain stable and low. For 2023, Lakeland's unemployment will remain stable with a consistent economic performance that should keep annual unemployment rates below the 4% range.

Lakeland's industrial real estate market is heavily reliant on demand. Leasing activity in Lakeland's industrial market was steady in 2022. E-commerce activities have accelerated over the past year as demand has outpaced the supply of available inventory. With that, Lakeland has added more than 10 million square feet on new industrial space over the past five years, of which, three quarters of this space has been speculative. With new inventory starting to slow, vacancy rates are dropping. In the final quarter of 2022, the Lakeland/Polk County industrial market recorded a 3.5% vacancy rate, which is significantly less that the 9.0% rate recorded just two years ago. This rapid decrease was a result of new industrial buildings being leased prior to completion, thus leaving a need for available space. Analysts believe that Lakeland's industrial market is positioned well, demonstrating strengths in both relative affordability and absorption. Inventories will expand in 2023 as several new buildings will be hitting the market without pre-leased tenants. Last year, Lakeland completed 2,326,924 square feet of industrial, office and retail space. During that same period, the City permitted 728,892 square feet of new industrial space, 12,673 square feet of commercial office space and 6,332 square feet of retail space. Lakeland has new industrial projects under construction and planned throughout 2023. Strong demand balanced with the influx of new space should help drop vacancy rates as new inventory is constructed and leased.

### Profile of the City of Lakeland (continued

### **Local Economy (continued**

Significant business and institutional development investments completed within the City in 2022 totaled more than \$250 million and committed to the creation of approximately 350 new jobs. As proof of Lakeland's evolving economy, a few of the examples below highlight the industrial, office, residential and educational growth.

Based on our geographic location, much of Lakeland's economic strength revolves around logistics and distribution. In 2022 developers completed the construction of more than 1.8 million square feet of new industrial space and permitted an additional 728,892 square feet to be constructed in Lakeland to support this active market.

Lakeland Central Park completed \$20 million in site work in 2021 to kick off their 740-acre 5-million square foot industrial development located on the east side of the Polk Parkway, south of I-4. This \$400 million multi-tenant development will contain 10 separate buildings ranging in size from 128,000 square feet to 839,000 square feet. The development's first 700,000 square foot building is nearly complete and plans for building #2 are under review.

In addition to the larger inventory buildings, developers continue to add new smaller speculative industrial projects sized at 98,000 square feet, 109,000 square feet and 197,000 square feet which were all completed in 2022.

Along with industrial uses, Lakeland benefited by other notable expansions and new projects in and around the downtown that will further diversify the local economy.

Summit Consulting completed their build to-suit \$50 million 9-story office building in May of 2022. The building will employ 450 individuals and contains a 4-level parking garage which will have 150 spaces designated to the public on weekday nights and on weekends.

Bonnet Springs Park is a 180-acre private park that will activate the western edge of downtown. This \$100 million park was completed in November of 2022 and welcomed the public with 9 unique buildings complimented by a variety of trails, paths, water amenities and open space further expanding the reach of downtown.

Publix Supermarkets purchased the former FedEx Building downtown located at 333 Lemon Street in early 2023. This 142,000 existing building will be renovated to accommodate 100 new high wage jobs paying more than 200% of the county average wage, \$93,526. The building will serve as an IT headquarters for Publix where they can consolidate some downtown IT employees into a single location. This project will be a \$40 million capital investment.

Co-Hatch purchased and rehabbed 211 E Main Street as an innovative shared workspace which opened in December of 2022 in downtown. Co-Hatch is a membership based co-working with private office, meeting rooms, event spaces and member perks. Co-Hatch was founded in 2016, they currently 30 locations open or under construction and anticipate 300 nationwide by 2026.

Demand for multi-family products will bring several new projects that will offer benefits in varying parts of Downtown, stretching its geographic boundaries.

Mirrorton residential is a 305-unit market rate multi-family project positioned on a 10-acre property on the northern boundary of downtown. This \$50 million project is on a property once owned by the Lakeland CRA which not contains of a mix of townhomes and some 3 and 4 story flats. Mirrorton is 100% leased, demonstrating the demand for multi-family in downtown Lakeland.

The ONICX Group will purchase and begin construction on a 205-unit apartment building which will be built on top of a new 424-space parking garage located on the Oak Street parking. This long-awaited project will align with the approved Development Agreement for the planned multi-family apartment and parking garage. Construction should begin in the summer of 2023.

The former Florida Tile Site is being developed to accommodate 500+ apartments. Carter USA out of Atlanta purchased the 21-acre site for \$10 million after an extensive cleanup. The mixed-use project will contain two phases. Phase I, which is now under construction, will consist of approximately 300 apartment units in 4 residential buildings, along with approximately 15,000 SF of single-story retail. Phase 2 will have another 200+ apartments.

In the Garden District, east of downtown, developers completed The Garden Apartments as a concentration of two 4-story buildings containing a total of 90 market rate one-bedroom units located at the corner of Lake Avenue and Lime Street, just south of Lake Mirror. Upon completion all the units constructed were 100% leased and occupied.

Also in the Garden District, two new projects are under construction and will completed in early 2024. Cumulatively, the projects will add a total of 80 new units 725 E. Orange Street, located across the street from Barnett Family Park will consist of 32 units containing multiple 4-story buildings with 1- & 2-bedroom apartments. 625 Lime Street will also consist of a mixture of 1- & 2-bedroom units in a block of 4-story buildings. The Lime Street project will contain 48 units.

### Profile of the City of Lakeland (continued)

### Local Economy (continued)

With regards to higher education in Lakeland, in 2022 Florida Southern College completed the renovation of the previous St. Joseph's Academy to accommodate the School of Nursing which will house their graduate programs for Nursing and Health Science. Florida Polytechnic University completed their 85,000-square foot \$45 million Applied Research Center (ARC Building which hosts research and teaching laboratories, student design space, conference rooms and faculty offices for the University. Both these facilities support the higher education student population growth that Lakeland is experiencing.

### Long-term Financial Planning

The City prepares ten-year capital improvement plans for several of its Funds that identifies both capital improvements and related revenue sources anticipated for the next ten annual budget cycles. Capital requirements of enterprise operations — typically utility operations such as electric, water, wastewater, and solid waste, are financed from capital reserves accumulated within those enterprise operations and obtained from the users of those services through the imposition of user fees. Capital requirements of general governmental operations are financed primarily from the proceeds from gasoline taxes and the proceeds from the prepayment of an operating lease between the City of Lakeland and a not-for-profit entity that operates the City-owned hospital facility.

Impact Fees are also assessed on new construction within the Water and Wastewater utilities to provide a source of financing for the capital costs associated with growth. The City also levies similar impact fees to offset a portion of the capital costs of Transportation improvements, Parks and Recreation Facilities, and Public Safety.

### **Relevant Financial Policies**

The City finances a portion of general governmental operating costs from the proceeds of transfers to the General Fund from various utility operations – primarily from an electric utility operation. These transfers finance approximately 28% of the operating costs for general governmental operations within Lakeland.

### **Reporting Achievement**

The Government Finance Officers Association of the United States and Canada (GFOA awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Lakeland, Florida, for its Annual Comprehensive Financial Report (Annual Report) for the fiscal year ended September 30, 2021. To be awarded a Certificate of Achievement for Excellence in Financial Reporting, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report, of which its contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements. We believe our current report continues to conform to Certificate of Achievement for Excellence in Financial Reporting Program requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

### **Acknowledgments**

The preparation of the Annual Comprehensive Financial Report could not be achieved without many extra hours of work on the part of the City's Finance Department staff. The City is fortunate to have such a fine group of professionals who are highly skilled and complete all tasks accurately and within schedule.

We would like to especially thank Barbara Henry, Chief Accountant, Willem Strauss, Electric Utility Controller, and Brent McLain, Chief Accountant for their efforts in assisting the external auditors in completing the audit, and for preparation of the Annual Report. Their respective roles in coordinating the work of accountants and other professionals have proven to be invaluable to the report preparation process. We would also like to thank the external auditors, Crowe LLP, for their cooperation, professionalism, and assistance during the audit process.

We would like to express appreciation to the City Manager, his staff, and the City Commission for their continued support of the Finance Department and for the leadership they have provided to make Lakeland such an exceptional community. This report reflects the favorable financial condition of the City, and we are proud to submit it to you for your review.

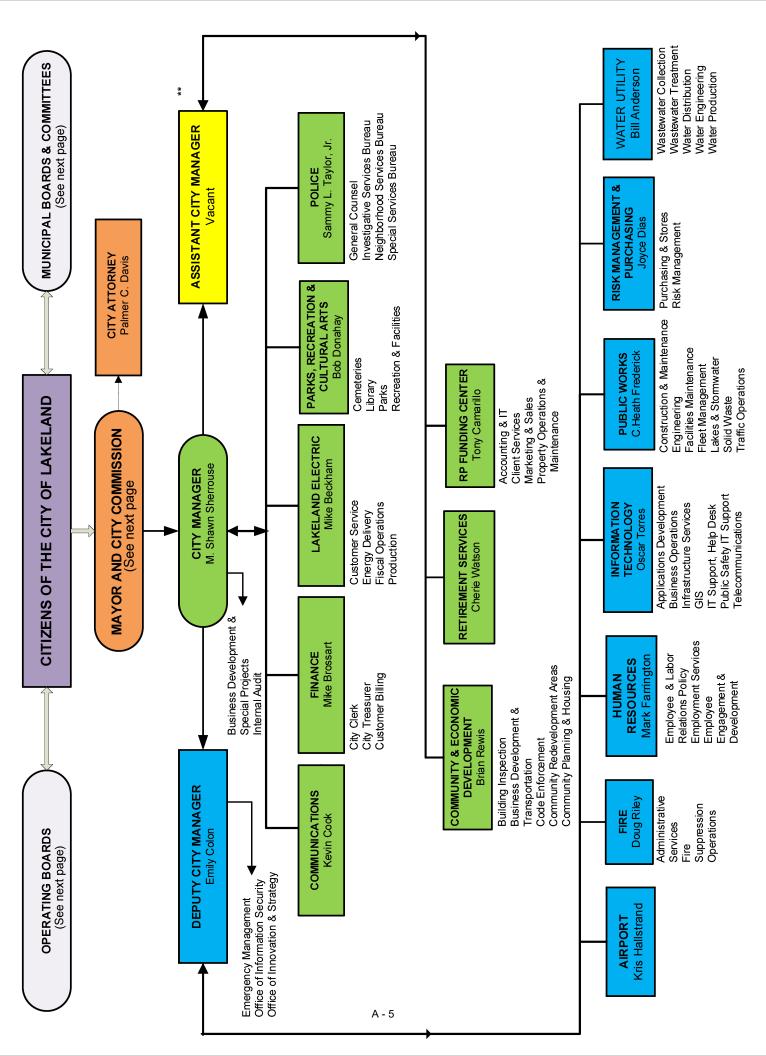

Respectfully submitted,

### INDEPENDENT AUDITOR'S REPORT

Honorable Mayor, City Commissioners and City Manager City of Lakeland, Florida

### Report on the Audit of the Financial Statements

### **Opinions**

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Lakeland, Florida (the "City"), as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the reports of the other auditors, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of September 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the Police Officers' Defined Benefit Retirement System of the City of Lakeland, Florida (a pension trust fund included in aggregate remaining fund information) and the City of Lakeland Firefighters' Retirement System (a pension trust fund included in aggregate remaining fund information), which represent the percentages of assets, net position, and revenues of the pension and other employee benefit trust fund type listed below.

|   | Assets | Net Position | Revenues |

| Police Officers' Defined Benefit Retirement System of |        |              |          |
| the City of Lakeland, Florida                         | 16.40% | 16.42%       | 15.32%   |
| City of Lakeland Firefighters' Retirement System      | 11.71% | 11.71%       | 14.03%   |
|   | 28.11% | 28.13%       | 29.35%   |

Those statements were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as it relates to the amounts included for the Police Officers' Defined Benefit Retirement System of the City of Lakeland, Florida and the City of Lakeland Firefighters' Retirement System, are based solely on the reports of the other auditors

### Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* (*Government Auditing Standards*), issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions. The financial statements of the Police Officers' Defined Benefit Retirement System of the City of Lakeland, Florida and the City of Lakeland Firefighters' Retirement System were not audited in accordance with *Government Auditing Standards*.

### Emphasis of Matter

As discussed in Note 2 to the financial statements, during the year ended September 30, 2022, the City adopted new accounting guidance, GASB Statement No. 87, Leases. Our opinions are not modified with respect to this matter.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or
  error, and design and perform audit procedures responsive to those risks. Such procedures include examining,
  on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
  appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the
  City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, General Fund budgetary comparison schedule, schedule of changes in the City's net pension liability and related ratios, schedule of changes in the City's net OPEB liability and related ratios, schedule of OPEB investment returns, schedule of OPEB contributions, and schedule of contributions from employers and other contributing entities on pages C-1 through C-20 and F-2 through F-10 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the

City's basic financial statements. The budgetary comparison schedule – major capital projects fund, combining fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the

basic financial statements. Such information is the responsibility of management and was derived from and relates

directly to the underlying accounting and other records used to prepare the basic financial statements. The information

has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain

additional procedures, including comparing and reconciling such information directly to the underlying accounting and

other records used to prepare the basic financial statements or to the basic financial statements themselves, and other

additional procedures in accordance with auditing standards generally accepted in the United States of America. In our

opinion, the budgetary comparison schedule – major capital projects fund, combining fund financial statements and

schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises

the introductory information and miscellaneous statistical information sections but does not include the basic financial

statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other

information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and

consider whether a material inconsistency exists between the other information and the basic financial statements, or

the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that

an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated March 24, 2023 on our

consideration of the City's internal control over financial reporting and on our tests of its compliance with certain

provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely

to describe the scope of our testing of internal control over financial reporting and compliance and the results of that

testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on

 $compliance. \ That \ report \ is \ an \ integral \ part \ of \ an \ audit \ performed \ in \ accordance \ with \ \textit{Government Auditing Standards} \ in$ 

considering the City's internal control over financial reporting and compliance.

### MANAGEMENT'S DISCUSSION AND ANALYSIS

### MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

The Management's Discussion and Analysis section provides a narrative overview of the City of Lakeland's (City's) financial activities for fiscal year ending September 30, 2022. This discussion is broken down into three components:

- An overview of the financial statements, consisting of a narrative description of the type of information provided within the Comprehensive Annual Financial Report (which begins on page D-1 of this bound document).
- A concise, condensed financial report that summarizes the results of operations of the City as a whole.
- A narrative financial analysis of the City's overall financial condition and results of operations, supported by additional consolidated information about specific services provided by the City.

### **OVERVIEW OF THE FINANCIAL STATEMENTS**

The City's basic financial statements are comprised of three sections: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. The nature of these three components of the report is described as follows:

### **GOVERNMENT-WIDE FINANCIAL STATEMENTS**

There are two financial statements in this section that address the financial position and results of operations of the City taken as a whole: The Statement of Net Position and the Statement of Activities.

These two financial statements are prepared using the "full accrual" method (basis) of accounting. This is the same accounting method used by most private-sector companies to determine whether they earn a profit in any given year, and to measure the net worth of the company as of the end of the year.

The statement of net position (page D-2 and D-3) is similar to a balance sheet in that it separately identifies the assets (what the City owns) from the liabilities (what the City owes) and the net difference between the two. Cash, receivables, land, buildings, and equipment are examples of assets. Bonds, notes, and payables are examples of liabilities. The increase or decrease in net positions from one year to the next indicates whether the City's financial position is improving or deteriorating.

The statement of activities (pages D-4) explains how or why the net position has increased or decreased during the year. The statement of activities resembles a profit and loss statement because it compares the total expenses of the government to the total revenues, with the difference between the two, equaling the increase or decrease in net position over the course of the year.

Under the full accrual basis of accounting, some cash flows into the city and some of the cash flows out are not considered operating revenues or operating expenses and accordingly do not appear on the statement of activities. For example, under the full accrual basis of accounting, the purchase of capital assets (e.g. equipment, land, buildings that have a useful life beyond one year) is not shown as an operating expense on the Statement of Activities.

On the other hand, the full accrual accounting method recognizes certain expenses that may not be funded or budgeted by the City within a given year, such as non-cash expenses like depreciation of capital assets and costs that may be incurred in one accounting cycle but are not paid until some future year.

In many cases, this full accrual method of accounting is very different than the accounting process used to budget and measure the cost of government. The annual budgets for most governmental operations only include provisions for cash outlays that will actually occur in a given year – which would include disbursements for capital assets and excludes non-cash expenses such as depreciation or expenses paid out in future years. However, the Government Accounting Standards Board ("GASB") requires that a version of the financial activity for all aspects of the city be prepared using the full accrual basis in order to provide the ability to evaluate the financial status of the city in a manner that is compatible with accounting standards normally adopted within the private sector. Hence, the Government-Wide Financial Statements on pages D-2 thru D-4 are prepared on a full accrual basis.

### MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

### **GOVERNMENT-WIDE FINANCIAL STATEMENTS (continued)**

The information in each of these two statements is separated into two categories as follows:

Governmental activities – This portion of the government-wide financial report represents those activities undertaken by the government which cannot, based on practical considerations, be financed by the imposition of a user fee assessed directly and exclusively against the users of those activities. These activities include the services provided by Police and Fire Departments; Public Works (road and drainage construction and maintenance); the Parks & Recreation Department; libraries; growth management; public utilities (such as street lighting); and administrative functions. Because these activities do not lend themselves to recovery of costs through a direct user charge, they are financed primarily from the proceeds of property taxes, sales taxes, franchise fees, interest income, intergovernmental revenues, and state and federal grants.

**Business-type activities** – This portion of the government-wide financial report includes those activities such as the Electric, Water, Wastewater, and Solid Waste Utilities. The cost of providing these services is directly recovered from a user charge assessed against the users of those services. This category also includes the operations of the City's RP Funding Center, the Parking System, and the Lakeland Linder International Airport.

This category also includes activities within internal service funds – which provide services such as fleet management, information technology, and self-insurance of certain risks to city departments at cost. The value of assets, liabilities and the operating activities of these internal funds are accounted for as Business-type activities, <u>less</u> an allocation of those assets, liabilities and current year operations based on the relative portion of those services that are provided to Governmental activities.

### MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

### **GOVERNMENT-WIDE FINANCIAL STATEMENTS (continued)**

The following condensed information is derived from the Government-Wide Financial Statements for the City of Lakeland:

### **MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)**

### **GOVERNMENT-WIDE FINANCIAL STATEMENTS (continued)**

### Governmental activities:

Current Assets consist predominantly of \$59.4 million of cash and investments, \$25 million of receivables, \$30.9 million of assets held within internal balances of the City; and \$5.3 million in assets to liquidate current apportioned and restricted liabilities. In the aggregate, this represents a decrease of \$0.7 million in the value of current assets during 2022.

Asset Apportionments represents assets that are designated by the City Commission for certain specific uses – as opposed to current assets, which generally can be used to finance the cost of any general governmental operations. Apportioned assets are comprised of approximately \$6.5 million in assets related to Stormwater Utilities Fund, \$317.8 thousand set aside to fund contributions to cultural and community agencies, \$177.4 million set aside to pay for future capital expansion, and \$324.4 thousand in cash designated for maintaining recreation facilities.

Restricted Assets are legally restricted for expenses for certain purposes. These consist predominately of \$14.9 million in assets held within Community Redevelopment Districts, \$0.5 million and in assets held for community development, \$2.3 million in assets held in trust for law enforcement; \$19.7 million of unspent impact fees, \$2.3 million in assets held from building inspection revenues, \$8.4 million in assets held from transportation, and approximately \$5.5 million held in a fund that is used to provide perpetual maintenance of cemetery plots sold by the City. In the aggregate, there was a \$6.7 million decrease s in the change in the value of these restricted assets from 2021 to 2022.

Current Liabilities represent obligations payable from Current Assets that are likely to be settled within the next year. These consist of primarily \$4.4 million in amounts owed to vendors, \$5.9 million in undistributed payroll obligations accrued during the last pay period of the fiscal year, \$5.2 million of principal and interest due on long term debt and notes on October 1st.

Restricted and Apportioned Liabilities represent obligations payable from Restricted and Apportioned Assets that are likely to be settled within the next year.

Accrued Liabilities represent payroll-related obligations that are not likely to be settled within the next year. This includes approximately \$5.9 million in unpaid sick and vacation time and approximately \$84.6 million representing the actuarially accrued liability for health insurance benefits payable to employees during retirement. This obligation is the result of a state of Florida mandate, which requires that any city which offers health insurance coverage to retired employees must provide that coverage at the same health insurance premium rates applied to active employees. Since the population of retired employees is prone to higher medical costs than the population of active employees, there is an implied subsidy built into that retiree health insurance premium.

Long-term debt payable increased by approximately \$1.0 million from 2021 to 2022 due to the addition of long-term leases per GASB 87. The dollar value of those outstanding loans, notes, and bonds was approximately \$89.5 million as of the end of 2022. Those loans are supported by four fixed interest revenue bonds. The City's long term capital plan calls for the repayment of a little over \$35.0 million of these loans within the course of the next five years.

### **Business-type activities:**

Current Assets consist predominantly of \$114.9 million of cash and investments, \$77.1 million of receivables, \$2.0 million of leases receivables, and \$31.0 million of inventories; less approximately \$30.9 million representing the estimated value of those assets held within internal service funds of the City that are allocable to governmental activities. In the aggregate, these assets increased \$9.1 million during 2022. There was an increase of \$7.5 million within Electric Utilities system – as a result of an increase in liquidity from operations; there was a \$7.9 million increase within the Internal Loan Fund – as a result of the net repayment/issuance of loans during the year; and there was a \$1.5 million increase in the Solid Waste Fund resulting from an increase in liquidity from operations.

Asset Apportionments represents assets that are designated by the City Commission for certain specific uses – as opposed to current assets, which generally can be used to finance the cost of any general governmental operation. Apportioned assets are primarily comprised of \$163.4 million committed to financing the cost of capital improvements, \$37.3 million in assets held for vehicle replacements, and \$28.2 million in assets held by funds used to self-insure the city against certain risks.

### MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

### **GOVERNMENT-WIDE FINANCIAL STATEMENTS (continued)**

### **Business-type activities (continued):**

Restricted Assets are legally restricted for expenses for certain purposes. These consist predominately of \$16.5 million in customer deposits collected by utility operations, \$138.3 million of unspent water and wastewater impact fees. This class of assets increased approximately \$90.8 million during the year, predominantly from the expenditures related to capital projects.

Current Liabilities represent obligations payable from Current Assets that are likely to be settled within the next year. These consist of primarily \$46.7 million in amounts owed to vendors, \$12.2 million in obligations accrued during the last pay period of the fiscal year, \$49.1 million in bonded debt, loans principal, leases payable, and interest payable on October 1, 2022, \$8.0 million in current obligations of the city's self-insurance program, and approximately \$0.2 million in tenant deposits held by the Lakeland Linder International Airport.

Restricted and Apportioned Liabilities represent obligations payable from Restricted and Apportioned Assets. These consist of approximately \$16.3 million in obligations of the city's self-insurance program, and \$16.5 million in customer deposits.

Accrued Liabilities represents obligations that are not likely to be settled within the next year. This includes approximately \$5.8 million in unpaid sick and vacation time, \$4.4 million in profits earned on settlement of a natural gas purchase agreement, approximately \$3.9 million representing the actuarially accrued liability for asset retirement obligations, and approximately \$35.0 million representing the actuarially accrued liability for health insurance benefits payable to employees during retirement. This obligation is the result of a State of Florida mandate, which requires that any city which offers health insurance coverage to retired employees must provide that coverage at the same health insurance premium rates applied to active employees. Since the population of retired employees is prone to higher medical costs than the population of active employees, there is an implied subsidy built into that retiree health insurance premium.

### MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

### **GOVERNMENT-WIDE FINANCIAL STATEMENTS (continued)**

Capital asset and debt administration: (continued)

### Capital assets (continued)

This investment in capital assets includes land, buildings, improvements, machinery and equipment, plant, distribution and generation facilities, and infrastructure. The total book value of capital assets as of September 30, 2022, was \$1,679,721,779 which represents a net increase of \$61,614,317 for the year.

Gross capital spending for the year exceeded \$140.2 million. Major capital asset additions during the current fiscal year included the following:

- \$11.0 million in land, right of way, and construction for roadway projects
- \$9.45 million in parks and recreation facility improvements
- \$1.9 million in public facility improvements
- \$.520 million in public safety facility improvements
- \$0.05 million in Stormwater system improvements
- \$8.5 million for new vehicles
- \$.5 million for computers and software; system upgrades
- \$10.6 million for improvements at the city-owned airport
- \$17.1 million in water and wastewater system improvements
- \$54 million in electric transmission, distribution, and generation improvements

Additional information regarding the capital assets of the City can be found in Note 4 of the basic financial statements.

### Long-term debt

As of September 30, 2022, the City of Lakeland's total bonded and notes outstanding was \$741.6 million. This represents a net decrease of \$91.7 million compared to 2021. During the year, the City made scheduled retirements of debt of approximately \$65.0 million and had debt issuance of \$156.7 million.

Most of the long-term debt outstanding represents revenue notes and bonds issued by the Electric and Water/Wastewater Utilities. Payment of annual principal and interest on this outstanding debt is secured by a lien on the net operating revenues of those operations. Revenue bond obligations issued for the benefit of governmental activities are paid from amounts accumulated in legally required sinking funds maintained in the debt service fund. The City has no general obligation bonded debt outstanding.

The City does not have any debt limitations that could affect the financing of planned facilities or services. Additional information regarding the long-term debt of the City can be found in Note 6 of the basic financial statements.

### **MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)**

### **GOVERNMENT-WIDE FINANCIAL STATEMENTS (continued)**

### Governmental Activities – Revenues, Expenses and increase in net position

The combined amount of tax revenue from all sources (property tax, sales tax, and utility taxes) was up 0.08% compared to the prior year due to higher than expected tax revenue collections and increased property values. Total spending on governmental activities was down 2.4% due to a slight decrease in operating expenses. Overall, the City's reliance on taxes as a source of revenue decreased slightly from 50.7% in 2021 to 48.7% in 2022 due to decreased tax revenues. For 2022, the City's property tax millage rate was 5.4323 mills.

Other operating revenue sources consist of grants, certain lease proceeds, and amounts collected directly from users of city services.

In the aggregate, total revenues collected, not including the Lakeland Regional Health lease payment, in FY 2022 were down 42.7 % compared to 2021 because large decrease in the fair value of investments. Property tax revenues increased as a result of the increased property values and operating grants and contributions decreased as a result of decreased grant funded transportation projects.

Total governmental expenses for 2022 were 2.4 % lower compared to 2021. Direct payroll costs increased slightly during 2022 compared to 2021, as a result of cost of living adjustment and merit increases for FY 22.

Altogether, direct revenues of the governmental activities are not sufficient to pay all related expenses. The City has historically addressed the difference by relying on a portion of profits earned from certain business-type activities – namely electric, water, wastewater, and solid waste utility services - to finance a portion of the cost of general governmental activities. These subsidies are embedded in the net amount shown as "Transfers" on the Statement of Activities. For FY 2022, these transfers amounted to a net \$62.0 million. This represents approximately 39.9% of the operating cost of general governmental activities.

### Business-type Activities - Revenues, Expenses and increase in net position

In the aggregate, the cost of operating the business-type activities of the City is fully recovered from user charges. Those revenues also provide excess amounts available to subsidize a portion of the cost of general governmental activities and amounts necessary to finance the majority of capital improvements. The City-operated Electric Utility is the largest of the operations accounted for within the business-type activities.

Contributions and grants from other governments decreased 0.49% during the year – predominantly the result of the decrease in capital grants and contributions for airport operations.

Overall profitability of these business-type activities decreased from \$146 million (before transfers) in fiscal 2021 to \$91 million for 2022 primarily due to the \$64.3 decrease in interest income.

Of these profits, \$62.0 million was transferred to help finance the cost of general governmental activities. In the aggregate, the transfer of profits from these business type activities represented 12.5% of gross operating revenues of these business-type entities (excluding revenues associated with recovering the cost of fuel used to generate electricity).

### Other Post Employment Benefit costs

As previously mentioned, the Statement of Net Position of both the governmental and business-type operations include approximately \$156.5 million in liabilities associated with post-employment health insurance benefits payable to retired city employees. Also included in both governmental and business-type expenses is approximately \$2.3 million of cost associated with increases in the unfunded portion of those OPEB costs. This cost and increase in liabilities are attributable to the fact that the City does not actuarially fund the implied cost associated with the state mandate to establish a uniform premium rate applying to both retired and active participants in the self-insured health insurance program. In lieu of funding the cost of this program in advance, the City will continue to address this cost on a "pay as you go basis", by offsetting the annual value of that implied subsidy for retired employees with increases in the cost of health insurance assessed against active employees – and paid by both the City (as the employer) and active employees themselves.

### MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

### **GOVERNMENT-WIDE FINANCIAL STATEMENTS (continued)**

### **Pension Costs**

Also included in the Statement of Net Position of both the governmental and business-type operations are approximately \$92.4 million in assets associated with retirement benefits payable to city employees. Also, included in both governmental and business-type expenses is approximately \$24.5 million in pension gain.

### **FUND FINANCIAL STATEMENTS**

This is the second section of the basic financial statements, which starts on page D-5. It presents information in more detail, centered on individual "Funds". For record keeping and reporting purposes, the City separates many of its unique operations into separate accounting "companies" called funds. Separating the record keeping into individual funds enables the City to maintain accounting control over resources and expenses that are dedicated to specific activities. The City also uses fund accounting to separate financial transactions as needed to ensure compliance with finance-related legal requirements imposed on the City by other governments and bond covenants.

All the funds of the City can be divided into three types: governmental funds, proprietary funds, and fiduciary funds.

### **Governmental funds**

There are two types of financial statements presented for governmental funds – a balance sheet (showing assets, liabilities, and the difference between the two – technically referred to as "fund balance") and a statement of revenues, expenditures, and changes in fund balance (which is similar to a profit or loss statement). The balance sheet appears on page D-5 and the statement of revenues, expenditures, and changes in fund balance is on page D-7.

For purposes of preparing the financial statements for the governmental funds within this section of the report, the basis of accounting used to measure the value of assets, liabilities, revenues, and expenditures on more of a "pay as you go" basis – which is the method used to budget for these types of governmental operations. Under this accounting method, the balance sheet only includes working capital assets (cash, investments, receivables) and liabilities that are generally payable within a short period of time. The statement of revenues, expenditures, and changes in fund balance only shows all cash inflows and outflows that occur within in a given year.

This accounting method is different than the full accrual method used to prepare the Government-Wide Financial Statements. The reason for this different accounting approach is that the activities in these funds are not financed from charges for services. As a result, there is no emphasis placed on measuring annual "net profit or loss" resulting from those operations. Instead, the accounting focuses on whether there will be enough cash flows available in a given year to finance the costs of providing services. The emphasis is much more focused on activities occurring within a one-year budget period rather than the long-term. This methodology is referred to as the "modified accrual" basis of accounting.

A reconciliation schedule is provided within these fund financial statements to identify differences between the modified accrual basis of accounting used in these fund financial statements and the full accrual basis of accounting used in the government wide statements.

The City has two major governmental funds; the General Fund and the Public Improvement Fund. The General Fund serves as a "catch-all" used to capture the day-to-day operating costs associated with a variety of different programs and activities that are not financed from charges for services and other fees. The Public Improvement Fund is used to finance a variety of capital and maintenance projects and debt service related to governmental activities of the City. These funds appear in own separate columns on the fund financial statements. All other governmental funds of the City are consolidated into a single column of information labeled Other Governmental Funds. The activities in this column generally represent the cost of transportation capital improvements required to support general governmental activities, plus certain activities that are legally required to be accounted for separately from the "catch-all" activities reported in the General Fund.

### **MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)**

### **FUND FINANCIAL STATEMENTS (continued)**

### **Proprietary funds**

Those services provided by the City which are classified as business-type activities in the government-wide financial statements, are labeled as proprietary funds within the fund financial statements. The basis of accounting used within these statements is the full accrual basis of accounting, wherein all assets, liabilities, and net position related to a given activity, as well as transactions, events, or interfund activity of the period that affect net position (economic resources measurement) regardless of the timing of related cash flows (accrual basis of accounting).

The major proprietary funds of the City are the Lakeland Electric Utility Fund, the Water and Wastewater Utility Fund, and the Lakeland Linder International Airport Fund. Information for these three funds is presented in three separate columns within the fund financial statements. The remaining proprietary funds of the City that account for user-financed services provided to the general public are consolidated into a single column labeled Other Enterprise Funds within these statements.

In addition, there is a separate column on these financial statements which consolidates the activities that are provided exclusively to support operations of the City government itself, such as a motor pool, centralized purchasing and warehousing, and a self-insurance financing pool. These services are provided to the various City functions on a cost recovery basis. These are labeled Internal Service Funds within the fund financial statements.

The balance sheet (showing assets, liabilities, and the difference between the two) for the proprietary funds appears on pages D-9 and D-10 and a statement of revenues, expenses, and changes in net position (which is similar to a profit or loss statement) is on page D-13.

### Fiduciary funds

The City also maintains separate funds called fiduciary funds, which account for the activities of the City's pension funds, private-purpose trust funds, and custodial funds. These activities benefit private parties such as retired City employees and other governmental entities. The fact that these services are not provided to the general public mandates their accounting in this separate section of the report. The balance sheet and statement of changes in fiduciary net position appears on pages D-17 and D-18, respectively.

The following section of this letter discusses the results of operations for the three major funds of the City in more detail.

### **General Fund**

The General Fund is used to account for most of the governmental activities of the City, including activities of the Police and Fire Departments; Public Works (road and drainage construction and maintenance); the Parks & Recreation Department; libraries; growth management; public utilities (such as street lighting); and administrative functions. These activities are financed from a combination of taxes, user fees, and transfers of a portion of the operating profits earned by the business-type activities operated by the City.

| OVER EXPENDITURES                |        | (51,510,548) |        | (55,152,951)     |             | (39,741,422) |    | 15,411,529  |
|                                  |        | ,            | -      |                  |             |              | -  |             |
| OTHER FINANCING SOURCES AND USES |        | 48,349,931   |        | 45,574,989       |             | 48,258,968   |    | 2,683,979   |
| NET CHANGE IN FUND BALANCE       | \$     | (3,160,617)  | \$     | (9,577,962)      | \$          | 8,517,546    | \$ | 18,095,508  |

The schedule above shows the budget that was originally adopted for the General Fund as well as the "Final Budget".

Actual revenues in the aggregate were about 0.6% less than the final budget, with significant variances within the intergovernmental and miscellaneous categories. Intergovernmental revenue, which includes grants and state shared revenue, were \$4.3 million greater than budget - \$4.2 million in state shared revenues were collected over the amount budgeted. Estimated amounts for state shared revenues were reduced in FY 22 due to the slower economic recovery anticipated.

Miscellaneous revenues were \$7.1 million less than the budget, primarily as a result of \$6.3 million decrease in the market value of the City's cash investment pool at year end.

Spending was significantly below budget; however, spending was 12.0% lower than fiscal year 2021. This is due to the \$41.7 million payment to the pension plan resulting from the issuance of the pension reduction note made in the prior year. Other operating expenses have remained relatively flat. These expenses remained flat due to budgetary operating increase for 2022 as compared to 2021 were lower. Controllable cost expenditures were limited to 1.50% of the previous year's original budget.

For the year ended September 30, 2022, the City realized an increase in the fund balance within the General Fund of \$8.5 million compared to \$11.8 million in FY 2021. Property tax revenues increased \$1.9 million as property values experienced an increase of over 8%. Total revenues were up \$4.9 million primarily due to the increase in state shared revenues and property taxes. Total unrestricted reserves at the end of the year were \$47.0 million, of which \$14.9 million is appropriated to balance the 2023 budget and carryovers.

#### **MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)**

#### **FUND FINANCIAL STATEMENTS (continued)**

#### **Public Improvement Fund**

The Public Improvement Fund is used to finance a variety of capital and maintenance projects and debt service related to governmental activities of the City, including activities of the Police and Fire Departments; Public Works (road and drainage construction and maintenance); the Parks & Recreation Department; libraries; growth management; public utilities (such as street lighting); and general governmental City facilities. These activities are financed primarily from the hospital lease revenues and impact fee revenues.

A summary of the operations of this fund, including a comparison to the approved budget, is as follows:

#### PUBLIC IMPROVEMENT FUND

For the year ended September 30, 2022, the Public Improvement Fund realized a decrease of \$51.6 million in fund balance due the \$50.1 million decrease in the market value of the City's pooled investments at year end from the previous year. Total unrestricted reserves at the end of the year. The funding level for capital projects within the Public Improvement Fund remained relatively flat from the previous year.

Total unrestricted reserves at the end of the year were \$8.7 million, of which \$6.1 million was appropriated to balance the 2023 budget and carryovers.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

#### **FUND FINANCIAL STATEMENTS (continued)**

#### **Lakeland Electric**

The Lakeland Electric Fund is used to account for the generation and delivery of electric power to residential and commercial customers in the greater Lakeland area. The service territory for Lakeland Electric is a predefined, 246 square mile area, encompassing all incorporated City limits and the surrounding area. The utility serves approximately 139,605 retail customers.

A summation of the results of operations for Lakeland Electric is as follows:

#### **DEPARTMENT OF ELECTRIC UTILITIES**

#### MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

#### **FUND FINANCIAL STATEMENTS (continued)**

#### Lakeland Electric (continued)

#### Net Position of Lakeland Electric

The net position of Lakeland Electric increase by \$24.4 million during fiscal year 2022, compared to a \$0.1 million increase in fiscal year 2021, primarily reflecting the impact from the retirement of Lakeland Electric's coal-fired generating unit during 2021. Operating income was \$98.5 million in fiscal year 2022, compared to \$80.4 million in the preceding year. The year-over-year increase in operating income is primarily attributable to lower depreciation associated with the retirement of the utility's coal generating unit and reduced non-fuel operating expenses.

#### Financial Highlights

Lakeland Electric's 2022 non-fuel retail revenue was up \$3.4 million from the previous fiscal year, reflecting load growth of 1.4%. Residential load grew at 0.5% while commercial and industrial load grew 2.3% as the business sector recovered from the pandemic lock down. Total year-over-year customer growth was 1.3%.

Non-operating revenue decreased by \$39.9 million from the previous fiscal year. Investment revenue decreased by \$1.3 million. Additionally, a \$33.0 million unfavorable fair value adjustment on Lakeland Electric's share of the City's pooled investments was recognized in fiscal year 2022, compared to a favorable adjustment of \$5.5 million recognized in the previous year. Fair value adjustments, up or down, are caused by the impact of interest rate changes on fixed income securities. Most of Lakeland Electric's investments are held through maturity.

Lakeland Electric's non-fuel operating expenses, excluding gross receipts tax and depreciation, were down \$8.0 million or 10.4% from \$76.7 million in fiscal year 2021 to \$68.7 million in 2022. The favorable variance is primarily attributable to lower production and pension expenses as a result of more vacant positions during fiscal year 2022 compared to 2021. Total operating expenses, excluding fuel and depreciation, average \$20.86 per retail MWh in fiscal year 2022, compared to \$23.60 in 2021.

Administrative and general expenses were \$9.6 million below that of the previous fiscal year, largely due to reduced pension costs and more vacant positions during fiscal year 2022 compared to the previous fiscal year.

Fuel and purchased power expenses were up \$53.1 million in fiscal year 2022, primarily reflecting substantially higher natural gas prices.

Lakeland Electric recovers fuel costs from retail customers in the form of a fuel charge that is subject to a quarterly revision based on a forecast of fuel costs for the following twelve months. As of September 30, 2022, the retail fuel charge was \$75.00 per MWh, compared to \$40.00 per MWh twelve months earlier. The fuel recovery balance represents, on an accrual basis, the cumulative difference between fuel expenses incurred to serve retail load and fuel revenues realized. Lakeland Electric began fiscal 2021 with a cumulative over-recovered fuel position of \$22.7 million and ended the year at \$10.0 million. The fuel reserve was not over-funded as of September 30, 2022, and there was no need for a regulatory liability to be recognized. See Note 1.D.16.

Lakeland Electric recovers environmental compliance costs from retail customers in the form of an environmental compliance charge which is set annually, with the objective of achieving a zero cumulative recovery balance at the end of the subsequent budget year. An environmental compliance rate of \$2.8758 per MWh was in effect during fiscal year 2021 and 2022. As of September 30, 2022, Lakeland Electric had a cumulative over-recovered environmental cost balance of \$3.6 million which was classified as a regulatory liability. Based on sales and environmental compliance expense projections, a rate of \$2.4097 per MWh was recommended for fiscal year 2023. See Note 1.D.16.

Lakeland Electric recovers energy conservation charges in a similar manner to environmental compliance charges. The conservation charge is currently a flat fee of \$0.50 per month per customer. Lakeland Electric had a cumulative under-recovered energy conservation charge balance of \$34 thousand, classified as a regulatory asset, as of September 30, 2022. See Note 1.D.16.

Lakeland Electric provides a dividend at a rate of \$9.96 per MWh to the City of Lakeland's General Fund in the form of monthly cash transfers. The total amount of the dividend in fiscal year 2022 was \$32.8 million, compared to \$32.4 million in 2021.

#### **MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)**

#### **FUND FINANCIAL STATEMENTS (continued)**

#### Lakeland Electric (continued)

#### Capital Assets

Lakeland Electric has historically funded the cost of capital improvements through a combination of bond financing and cash generated from retail utility rates. Cash set aside from base rates provided funding for some of the capital spending during the year.

Capital spending (net of contribution in aid of construction) totaled \$59.9 million in fiscal year 2022 compared to \$49.0 million in 2021. The increase in the capital spending during fiscal year 2022 compared to fiscal year 2021 is mainly attributable to the construction of new generation at the McIntosh plant.

Depreciation expense, net of amortization of contributions in aid of construction, was \$33.0 million in 2022 compared to \$38.8 million in 2021 reflecting the retirement of the utility's coal-fired generating unit.

Lakeland Electric recorded contributions in aid of construction from outside the Department in the amount of \$2.7 million during fiscal year 2022, compared to \$1.9 million in 2021. These amounts are included in the Plant in Service balance in the Statements of Net Position. See Note 4.

The total net dependable generating capacity of the production units owned by Lakeland Electric is 715 megawatts (MW). The most efficient unit in Lakeland Electric's fleet is McIntosh 5, a 398 MW combined cycle natural gas unit. McIntosh 3, a 342 MW coal-fired unit, jointly owned by Lakeland Electric and Orlando Utility Commission (OUC) was retired April 2021 due to economic reasons. Until the six new 20 megawatt each (120 MW total), reciprocating internal combustion engine (RICE) generators are constructed and comes online, anticipated by the third quarter 2024, a portion of the capacity and power previously provided by McIntosh 3 will be supplied through a 125 MW Power Purchase Agreement with OUC. In addition to its Power Purchase Agreement and its base load, intermediate and peaking units, Lakeland Electric shares a power pool with Florida Municipal Power Agency (FMPA) and OUC, which provides access to relatively low-cost power to supply peak demand. Lakeland Electric has sufficient resources and transmission capacity to cover its projected load requirements for at least the next four years.

#### Long-term Debt

As of September 30, 2022, Lakeland Electric had \$430.7 million in net long-term bond debt outstanding compared to \$327.3 million at the end of 2021. The current portion of the long-term debt (\$19.9 million) is paid on the first day of the subsequent fiscal year (October 1st). Refer to Note 6, Revenue Bonds, for more detailed information regarding long-term debt.

The coverage on bonded debt of Lakeland Electric for 2022 was 3.50 times the annual debt service requirement for the fiscal year ended 2022. Lakeland Electric is not obligated to fund a Debt Service Reserve Fund, provided that "net revenues" equal or exceed 150 percent of the bond service requirement for each year.

Based on debt service requirements and forecasted revenues and expenses, debt service coverage is expected to remain greater than 2 times the annual debt service requirement in fiscal year 2023.

In 2020, the City of Lakeland issued its Florida Taxable Pension Liability Note, Series 2020, for purposes of reducing the unfunded liabilities in the City's three pension plans. The note is secured by a pledge to budget and appropriate non-ad valorem revenues of the City. The City allocated the liability to each fund according to the fiscal year 2020 pension contributions of each department. Lakeland Electric's share of the liability was 35.34% or \$20.4 million at the time. As of September 30, 2022, the balance of the Pension Liability Bond is \$18 million with a current portion payable of \$1.2 million (See Note 6 - Florida Taxable Pension Liability Reduction Note, Series 2020). This debt is not included in Lakeland Electric's Debt Service Coverage calculation; however, the expenses are included as part of the calculation.

Lakeland Electric sets aside apportioned funds to meet its current debt service requirements.

#### **MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)**

#### **FUND FINANCIAL STATEMENTS (continued)**

#### Lakeland Electric (continued)

#### **Economic Factors**

The average demand for energy placed on the system from retail customers during Fiscal Year 2022 was 384 MW. The peak demand during the winter was 662 MW on January 24, 2022, and a summer peak demand of 699 MW was reached on June 15, 2022. Lakeland Electric expects to see a growth of approximately 0.9% in the retail customer base during fiscal year 2023. Lakeland Electric's ten largest customers account for less than 20 percent of revenue and well over half of the annual revenue comes from residential customers.

The bond ratings services of Fitch Ratings™, Moody's™, and Standard & Poors™ have assigned long-term ratings of AA, Aa3, and AA, respectively, to Lakeland Electric's energy system bonds.

Currently Known Facts or Conditions That May Have a Significant Effect on the Net Position or Results of Operations

Lakeland Electric's rates, among all customer classes, have consistently been among the lowest in Florida for many years. Residential rates for September 2022 were in the bottom half of any municipal and investor-owned electric utility in the State.

Days cash is a key financial metric used as a measure of liquidity, essential for maintaining strong bond ratings. An internal goal of Lakeland Electric is to maintain 180 days of operating cash. At the end of fiscal year 2022, Lakeland Electric had 210 days of cash compared to 245 in the previous fiscal year. The decrease in the days of cash is mainly attributable to a \$33.0 million unfavorable fair value adjustment on Lakeland Electric's share of the City's pooled investments.

Lakeland Electric has been, and will continue to be, impacted by various regulatory and legislative requirements. In the opinion of Lakeland Electric, the System is currently in compliance with all current federal, state, and local environmental regulations. Lakeland Electric cannot predict at this time whether any additional legislation or rules will be enacted which might affect operations, and if such laws or rules are enacted, what the additional capital and operating costs, if any, might occur in the future because of such actions. The estimation of costs of compliance is subject to significant uncertainties and the financial impact of future proposals could be substantial.

#### Net Position of the Water and Wastewater Utility

The net position of the Water and Wastewater Utility increased by \$17.6 million during FY 2022 compared to a \$40.9 million increase in 2021. Operating income was \$31.8 in 2022 compared to \$26.7 million in FY 2021. The increase in operating income was primarily due to the 2% rate increase implemented in both the water and wastewater rates for FY 2022 and the addition of 1,210 customers to the system. The Water Utility System served 61,635 customers: 54,951 residential and 6,684 commercial customers for fiscal year 2022.

#### Financial Highlights

Water revenues are based on the measured flow of water sales into each customer's facility. Total sales volume for the water system tends to fluctuate significantly from year to year – due in some degree to changes in weather patterns that affect the amount of water sold for irrigation purposes. Over the past several years, Water Utilities across the state have seen consistent and significant declines - due partially to the introduction of tiered rate structures that encourage conservation and due to the slowdown in the economy. Total gallons of water sold in FY 22 were 7.8 billion, up by 1.3% from FY 21.

For Wastewater operating revenues, the gallons of water sold, upon which the majority of wastewater operating revenues are based, were 3.7 billion gallons. Residential wastewater revenues are capped at 12,000 gallons per customer/per month.

In the aggregate, operating revenues increased 4.3% due to the 2% rate increase and an additional 1,210 customers. Wastewater Pretreatment revenues from high strength commercial waste increased by 4.7% in FY 2022 primarily as a result of the increase in commercial customers.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

#### **FUND FINANCIAL STATEMENTS (continued)**

#### Water and Wastewater Utility (continued)

Non-operating revenues and expenses decreased by \$17.2 million. Investment revenue decreased by \$17.1 million due to the \$16.2 decrease in the fair value adjustment of Water and Wastewater Utility's share of the City's pooled investments recognized on September 30, 2022.

Operating expenses excluding depreciation were down slightly by 2.6% primarily due to the slight decrease in routine repairs and maintenance.

Unrestricted net current assets decreased slightly by \$3.0 million over the course of the year, now totaling \$50.7 million. Excluding non-cash items such as depreciation, amortization, and OPEB expenses, the system earned an operating profit of approximately \$56.9. Of this amount, \$7.2 million was transferred to sinking funds to finance debt service obligations, and \$9.6 million was transferred to the General Fund as a dividend payment. The utility transferred \$22.1 million from revenues to finance capital improvements for the year.

Unrestricted cash liquidity is \$90.6 million - up from \$86.8 million in FY 2021. The increase in the unrestricted cash component of this liquidity is the result of increases in operating revenues.

Currently Known Facts or Conditions That May Have a Significant Effect on the Net Position or Results of Operations

In January of 2021, the EPA revised the Lead and Copper Rule which provides for testing, monitoring, treatment, customer awareness and lead service line replacement in water systems. Compliance with the new rule is required by October 16, 2024 and may include changes to corrosion control treatments, increased monitoring, lead service line replacements, and community outreach.

Revisions to the Central Florida Water Initiative (CFWI) Rules were ratified in 2021. Impacts to the City public water supply include a potential reduction to our current Upper Floridan Aquifer withdrawal limit. Limits could be reduced from our current allocation of 35.03 to 23.84 million gallons per day if the SWFWMD demonstrates that our current allocation is detrimental to other water users or water resources. In addition, new goals for per capita daily water use will require our water conservation initiatives and reuse rates continue at current levels. The City is looking at alternative water supplies in conjunction with the Polk Regional Water Cooperative as well as increasing reuse options to meet future water demands.

#### **Lakeland Linder International Airport**

The Lakeland Linder International Airport is used to account for activities related to the operations and maintenance of the general aviation facilities and related industrial activities of the airport. The airport is home to over 260 based aircraft, home of the NOAA Hurricane Hunters, an Amazon air cargo facility, and many other aviation related activities.

A summation of the results of operations for the Lakeland Linder International Airport is as follows:

#### Net Position of the Lakeland Linder International Airport Fund

The net position of the Lakeland Linder International Airport increased by \$6.1 million during FY 2022 compared to a \$12.8 million increase in FY 2021. Operating income, excluding depreciation, was \$5.4 million compared to \$4.7 million in FY 2021. This increase is a result of the additional operating revenues generated from increased operating lease revenues.

#### Financial Highlights

Airport revenues are primarily derived from building and land leases as well as gasoline sales and landing fees associated with aviation activities. The airport has over 65 tenants with various aviation operations including air cargo, aircraft management, defense contracting, flight training, and aircraft maintenance. Operating revenues increased \$0.6 million (6.1%) as a result of increased lease revenues from the addition of tenants.

The Airport historically has financed capital projects part of the Airport's Master Plan extensively through grant partnerships with the FAA, FDOT, and local funding sources. During FY 2022, the Airport received \$8.6 million in funding from these sources.

#### **MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)**

#### **FUND FINANCIAL STATEMENTS (continued)**

#### **Lakeland Linder International Airport (continued)**

Non-operating revenues increased by \$1.3 million. Investment revenue increased by \$1.4 million due to the increase in interest related to leases and the fair value adjustment of Airport's share of the City's pooled investments recognized on September 30, 2022.

Unrestricted net current assets for the year were \$8.0, a decrease of \$3.8 million over FY 2021. The decrease was due to the decrease in current assets set aside to pay \$0.5 million in current accrued liabilities related to capital projects.

#### **ECONOMIC FACTORS AND NEXT YEAR'S BUDGET**

The FY 2023 Budget is the City's financial, operational, performance management, and capital plans received from the input of the Mayor and the City Commission during the Annual Strategic Planning Retreat and Budget Workshops. The Strategic Planning Retreat allocates resources through service prioritization based on strategic alignment with the City of Lakeland strategies. Following establishment of the Strategic Plan, the budget workshop narrow strategic visioning into funding initiatives, including some specific priorities as determined by the City Commission. As a result, the FY 2023 Budget includes funding for City Commission initiatives linked to strategic objectives established in the 2021-2025 Strategic Plan in the infrastructure, economic development, affordable housing, city hall communication, parks and recreation, resiliency plans, and public safety strategic target areas.

The adopted operating budget for FY 2023 is \$730 million or 4.36% lower than the FY 2022 adopted budget of \$763 million. This decrease in primarily due to the large non-reoccurring capital projects budgeted in FY 2022. The FY 2023 Budgeted included an across the board increases of 5.0% for all non-CBA employees, and 2.5% merit increases for eligible employees. The General Fund Budget for FY 2023 is \$152 million or 13.4% higher than the 2022 adopted budget of \$134 million due to the additional public safety expenditures added in FY 2023.

#### REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the City of Lakeland's finances and was prepared by the Finance Department of the City. This report also contains general information on the blended component unit, Lakeland Community Redevelopment Agency, of the City of Lakeland. Requests for additional information should be addressed to the Finance Director at 228 South Massachusetts Ave, Lakeland, FL 33801.

## RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE GOVERNMENT-WIDE STATEMENT OF NET POSITION SEPTEMBER 30, 2022

\$ 93.792.270

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds:

Governmental capital assets \$ 636,964,193

Less accumulated depreciation/amortization (297,503,425) 339,460,768

The value of certain assets and deferred outflows of resources are not recorded in the governmental fund financial statements, because such amounts normally are not convertible to cash on a timely enough basis to pay for the current period's expenditures. These assets consist of the following:

Revenues collected more than 60 days from year end 24,776,137

Deferred outflows of resources related to pensions 19,728,642

Deferred outflows of resources related to OPEB 42,883,376

Net pension asset attributable to employee salaries financed from government fund types 45,893,528

Certain long-term liabilities, including bonds payable, and deferred inflows of resources are not due and available in the current period and therefore are not reported as liabilities in the governmental funds. Long-term liabilities at year-end consist of:

Accrued liability for long-term compensated absences (5,936,383)

Deferred inflows of resources related to pensions (77,673,567)

Net OPEB liability attributable to retiree benefits financed from governmental fund types (84,606,753)

Deferred inflows of resources related to OPEB (67,990,089)

Bonds, loans, notes payable, lease liabilities, and lease financings (88,135,519)

Internal Service Funds are used to account for certain operating costs that are common to all City funds, such as the cost of vehicles, insurance, and centralized purchasing. These costs are allocated to the individual funds on a pro-rata basis, however the assets of these Internal Service Funds are recognized within the business-type activities component of the Government-wide Statement of Net Position. The Internal Service Funds operated at a gain for the fiscal year. The cumulative pro-rata share of these gains/losses attributable to governmental activities has been included in the allocation of costs to the governmental

activities, resulting in an uncollected receivable from the business type activities. 30,926,722

Net Position of Governmental Activities \$ 273,119,132

### STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE GOVERNMENTAL FUNDS FOR THE YEAR ENDED SEPTEMBER 30, 2022

## RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE OF THE GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED SEPTEMBER 30, 2022

| Net change in fund balances - | <ul> <li>total governmental funds</li> </ul> |
|-------------------------------|--|
|-------------------------------|--|

\$ (50,709,741)

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives a depreciation expense. This is the amount by which capital outlays exceed depreciation expense in the current period.

 Capital outlay
 \$ 27,026,244

 Depreciation expense
 (14,784,728)
 12,241,516

The book value of assets disposed of during the year are not reported as an expenditure in the governmental funds, however it is reocognized as a component of gain or loss on the disposition of capital assets in the statement of activities.

(946,028)

Capital assets

**CWIP** 

(49,776)

The book value of donated assets during the year are not reported as a revenue in the governmental funds, however it is reocognized as revenue in the statement of activities.

527.074

Net asset transfers from proprietary funds are not reported as a revenue in the governmental funds, however it is reocognized as a transfer in the statement of activities.

14,579,290

Recognition of lease liabilities in governmental funds is recorded as a revenue in the governmental funds, but the proceeds result in an additional liability in the statement of net position.

(665,317)

Repayment of principal on bonds and notes is recorded as an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

13,154,757

Amortization of bond premium is not reported as an expenditure in the governmental funds, but the amortization reduces long-term liabilities in the statement of net position.

(44,444)

Repayment of principal on other long-term debt is recorded as an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

1,173,559

Early terminations of long-term debt do not use current financial resources and are not recorded as expenditues in the governmental funds. however they result in a decrease in long-term liabilities in the statement of activities.

135,791

Contributions to certain pension plans do not use current financial resources and are recorded in full as expenditures in the governmental funds, however a portion of these disbursements decrease the net pension liability in the statement of activities.

19,065,595

Contributions to the retiree benefits do not use current financial resources and are not recorded in full as expenditures in the governmental funds, however these disbursements decrease the net OPEB liability in the statement of activities.

220,800

Certain deferred revenues that do not provide current financial resources are not reported as revenues in the governmental funds, but are included in the statement of activities.

(785,336)

In the governmental funds, personnel costs are measured by the amount of financial resources used, which does not include the increase in accrued, compensated absences. These expenses are recorded in the statement of activities.

(56,898)

The revenue and expenses of the Internal Service Funds are reported as a component of proprietary funds and accordingly are not recognized in the governmental funds. A portion of these net revenues and expenses are recorded as governmental activities in the statement of activities.

(3,290,800)

Change in net position of governmental activities

## RECONCILIATION OF THE PROPRIETARY FUNDS STATEMENT OF NET POSITION TO THE GOVERNMENT-WIDE STATEMENT OF NET POSITION SEPTEMBER 30, 2022

Net position - business-type activities:

| Enterprise Funds<br>Internal Service Funds   | \$         | 910,703,369<br>79,395,490 |
|--|------------|---------------------------|
|  |            | 990,098,859               |
| Amounts reported for business-type activities in the statement of net position are different because:  |            |                           |
| Internal Service Funds are recognized within the business-type activities component of the Government-Wide Statement of Net Position, however the revenues and expenses of Internal Service Funds are allocated to the governmental and proprietary fund-types on a pro-rate basis. The Internal Service Funds operated at a gain for the fiscal year. The cumulative pro-rate share of the gains/losses resulted in an unpaid liability to the governmental activities in the Government-Wide Statement of Ne | :<br> <br> |                           |
| Position.  | ī          | (30,926,722)              |
| Net Position of Business-type Activities   | \$         | 959,172,137               |

#### THIS PAGE IS INTENTIONALLY BLANK

#### **NOTES TO FINANCIAL STATEMENTS**

#### **SEPTEMBER 30, 2022**

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City's financial statements are prepared in accordance with accounting and financial reporting standards established by the Government Accounting Standards Board (GASB) for U.S. state and local governments that follow Generally Accepted Accounting Principles (GAAP) in the United States of America.

There are significant differences in the financing and operating environments between private and public sector entities, resulting in the unique application of accounting principles to government entities. The primary difference is the lack of a profit motive in many aspects of governmental operations, focusing instead on the best and most effective use of limited resources. Nevertheless, the GASB has endeavored to provide financial reporting standards that both satisfy the accounting needs that are unique to government entities, and disclose financial information that is prepared on a basis more comparable to the more widely understood accounting practices adopted by the private sector.

In response to achieving these dual objectives, the Financial Statements include:

- A Management's Discussion and Analysis (MD&A) section providing analysis of the City's overall financial position and results
  of operations.
- Fund financial statements that focus on individual "major" funds of the City, with only non-major funds presented in aggregate
  totals. The traditional accounting policies and procedures that are unique to governmental operations are utilized within these
  financial statements.
- Government-wide financial statements prepared using full accrual accounting for all the City's activities, including infrastructure (roads, bridges, etc.). These statements are intended to provide accounting data that is prepared using uniform application of the same accounting and debt policies adopted by entities in the private sector.

#### A. Reporting Entity

The City of Lakeland, Florida (City) is a political subdivision of the State of Florida incorporated under the authority of the Laws of Florida, Chapter 4096 adopted in 1891. The City operates under a commission-manager form of government and provides the following services: public safety, transportation, electric, water, stormwater, solid waste, wastewater treatment, culture/recreation, public improvements, planning and zoning, and general administration.

Component Units – These financial statements represent the City (the primary government) and its component units (entities for which the City is considered to be financially accountable). There are three specific tests for determining whether a particular legally separate entity is a component unit of a primary government: 1) appointment of a majority of the unit's governing board, accompanied by the potential imposition of will or ongoing financial burden, 2) fiscal dependence on the primary government, and 3) the potential that exclusion would result in misleading financial reporting. Blended component units, although legally separate entities, are in substance part of the City's operations. Discretely presented component units are reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the City. The City does not report any discretely presented component units.

#### Blended Component Unit

The Lakeland Community Redevelopment Agency (LCRA) was established in 1979 by the City of Lakeland, Florida (the City) under the provisions of Section 163.340, Florida Statutes. The board of directors of the Agency is comprised of the seven members of the City Commission of the City. The City has operational responsibility for the LCRA. Although legally separate, the LCRA is blended in the City's financial statements in accordance with the criteria for blending set by GASB Statement 14, as amended by GASB Statement 39 and GASB Statement 61. The City has created a total of four community redevelopment areas: Downtown (1979), Dixieland (2001), Midtown (2001), and Williams (2002). Their purpose is to eliminate blight and slum conditions within the defined redevelopment area of the respective agency pursuant to the redevelopment plans for new residential and commercial activity. In 2016, the City Commission voted to close the Williams Community Redevelopment Area as the decision was made not to pursue the redevelopment activities for which it was designated.

Financial information for the LCRA is blended in the Financial Statements of the City. Copies of separately issued financial statements for the LCRA may be obtained from the City's Finance Department.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### B. Government-wide and Fund Financial Statements, and their underlying Basis of Accounting

The City's basic financial statements are presented in two separate and distinct formats. These consist of government-wide statements (reporting the City as a whole using full accrual accounting policies) and fund financial statements (focusing on individual major funds and utilizing the traditional basis of accounting used by local governments for different fund types). The government-wide financial statements report information on all non-fiduciary activities of the primary government and its component units.

Both the government-wide and fund financial statements categorize activities as either governmental or business-type based on their nature and funding practices. The City's planning and zoning, police and fire protection, parks and recreation, public works, and general governmental functions are classified as governmental activities since they generally cannot pass the full cost of providing those services directly to the users of those services in the form of a user fee. The electric, water, wastewater, solid waste, parking, and airport are classified as business type activities because they are able to assess user fees intended to satisfy at least the majority of their annual operating costs. The Public Improvement Fund is used to finance a variety of capital and maintenance projects and debt service related to governmental activities of the City, including activities of the Police and Fire Departments; Public Works (road and drainage construction and maintenance); the Parks & Recreation Department; libraries; growth management; public utilities (such as street lighting); and general governmental City facilities. These activities are financed primarily from the Public Improvement Endowment Fund comprised of prepaid hospital lease revenues and impact fee revenues. The primary government is reported separately from the legally separate component units for which the City is financially accountable.

<u>Government-wide Statements</u> – In the Government-wide Statement of Net Position, both the government and business-type activities are presented on a consolidated basis in separate columns. This statement is prepared using the *economic resources* measurement focus, meaning all assets and liabilities (including capital assets and long-term debt) are included in the Statement of Net Position. This accounting methodology is more consistent with the methodology used for business accounting in the private sector than "traditional" governmental accounting methodology.

Within this statement, the net position of the City (assets and deferred outflows of resources minus liabilities and deferred inflows of resources) are reported in three separate components – net investment in capital assets; restricted net position; and unrestricted net position. Whenever possible, the City utilizes restricted resources first to satisfy financial obligations.

Because different measurement focuses and bases of accounting are used in the government-wide statement of net position than in governmental fund statements, amounts reported as *restricted fund balances* in governmental funds may be different from amounts reported *as restricted net position* in the statement of net position.

The Government-wide Statement of Activities reports the degree to which the gross expenses, including depreciation, of the significant governmental and business-type functions provided by the City, are financed by the program revenues and the operating and capital grants directly related to the costs of providing each function. The statement then reports the extent to which the resulting net costs of these functions (gross expenses less directly related program revenues and grants) are financed by general revenues of the City (i.e. taxes, interest income, etc.). This statement is prepared using the *full accrual* basis of accounting, which determines the timing of the recording of revenues and expenditures/expenses. Under this basis of accounting, revenues are recorded when earned, and expenses are recorded when an obligation is incurred. These accounting methods are also more consistent with the methodologies used for business accounting in the private sector than "traditional" governmental accounting methodology.

Administrative fees are charged by the General Fund to other funds, which are eliminated (reducing the revenue and expense of the General Fund) to recover the direct costs of providing services to those funds (i.e., finance, personnel, legal, technology management, etc.). All other internal transactions related to services provided by internal service funds of the City to other functions within the City are also eliminated, ensuring the related expenses appear only once and are categorized within the appropriate functional activity.

<u>Fund Financial Statements</u> – These statements report information at a higher level of detail, focusing on separate reporting of individual major funds, rather than consolidating financial data into two very broad categories of governmental and business-type activities. Those funds that are considered non-major are consolidated into a single column.

The financial transactions of the City are reported in individual funds within the City's accounting system. Each fund is accounted for by providing a separate, self-balancing set of accounts comprised of the assets, deferred outflows, liabilities, deferred inflows, reserves, fund equity, revenues, and expenditures/expenses of each fund. GASB 34, as amended by GASB 65, sets forth the minimum criteria used to determine whether the individual funds are considered major versus non-major. The criteria are based on the value of assets and deferred outflows, liabilities and deferred inflows, revenues, and expenditures/expenses of each fund in relation to all funds taken as a whole. Based on these criteria, the City's major funds are the General Fund, Public Improvement Fund, Electric Utility Fund, Lakeland Linder International Airport Fund and Water/Wastewater Utility Fund. Detailed information on these funds is provided in the basic financial statements and the Management's Discussion and Analysis section.

### **SEPTEMBER 30, 2022**

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### B. Government-wide and Fund Financial Statements, and their underlying Basis of Accounting (continued)

Within the fund financial statements, funds are also classified into fund types. A different basis of accounting is applied to the various fund types, based on the nature of the financial information needed to sustain the types of services provided. The various funds are classified based on fund types as follows:

Governmental Funds — Within the fund financial statements, the accounting policies applied to governmental funds is intended to capture only those transactions that will occur in the short-term, and the ability to finance those activities as needed. The financial focus applied to governmental funds is called the *modified accrual* basis of accounting. Revenues are susceptible to accrual in the accounting period in which they become available and measurable, which generally means those revenues that are collected within 60 days after year end. The City accrues an asset equal to the value of all material revenue to which it is entitled. Intergovernmental revenues included in this accrual are recognized as revenue while all other types are deferred. Major sources of revenue meeting the availability criterion include investment earnings, federal, state, and local grants, State shared revenues, and the City's share of State collected taxes. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable. Exceptions are un-matured interest on general long-term debt, which is recognized when due, and the long-term portion of accumulated unpaid vacation and sick pay, which is recognized when paid.

Within governmental fund types, assets and liabilities are recorded using the *flow of current financial resources* measurement focus, meaning only current assets and current liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of "available spendable resources".

The governmental fund types utilized by the City are broken down as follows:

General Fund – used to account for and report all financial resources not accounted for and reported in another fund.

<u>Debt Service Fund</u> - account for and report financial resources that are restricted, committed, or assigned to expenditures for principal and interest.

<u>Special Revenue Funds</u> – account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects.

<u>Capital Projects Funds</u> – account for and report financial resources that are restricted, committed or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

<u>Public Improvement Fund</u> – a major fund used to account for and report financial resources that are restricted, committed or assigned to expenditures for general governmental capital outlays, including the acquisition or construction of capital facilities and other capital assets.

<u>Permanent Fund</u>s – account for and report resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support the City's programs.

<u>Proprietary Funds</u> - Within the fund financial statements, the financial focus for proprietary funds is identical to the full accrual, "private sector" focus applied within the government-wide statements. Revenues are recognized when they are earned and expenses are recognized when they are incurred, without application of the "measurable and available" criteria applied to governmental funds. Accordingly, full recognition is given to capital assets (and depreciation thereof) and all long-term liabilities. The emphasis is on recovering the costs of supplying needed services over the long-term from user fees charged directly to the persons using those services.

The proprietary fund types utilized by the City are broken down as follows:

<u>Enterprise Funds</u> – account for operations for which a fee is charged to external users for goods or services, i.e., parking, entertainment, airport, and solid waste services provided to residents in geographic areas served by the City.

The City reports the following major proprietary funds:

<u>Department of Electric Utilities</u> – accounts for operations in which fees are charged to external users for electric services provided within the City of Lakeland's service area.

<u>Lakeland Linder International Airport Fund</u> – accounts for activities related to the operations and maintenance of a general aviation facility and industrial park that serves as a hub for economic activity in the central Florida area.

### NOTES TO FINANCIAL STATEMENTS

### **SEPTEMBER 30, 2022**

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### B. Government-wide and Fund Financial Statements, and their underlying Basis of Accounting (continued)

### Enterprise Funds (continued)

<u>Water and Wastewater Utilities</u> – accounts for operations in which fees are charged to external users for water and wastewater services provided within the City of Lakeland's service area.

Internal Service Funds – account for operations for which a fee is charged to internal users for goods or services. This includes the administrative cost of purchasing and acquisition; the purchase, maintenance and fueling of motorized equipment used by various City departments; the cost of self-insured risk programs administered by the City; the cost of purchasing and maintaining custody of supplies and materials used by the City; the cost of purchasing and maintaining computers, networks, and software used by the City; the maintenance of City facilities; and an internal loan program. To the extent possible, the ultimate costs of these services are reported in the appropriate functional activity.

<u>Fiduciary Funds</u> – Within the fund financial statements, fiduciary fund types are used to report assets that are held in trust or in a custodial capacity by the City on behalf of designated beneficiaries. These consist of pension and other post-employment benefit funds maintained on behalf of retired City employees; and a custodial fund used to accumulate impact fee revenues collected on behalf of Polk County, Florida. The same financial focus applied to proprietary funds types is applied to fiduciary fund types.

Because the assets accounted for within fiduciary funds types cannot be used to address activities or obligations of the City, the activities of these funds are not incorporated into the government-wide financial statements.

### C. Budget Policy and Budgetary Data

The City prepares an annual operating budget for the two major funds, the General Fund and Public Improvement Fund (a Capital Projects Fund), and certain Special Revenue Funds and Capital Projects Funds (i.e. Transportation Fund, Community Development Fund, State Housing Initiatives Partnership Program, Neighborhood Stabilization Fund, the Stormwater Fund, the Building Inspection Fund, and the Lakeland Community Redevelopment Agency Fund). These budgets are prepared on the modified accrual basis of accounting. As of September 30, 2022, there were no material violations of budgetary requirements.

### D. Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity

### 1. Cash and Cash Equivalents

The City has defined cash and cash equivalents to include cash on hand, demand deposits, cash with paying agents, money market funds, as well as each Fund's equity in pooled cash.

The various funds of the City have combined their resources into an investment pool for the purpose of maximizing investment earnings on daily cash balances. The investment pool is comprised of money market funds, time deposits, notes, bonds, other securities, and accrued interest. These investments are recorded at fair value. Revenue from pooled cash and investments is allocated based on the participation of each fund. Each fund's pro-rata share of pooled cash and investments is included in the caption "cash and cash equivalents". These amounts are also considered a cash equivalent because each fund can withdraw cash at any time without prior notice or penalty.

### 2. Investments Owned by Individual Funds

Investments owned by individual funds, comprised of time deposits, notes, bonds, and other securities, are reported at fair value. Amounts invested in money market funds are reported at fair value. Fixed income, equity and equity securities are reported at the last reported sales price. Revenue from investments owned by the individual funds is recorded in the respective fund as it is earned.

### 3. Receivables

Receivables are generally attributable to services provided by the City, amounts due to the City under expenditure driven grant agreements with other governments, and accrued interest on investments. Receivables recorded in governmental fund types may be offset by deferred revenues or a restriction of fund balance depending on the revenue recognition criteria applied to those funds. The components of receivable balances include due from customers, due from commercial customers, due from vendors, due from other governments, interest receivable, and miscellaneous receivables, including liquidated damages. Receivables are reported net of allowances for uncollectible where applicable.

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### D. Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity (continued)

### 3. Receivables (continued)

The balances of accounts receivable in the governmental and proprietary funds are as follows:

|                     | Governmental |            | В  | Business-Type |  |
|---------------------|--------------|------------|----|---------------|--|
|                     |              | Activities |    | Activities    |  |
| Unrestricted:       |              |            |    |               |  |
| Due from:           |              |            |    |               |  |
| Taxpayers           | \$           | 765,423    | \$ | -             |  |
| Customers           |              | 23,993,768 |    | 77,139,592    |  |
| Tenants             |              | 10,504,054 |    | -             |  |
| Investment managers |              | 17,171     |    | -             |  |
|                     |              | 35,280,416 |    | 107,309,835   |  |
| Apportioned:        |              |            |    |               |  |
| Due from:           |              |            |    |               |  |
| Customers           |              | 315,522    |    | 2,214,158     |  |
| Investment managers |              | 408,481    |    | -             |  |
| Restricted:         |              |            |    |               |  |
| Due from:           |              |            |    |               |  |
| Tenants             |              | 477,471    |    | _             |  |
| Customers           |              | 1,068,775  |    | 196,470       |  |
| Oustomers           | _            |            | _  |               |  |
|                     | \$           | 37,550,665 | \$ | 109,720,463   |  |

### 4. Due To/From Other Funds

Amounts receivable from, or payable to, other funds are reflected in the accounts of the fund until liquidated. Activity between funds that are representative of lending/borrowing arrangements outstanding at year end are referred to as either "due to/from other funds" (i.e. current portion) or "advances to/from other funds (i.e. non-current portion). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide statements as "internal balances".

### 5. Inventories and Prepaid Items

Inventories are valued at cost in governmental funds. In all other funds, inventories are stated at the lower of cost or market using the weighted average method. Inventory and prepaid items are recorded as expenditures (expenses) when actually used in both governmental and proprietary funds.

### 6. Apportioned Assets

The City has established long-range plans concerning some of its proprietary funds, internal loan funds and capital funds. As part of the plan to achieve its objectives, the City's elected officials have apportioned certain assets that will be used to fund the cost of expansion of enterprise fund infrastructure, monies accumulated to finance replacement of capital assets at the end of their useful life, funds apportioned for payment of self-insured liability claims, and amounts set aside to pay currently maturing principal and interest on long-term debt. These assets and related liabilities are separate from other assets of the City and appear on the financial statements under the heading "asset apportionments" and "liabilities payable from apportioned assets". Because these apportionments do not represent legal restrictions imposed by parties external from the local government, the net value of asset apportionments minus liabilities is included in the unrestricted section of net position on the Statement of Net Position.

### 7. Restricted Assets

Revenue bond ordinances and certain other agreements with parties outside the City require the restriction of certain fund assets for specific purposes such as sinking and reserve accounts required to secure bonded debt; renewal, repair, expansion, and construction funds (bond proceeds) set aside to finance recurring and future capital improvements; meter deposit funds held on behalf of utility customers; and proceeds from impact fees collected for the purpose of financing utility system capacity improvements. These assets and the related liabilities are classified separately from other assets and liabilities, appearing in the accompanying statement of net position under the heading "restricted assets", "liabilities payable from restricted assets", and "restricted net position".

In cases in which both unrestricted and restricted assets are available to finance an expense or program, the City's policy is to utilize restricted assets first whenever possible.

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### D. Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity (continued)

### 7. Restricted Assets (continued)

The balances of restricted asset accounts in the governmental and business-type activities are as follows:

|                           | G<br> | Governmental Activities |    | usiness-Type<br>Activities |
|---------------------------|-------|-------------------------|----|----------------------------|
| Debt service              | \$    | 9,451,079               | \$ | -                          |
| Capital improvements      |       | 381,595                 |    | 138,300,859                |
| Transportation            |       | 9,080,168               |    | -                          |
| Customer deposits         |       | 231,157                 |    | 16,458,742                 |
| Law enforcement           |       | 1,664,408               |    | -                          |
| LCRA                      |       | 15,575,461              |    | -                          |
| Building inspection       |       | 2,446,345               |    | -                          |
| Grant Programs            |       | 7,817,137               |    | -                          |
| Endowments - nonspendable |       | 5,452,479               |    | -                          |
| Donations received        |       | 926,342                 |    | -                          |
| Impact fees               |       | 19,714,333              |    |                            |
|                           | \$    | 72,740,504              | \$ | 154,759,601                |
|                           |       |                         |    |                            |

### 8. Capital Assets

Capital equipment purchased with an original value of \$5,000 or more, and additions, improvements, and other capital outlays, having an original cost of \$2,500 or more that significantly extend the useful lives are capitalized. Utility plant is capitalized at cost. Capital assets used in governmental fund type operations are accounted for in the government—wide statements, rather than in the fund financial statements. Routine maintenance, repairs, renewals, and replacement costs are charged against operations.

Infrastructure assets consisting of certain improvements and additions such as roads, sidewalks and drainage systems having an original cost of \$25,000 or more are capitalized.

Capital assets are valued at historical cost or estimated historical cost if actual historical cost was not available. Donated capital assets are valued at their acquisition value on the date donated.

The depreciation on assets, where disclosed, is provided using the straight-line method over the following estimated useful lives:

|                                    | 40 45          |
|------------------------------------|----------------|
| Land improvements                  | 10 - 45 years  |
| Buildings                          | 15 - 50 years  |
| Improvements, other than buildings | 10 - 45 years  |
| Improvements, sewer lines          | 40 - 90 years  |
| Office machines                    | 5 - 15 years   |
| Communications equipment           | 5 - 10 years   |
| Motor vehicles                     | 4 - 20 years   |
| Furnishings and fixtures           | 5 - 25 years   |
| Maintenance equipment, tools       | 5 - 15 years   |
| Roads and alleys                   | 10 - 50 years  |
| Easements and right of ways        | 10 - 50 years  |
| Sidewalks                          | 25 - 50 years  |
| Storm drainage                     | 25 - 100 years |
| Utility plant                      | 25 - 35 years  |

Depreciation expense on assets used in governmental activities is included in the expenses of each governmental function on the Government-wide Statement of Activities. Depreciation on general infrastructure assets is included within the expenses of the most relevant function.

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity (continued)

### 8. Capital Assets (continued)

### Intangible Assets:

In accordance with GASB, intangible assets (including right-to-use leased assets) are classified as Fixed Assets. Right-to-use leased assets are representative of the City's right to use an asset over the life of a lease in which it is the lessee. The asset value is calculated as the initial amount of the lease liability, plus any lease payments made to the lessor before the lease commencement date, plus any initial direct costs incurred, minus any lease incentives received. Intangible assets are amortized according to the City's capitalization policy while right-to-use leased assets are amortized over the shorter of the asset's useful life or the term of the lease. The capitalization levels of the City's right-to-use leased asset classes are as follows:

Leased office space \$100,000 Leased office equipment \$100,000

### Leases as a Lessee:

The City is a lessee for noncancellable leases of land, building and equipment. The City recognizes a lease liability and an intangible right-to-use leased asset for these leases in the financial statements.

At the commencement of a lease, the City initially measures the lease liability at the present value of lease payments expected to be made during the lease term. Lease payments to be made under reasonably certain extension options are also included in the measurement of the lease liability. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The right-to-use leased asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over the term of the lease.

Key estimates and judgments related to leases include how the City determines the discount rate it uses to discount the expected lease payments to present value, the lease term, and the lease payments.

The City uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided or available, the City uses the interest rate implicit in the lease. If the interest rate implicit in the lease cannot be determined, the City generally uses its own estimated incremental borrowing rate as the discount rate for leases.

The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are comprised of fixed payments to be made under the lease. In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options are only included in the lease term if it is reasonably certain that the lease will to be extended.

The City monitors changes in circumstances that would require a remeasurement of its leases and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

### Leases as a Lessor:

The City is a lessor for noncancellable leases of parking spaces, land, buildings and equipment. The City recognizes a lease receivable and a deferred inflow of resources for these leases in the financial statements.

At the commencement of a lease, the City initially measures the lease receivable at the present value of payments expected to be received during the lease term. Lease payments to be received under reasonably certain extension options are also included in the measurement of the lease receivable. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as lease revenue over the term of the lease.

Key estimates and judgments related to leases include how the City determines the discount rate it uses to discount the expected lease receipts to present value, the lease term, and the lease receipts.

The City uses its own estimated incremental borrowing rate as the discount rate for leases in which it is the lessor.

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### D. Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity (continued)

### 8. Capital Assets (continued)

The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable are comprised of fixed payments to be received under the lease. In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options are only included in the lease term if the lease is reasonably certain to be extended.

The City monitors changes in circumstances that would require a remeasurement of its leases and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

### 9. Bond Discounts, Bond Premiums, and Issuance Costs

In the governmental funds, bond discounts and bond premiums are treated as period costs in the year of issue. Bond premiums and discounts are shown as an "Other Financing Source/Use."

In proprietary funds (and for governmental activities, in the government-wide statements) bond discounts and bond premiums are amortized over the term of the bonds using the straight-line method, which is materially consistent with the effective interest method. Bond discounts and premiums are presented as a reduction and increase, respectively, of the face amount of the revenue bonds payable. Issuance costs, except any portion related to prepaid insurance cost are recognized as an expense in the period incurred.

### 10. Unearned Revenues

In the governmental funds, certain revenue transactions have been reported as unearned revenue. Unearned revenues arise when resources are received by the City before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. Revenue cannot be recognized until it has been earned and is available to finance expenditures of the current period. In subsequent periods, when both revenue recognition criteria are met, or when the City has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet or statement of net position and the revenue is recognized.

|              | G  | overnmental | Business-Type |   |  |  |
|--------------|----|-------------|---------------|---|--|--|
|              |    | Activities  | Activities    |   |  |  |
| Unrestricted | \$ | 17,137      | \$            | - |  |  |
| Restricted   |    | 7,190,446   |               | - |  |  |
|              | \$ | 7,207,583   | \$            | - |  |  |

In the proprietary funds (and for governmental activities in the government-wide statements), unearned revenue is reported regardless of its availability.

### 11. Compensated Absences

Within the government-wide Statement of Net Position, the City accrues all accumulated unpaid vacation and sick leave when earned by the employee. Within the fund financial statements, the non-current portion of this liability payable from governmental funds is not recorded since it would not be paid from expendable available financial resources. Compensated absences are reported in governmental funds only if they have matured.

### 12. Interfund Activity

Interfund activity is reported as loans, provided services, reimbursements, or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at or near market rates, are treated as revenues and expenditures/expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund, and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### D. Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity (continued)

### 13. Fund Equity

The implementation of GASB 54 was intended to improve the usefulness of information provided to financial report users about fund balance by providing clearer, more structured fund balance classifications, and by clarifying the definitions of existing governmental fund types.

GASB 54 differentiates how the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent in governmental funds. Fund balance shall be composed of non-spendable, restricted, committed, assigned, and unassigned amounts. These classifications reflect the nature of the funds and provide clarifications and hierarchies on the level of restrictions placed on the fund balances (i.e. internal or external restriction requirements).

The City uses restricted amounts first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as in grant agreements requiring dollar for dollar spending. Additionally, the City would first use committed fund balance, followed by assigned fund balance and then unassigned fund balance when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used. For further details of the various fund balance classifications refer to Note 12.

### 14. Deferred Inflows/Outflows of Resources

Within the Basic Financial Statements certain items that were previously reported as assets and liabilities are recognized as outflows of resources or inflows of resources because they result in the use of resources in the current period or the acquisition of net assets for the benefit of future periods. The unamortized loss on refunding of debt, deferred outflows of resources related to OPEB, asset retirement obligations, pension; and deferred hedging derivative outflows are classified as a deferred outflow of resources. Deferred revenues recognized in governmental fund statements, contributions in aid of construction, deferred inflows of resources related to OPEB and pensions; and deferred hedge derivative inflows of resources are classified as deferred inflows of resources. Deferred revenues related to governmental funds represent the recording of assets such as property tax receivables, lease receivables, and mortgage receivables, relating to revenues not available in the accounting period.

Lakeland Electric receives nonrefundable payments from consumers and developers for extension of electric services, and funds received from developers and customers for assets owned and maintained by Lakeland Electric. Through the use of regulatory accounting, contributions in aid of construction and fuel reserve balance are recorded as deferred inflows of resources and amortized over the life of the corresponding assets.

The deferred inflows and outflows of resources balances presented in the Statement of Net Position as of September 30, 2022 are as follows:

| Deferred outflows of resources:                          |                   |
|--|-------------------|
| Unamortized loss on refunding of debt, beginning balance | \$<br>20,247,174  |
| Amortization   | <br>(4,537,749)   |
| Unamortized loss on refunding of debt, ending balance    | 15,709,425        |
| Decrease in fair value of interest rate swaps            | 11,759,486        |
| Unrealized loss on hedges                                | 27,762,044        |
| Deferred outflows of resources related to pensions       | 25,321,481        |
| Deferred outflows of resources related to OPEB           | 77,870,425        |
| Deferred outflows of resources related to ARO            | 3,175,343         |
| Total deferred outflows of resources                     | \$<br>161,598,204 |
|  |                   |
| Deferred inflows of resources:                           |                   |
| Deferred inflows of resources related to OPEB            | \$<br>134,704,644 |
| Contributions in aid of construction                     | 42,759,612        |
| Deferred inflows of resources related to CIAC            | 623,555           |
| Fuel reserve balance                                     | 9,952,397         |
| Deferred inflows of resources related to leases          | 245,100,826       |
| Deferred inflows of resources related to pensions        | 145,180,399       |
| Total deferred inflows of resources                      | \$<br>578,321,433 |

### NOTES TO FINANCIAL STATEMENTS

### **SEPTEMBER 30, 2022**

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity (continued)

### 15. Derivatives and Hedging Activities

Derivatives have a market value, require no initial investment, and may be net settled. The City follows GASB Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*. Statement No. 53 requires derivatives to be categorized as either hedging derivative instruments or investment derivatives. Hedging derivative instruments are associated with specific hedging transactions wherein the intent is to significantly reduce risks. Changes in fair value of hedges are reported as either deferred inflows or deferred outflows in the statement of net position. For accounting purposes, in order to qualify as a hedge, the relationship between the derivative and the underlying asset must result in a hedge that is "effective" in mitigating risk. If the hedge transaction is considered "ineffective" the valuation of the instrument is considered investment income or loss on the Statements of Revenues, Expenses and Changes in Net Position. GASB Statement No. 53 outlines five methods for evaluating hedge effectiveness:

- Consistent Critical Terms
- Synthetic Instrument
- Dollar Offset
- Regression Analysis
- Other Quantitative Methods

For purposes of performing hedge effectiveness testing, Lakeland Electric can use any or all of the evaluation methods and is not limited to using the same method from period to period. Therefore, if the result of any one prescribed evaluation method indicates the hedge is ineffective, Lakeland Electric may apply another method to verify effectiveness. In addition, the calculations for effectiveness may be based on either a life to date period or be limited to the immediately preceding annual accounting period.

### Fuel Hedges

To achieve its goals of minimizing volatility in both cash flow and fuel rates to the ratepayers, Lakeland Electric was hedged at various volumes for a rolling 30 month forward period with emphasis on upside protection through the purchase of swaps. Due to a depressed natural gas market, the costs of the program became significant. To control the cost of the program, Lakeland Electric's Utility Committee implemented changes to the policy in March 2010. When a swap is placed, at or near the same time, a put option will be placed to provide opportunity to participate in a downward market. Swaps should be placed at no more than a \$1/MMBTU above market and option premiums at \$0.50/MMBTU resulting in a maximum cost of \$1.50/MMBTU. Each quarter, when a fuel rate change is proposed, the next 12 months of forecasted volumes will be approximately 63 percent hedged as follows:

1st quarter will be 100 percent hedged 2nd quarter will be 75 percent hedged 3rd quarter will be 50 percent hedged 4th quarter will be 25 percent hedged

Fuel related derivative transactions are executed in accordance with the fuel hedging policies established by Lakeland Electrics Energy Risk Management Oversight Committee. The primary objective of these policies is to minimize exposure to natural gas price volatility for cash flow and fuel rate stabilization purposes. The Committee has a defined organizational structure and responsibilities, which include approving all brokerage relationships, counterparty credit worthiness, specific fuel volumes and financial limits in addition to overall policy compliance. Acquisition of these hedge transactions are managed by The Energy Authority (TEA) based on a contractual relationship created in March 2007.

TEA performs the front and back office functions associated with such trades in accordance with overall hedging policies developed jointly by TEA and the aforementioned oversight committee of Lakeland Electric. The recording of fuel derivatives, when appropriate, is included on the Statement of Net Position as either an asset or liability measured at fair value. Related gains and/or losses are deferred and recognized in the specific period in which the derivative is settled and included as part of Fuel and Purchased Power costs in the Statement of Revenues, Expenses and Changes in Net Position. The premiums associated with the purchase of options are expensed upon expiration of the option. Premiums associated with unexpired options are embedded in the valuation table displayed later in this note. The valuation of market changes for contracts entered into within Lakeland Electric's Risk Management Program resulted in a net decrease of \$2,657,895 to the cost of fuel during the fiscal year ended September 30, 2022.

Lakeland Electric's natural gas swaps and options have been evaluated using the regression analysis method cited above. According to this method, all of Lakeland Electric's derivatives were considered to be effective. Consequently, the R-Squared relationship between the derivative based on the NYMEX index as related to physical natural gas prices based on purchased gas from Florida Gas Transmission Zones 1, 2 and 3 was 0.8 or higher with a slope between -0.8 and -1.25 with a 95 percent confidence. In addition, the effectiveness of options was assessed consistent with the objective of the derivative instrument as mentioned in the goals of hedging above. With GASB compliance, the open swaps and options valuation of \$27,762,044 includes mark-to-market of the swaps and both intrinsic and extrinsic mark-to-market of the options.

### **Derivative Instruments**

### Natural Gas Derivative Instruments

Lakeland Electric uses Over-the-Counter (OTC) swaps, put options, swing-swaps and fixed price firm physical purchases of natural gas as tools to stabilize the cost of natural gas that will be needed by the utility in the future. Any gain or loss of the value of these derivatives are ultimately rolled into the price of natural gas burned, offsetting the volatility in the price of that fuel. These derivative instruments are classified in Level 2 of the fair value hierarchy using the market approach of valuation. Derivative instruments classified as Level 2 receive clearing house prices, which are based on models that reflect the contractual terms of the derivatives. As of September 30, 2022, Lakeland Electric had options, swaps and physical contracts outstanding in the following amounts, covered fiscal year 2022 and beyond:

| Fiscal Year | Options         |    | Swaps      | <br>Fair Value     |
|-------------|-----------------|----|------------|--------------------|
| 2023        | \$<br>1,360,000 | \$ | 15,380,000 | \$<br>(18,657,327) |
| 2024        | -               |    | 4,250,000  | (7,702,173)        |
| 2025        | -               |    | 1,100,000  | (1,402,544)        |
|             | \$<br>1,360,000 | \$ | 20,730,000 | \$<br>(27,762,044) |
|             | <br>            | _  |            |                    |

### Interest Rate Swaps

An interest rate swap is a derivative whose value and terms are derived from a specified financial index (e.g. LIBOR). In the case of the interest rate swaps employed by the City of Lakeland, the intent is two-fold. First to achieve an all-in financing cost (representing interest payments to bondholders combined with net interest payments and receipts on the derivatives) that is less than the financing cost associated with traditional fixed rate bonds based on market conditions at the time of each bond issue. The second objective is to minimize the interest rate risk associated with the inherent volatility associated with "naked" variable rate debt. Under the terms of these interest rate swaps, the City of Lakeland pays an amount to a counterparty that is based on a specified notional amount (which closely approximates the outstanding principal amount of the related bonds) times a specified fixed interest rate. In exchange, the counterparty makes a payment to the City that is based on the same notional amount times a variable rate of interest. When the variable and fixed components of the interest rate swaps are combined with the variable cash payments made by the City to the actual bondholders, the end result is a net fixed rate of interest.

In the case of Lakeland's interest rate swaps, effectiveness testing measures the extent to which the terms of the interest rate swaps insulated the City from changes in the market rate of interest payable on the bonds. The City of Lakeland's interest rate swaps have been evaluated using regression analysis. All of the interest rate swaps employed by the City have passed at least one of the effectiveness tests prescribed by GASB Statement No. 53. Accordingly, the market values of the derivatives are recorded as offsetting items on the Statements of Net Position, and therefore the recognition of changes in fair market value are deferred. The interest rate swaps on the table below are related to certain prior variable rate debt, which has been refunded. The City has elected to apply the existing swap agreements to hedge the new variable rate refunding debt as a means to hedge the variable rate risk exposure related to variable rate bonds.

Lakeland Electric had interest rate swaps with the following mid-market value as of the close of the final business day of the fiscal year ending September 30, 2022:

| Description                 | Maturity  | Net Value          |
|-----------------------------|-----------|--------------------|
| \$24.772M 67% of LIBOR swap | 10/1/2035 | \$<br>(3,288,080)  |
| \$14.053M 67% of LIBOR swap | 10/1/2035 | (1,805,032)        |
| \$1.520M 67% of LIBOR swap  | 10/1/2035 | (86,279)           |
| \$47.86M 67% of LIBOR swap  | 10/1/2037 | (6,580,095)        |
|                             |           | \$<br>(11,759,486) |
|                             |           |                    |

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### D. Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity (continued)

### 15. Derivatives and Hedging Activities (continued)

### Interest Rate Swaps (continued)

Note 6.G, Long-term Liabilities, refers to the fair value of interest swap derivatives, which are evaluated for effectiveness using the same criteria required for fuel hedge derivatives under GASB Statement No. 53. The interest rate swaps are classified in Level 2 of the fair value hierarchy using the market approach to valuation. Derivative instruments classified as Level 2 receive clearing house prices, which are based on models that reflect the contractual terms of the derivatives.

The fair value of all Lakeland Electric's derivatives as of September 30, 2022 was as follows:

| \$<br>(11,759,486) |
|--------------------|
| 654,035            |
| (27,762,044)       |
| \$<br>(38,867,495) |
| \$                 |

### 16. Regulatory Assets and Liabilities

GASB accounting guidance for regulated operations requires the recognition of revenues provided either before or after the costs are incurred, as assets or liabilities, in accordance with rate actions of the City Commission.

Regulatory assets and liabilities balances presented in the Statement of Net Position as of September 30, 2022 are as follows:

| Regulatory assets: Unamortized debt issuance costs  | \$<br>\$ | 1,568,253<br>1,568,253                            |
|---|----------|---|
| Regulatory liabilities: Environmental compliance charges Energy conservation charges Economic development charges | \$       | (3,577,502)<br>33,750<br>(890,570)<br>(4,434,322) |

### Unamortized debt issue costs

Lakeland Electric treats unamortized debt issuance costs as a regulatory asset as allowed for regulated operations that recover their debt issuance costs through rates. These debt issue costs are amortized using the effective interest method, over the life of the related debt.

|                   | September 30, |           |  |
|-------------------|---------------|-----------|--|
|                   | 2022          |           |  |
| Beginning balance | \$            | 869,896   |  |
| Additions         |               | 823,011   |  |
| Less              |               |           |  |
| Amortization      |               | 124,654   |  |
| Ending balance    | \$            | 1,568,253 |  |

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### D. Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity (continued)

### 16. Regulatory Assets and Liabilities (continued)

### Environmental compliance and conservation charges

Accounting guidance for regulated operations allows the recognition of revenues provided either before or after the cost is incurred as assets or (liabilities) in accordance with rate actions of the City Commission. The regulatory assets/liabilities below represent the amounts due from, or (payable to) retail customers.

|   | Se | eptember 30,<br>2022                                   |
|---|----|--|
| Environmental compliance charge recovery: (Liability) balance, beginning of year Charges recovered through rates Less environmental compliance expense Ending balance | \$ | (2,365,427)<br>(9,504,321)<br>8,292,246<br>(3,577,502) |
| Energy conservation charge recovery: (Liability) asset balance, beginning of year Charges recovered through rates Less future conservation charges Ending balance     | \$ | (299,203)<br>(782,193)<br>1,115,146<br>33,750          |
| Economic development charge recovery: (Liability) asset balance, beginning of year Charges recovered through rates Less economic development costs                    | \$ | (670,384)<br>(250,000)<br>29,814                       |
| Ending balance  | \$ | (890,570)  |

### Fuel charges

As of September 30, 2022, the cumulative over-recovery of fuel charges, in excess of the long-term fuel reserve balance (deferred inflow of resources) established by the City Commission is classified as a regulatory liability, calculated as follows:

|   | Se | eptember 30,<br>2022 |
|---|----|----------------------|
| Fuel reserve: Fuel reserve balance                              | \$ | 9,952,397            |
| Less cumulative over-recovery of fuel charges<br>Ending balance | \$ | (9,952,397)          |

### NOTES TO FINANCIAL STATEMENTS

### **SEPTEMBER 30, 2022**

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### D. Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity (continued)

### 17. Asset Retirement Obligations

Effective October 1, 2017, the City of Lakeland adopted GASB Statement No. 83, *Certain Asset Retirement Obligations (ARO)*. GASB 83 established criteria for determining the timing and pattern for recognizing a liability and the corresponding deferred outflow of resources for AROs. The Statement requires that the measurement of an ARO be based on the best estimate of the current value of outlays to be incurred when retiring the asset. The best estimate should include probability weighting of all potential outcomes, when such information is available or can be obtained at reasonable cost. Otherwise, the best estimate should be the most likely amount.

ARO costs should be recognized on the balance sheet as a liability and as a deferred outflow of resources (i.e., deferred cost) once the liability is both incurred and reasonably estimable. The liability shall be reduced as payment is made, and the deferred outflows of resources shall be reduced and recognized as outflows of resources (e.g., expenses) in a systematic and rational manner over the estimated useful life of the tangible capital asset.

GASB 83 also requires that the government disclose information about the nature of its AROs, the methods and assumptions used for the estimates of the liabilities, and the estimated remaining useful life of the associated tangible capital assets. If a government incurs an ARO (or portions thereof) but has not yet recognized the ARO because it is not reasonably estimable, the government must disclose this and the reasons why the amount is not reasonably estimable.

### Procedures

Staff from various departments (e.g., legal, environmental, accounting, production, etc.) and a third-party consultant from PricewaterhouseCoopers (PwC) participated in multiple discussions to determine possible AROs at sites. There are certain asset types that have regulatory requirements related to retirement as well as certain asset types that often have retirement obligations required by permits or contracts. For those that were determined to be located at City sites, staff identified which assets have legal obligations for retirement. For those with legal retirement obligations, Staff determined if the ARO costs were reasonably estimable and, thus, the ARO liabilities should be recognized.

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### D. Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity (continued)

### 17. Asset Retirement Obligations (continued)

The following types of assets were determined to have ARO's:

| Asset                  | Deferred outflow amortization period | ARO cost estimate |           |  |  |
|------------------------|--------------------------------------|-------------------|-----------|--|--|
| Water wells            | 17 years                             | \$                | 1,720,685 |  |  |
| Septic tanks           | 17 years                             |                   | 34,543    |  |  |
| Natural gas pipeline   | 17 years                             |                   | 448,955   |  |  |
| Asbestos cement piping | 25 years                             |                   | 855,800   |  |  |
| Total                  |                                      | \$                | 3,059,983 |  |  |

Non-Amortizing, Non-Accreting Obligation\*

|                       | Deferred Outflow    | Α        | RO Cost |  |
|-----------------------|---------------------|----------|---------|--|
| Asset                 | Amortization Period | Estimate |         |  |
| McIntosh Plant Unit 3 | N/A                 | \$       | 860.000 |  |

<sup>\*</sup>Amount relates to requirement to repurchase land at end of life from joint owner at amount received from land sale at original participation. As amount is fixed, there will be no escalation in cost over remaining life of plant and as amount involves purchase of land no amortization of the deferred outflow to expense as land is a non-depreciable asset.

### Water Wells

Florida and federal regulations provide specific requirements for the plugging of water wells upon abandonment in Florida Administrative Code 62-532.500(5). Water wells located in the Southwest Florida Water Management District have the following specific requirement for plugging water wells upon abandonment Florida Administrative Code 40D-3.531(3).

Staff conducted a review of all water wells installed at their sites and provided a list of applicable assets, which included the following wells:

| No. of | A vo a (IA) all to va a                           | Average    | Unit         | Cost            |
|--------|---|------------|--------------|-----------------|
| Wells  | Area/Well type                                    | Depth (ft) | <br>Cost     | <br>Estimate    |
| 7      | McIntosh plant/10-inch drinking water wells       | 600        | \$<br>25,896 | \$<br>181,272   |
| 3      | McIntosh plant/24-inch drinking water wells       | 732        | 78,724       | 236,172         |
| 42     | McIntosh plant/2-inch extracting/monitoring wells | 22         | 512          | 21,504          |
| 18     | McIntosh plant/4-inch monitoring wells            | 43         | 1,473        | 26,514          |
| 8      | Larsen plant/2-inch extraction wells              | 12         | 512          | 4,096           |
| 2      | Larssen plant/4-inch extraction wells             | 9          | 461          | 922             |
| 13     | Northwest wellfield/drinking wells                | 747        | 65,492       | 851,396         |
| 5      | Northeast wellfield/drinking wells                | 751        | 30,291       | 151,455         |
| 1      | Combee wellfield/drinking well                    | 716        | 52,741       | 52,741          |
| 57     | Monitoring wells                                  | 103        | 3,331        | 189,867         |
|        | Misc. costs                                       |            |              | 4,746           |
|        | Total   |            |              | \$<br>1,720,685 |

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### D. Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity (continued)

### 17. Asset Retirement Obligations (continued)

### Water Wells (continued)

The City will likely abandon these water wells with the closure of the respective facilities. Historically, the City plugs an abandoned water well at the site in order to comply with the applicable regulations. The estimated cost was determined by a cost proposal prepared by Terracon Consultants, Inc. for the plugging of a four-inch groundwater monitoring well at McIntosh Plant; from Custom Drilling Services, Inc. and CH2M Hill Engineers, Inc, for the plugging of 13 monitoring wells at the T.B. Williams Plant in 2020. To obtain additional cost data for preparing the best estimate, vendor quotes were requested from local contractors. Green Well Drilling, Inc. of Lakeland, Florida provided the abandonment costs included in the table above. The contractor noted that the Southwest Florida Water Management District may request additional abandonment requirements beyond those prescribed in F.A.C. 40D-3. Based on Green Well Drilling, Inc.'s historical experience with the District, they assumed that the most likely requirements will include filling the wells with grout to the water table and then with Portland cement from the water table to the surface. The cost estimate received in this vendor quote represents the best information currently available on which to base the ARO liability.

The City provides potable water and wastewater services to residential, commercial, and industrial customers in the Lakeland, Florida area of Polk County (part of the Southwest Florida Water Management District). The City owns and operates two facilities: the T.B. Williams Plant and the C. Wayne Combee Plant. The T.B. Williams plant includes 13 water extraction wells in the Florida aquifer and a 51 million gallon per day (gpd) treatment facility. The C. Wayne Combee Plant includes six extraction wells and the Florida aquifer and an 8 million gpd treatment facility. The City's piping system includes approximately nine miles of raw water piling to convey water from the wells to the treatment plants and 998 miles of service piping to deliver treated water to customers. The system includes more than 54,000 active service meters, which provide 100% coverage of water consumption.

### Septic Tanks

Florida regulations provide specific requirements for the abandonment of on-site sewage treatment and disposal systems upon retirement in Florida Administrative Code 64E-6.011(2). The City conducted a review of all septic tanks used at City sites and provided the following applicable assets. McIntosh Plant has four 1,250-gallon tanks, Larsen Plant has one 1,250-gallon tank, Winston Peaking Station has one 1,000-gallon tank (four of which are located beneath asphalt or concrete) and the Wetlands Effluent Treatment Facility has one 900-gallon concrete septic tank approximately 2 feet below a grass surface.

The City will abandon the septic tanks when their respective plant/facilities close. The City has not previously abandoned septic tanks at any sites. To obtain ARO cost data for abandoning the septic tanks, vendor quotes were requested from local contractors. Averett Septic Tank Co., Inc. of Lakeland, Florida provided a cost estimate to abandon the septic tanks in accordance with F.A.C. 64E-6.011(2), which is summarized in the table below. The cost estimate received in this vendor quote represents the best information currently available on which to base the ARO liability.

| Number of    | Abaı | Abandonment |    | st Estimate |
|--------------|------|-------------|----|-------------|
| Septic Tanks | Cos  | t per Tank  | (r | ounded)     |
| 6            | \$   | 3,456       | \$ | 20,736      |
| 1            |      | 10,300      |    | 10,300      |
| Misc. costs  |      |             |    | 3,507       |
|              |      |             | \$ | 34,543      |

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### D. Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity (continued)

### 17. Asset Retirement Obligations (continued)

### Natural Gas Pipelines

Federal regulation 49 CFR § Part 192.727(2) provides requirements for the abandonment of natural gas pipelines upon retirement. Lakeland Electric owns and operates a 16-inch, underground natural gas pipeline. The pipeline is approximately 9.25 miles long and runs from the North East Wellfield to the McIntosh Plant Regulating Station and then to the Larsen Plant. The pipeline is located exclusively on properties for which Lakeland Electric has right-of-way easements and that the pipeline transects two FDOT road crossings. It was assumed that Lakeland Electric will abandon this pipeline in place when both plants have been closed. Upon abandonment, Lakeland Electric anticipates that the pipeline will be cut at eight locations (i.e., North East Wellfield, both sides of the McIntosh Plant, the Larsen Plant, and both sides of the two road crossings). The pipeline will be purged with an inert gas and each open end of the pipeline by welded cap will be sealed. Lakeland Electric will also fill the two segments located under road crossings with grout.

Lakeland Electric will also fill the two segments located under road crossings with grout. Lakeland Electric engineers prepared the cost estimate of \$448,955 to perform the necessary work.

The components of this cost estimate are provided in the following table:

|                  | Cost          |
|------------------|---------------|
| Description      | <br>Estimate  |
| Labor            | \$<br>184,299 |

|                  |               |

### Asbestos Cement Pipe

Federal regulations (40 CFR Part 61, Subpart M) provide specific requirements for the abatement and disposal of asbestos-containing materials (ACMs). 40 CFR 61.150(B) states that:

- 1. A waste disposal site operated in accordance with the provisions of 40 CFR 61.154, or
- 2. An EP- approved site that converts RACM and asbestos-containing waste material into non-asbestos (asbestos-free) material according to the provisions of 40 CFR 61.155.

The City owns and operates 14.11 miles of asbestos-cement pipe within FDOT right-of-way. Upon abandonment, the City has an obligation to remove and dispose of the piping as opposed to closing in place. FDOT's Utility Procedures Manual requires that each utility's permit includes the following statements, "all asbestos cement pipe and debris removed under the utility permit will be in accordance with the Asbestos National Emissions Standard for Hazardous Air Pollutant (NESHAP) and Title 40 Code of Federal Regulation Part 61, Subpart M."

The unit costs to remove and dispose of the asbestos cement pipelines were estimated by using necessary man hours, using internal labor rates and equipment costs, using disposal costs provided by the City's Solid Waste Department, and using grouting costs provided by a third-party vendor, KMR. The following table provides the cost estimate of the asbestos cement pipelines.

|                |             | Ur       | nit Cost |                   | Cost    |   |          |
|----------------|-------------|----------|----------|-------------------|---------|---|----------|
| Description    | Length (ft) | (per ft) |          | gth (ft) (per ft) |         | E | Estimate |
| 6 inch piping  | 16,000      | \$       | 11.54    | \$                | 184,640 |   |          |
| 8 inch piping  | 22,000      |          | 11.54    |                   | 253,880 |   |          |
| 10 inch piping | 14,000      |          | 11.89    |                   | 166,460 |   |          |
| 12 inch piping | 21,000      |          | 11.89    |                   | 249,690 |   |          |
| Misc. costs    |             |          |          |                   | 1,130   |   |          |

|                |             |          |          | _                 |         |   |          |

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### D. Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity (continued)

### 17. Asset Retirement Obligations (continued)

### McIntosh Plant Unit 3

Lakeland Electric was given Utility Committee approval to decommission Unit 3 in March of 2021 (a deconstructing and demolishing timeframe is currently unknown), Lakeland Electric is contractually obligated to acquire OUC's 40% ownership share of land for the amount that OUC originally paid, according to Section 19 of the Participation Agreement Between City of Lakeland and Orlando Utilities Commission for the Joint Ownership of McIntosh Unit Three Generation Project.

The cost to repurchase OUC's 40% share of land will be approximately \$860,000 based on the original purchase price of \$2,152,000. Because this cost is based upon a contractually agreed upon amount, these costs are considered certain, and probability weighting is not considered necessary.

### Safeguarding Public Health and Safety

Also identified was an obligation for safeguarding the Larsen Plant based on the requirements of the plant's industrial wastewater facility permit. Lakeland Electric, however, did not recognize the ARO liability because the requirements related to safeguarding the Larsen Plant are not currently known and, as such, the costs are not reasonably estimable.

The Larsen Plant discharges its Unit 8 cooling water, intake screen wash water, and storm water from the petroleum storage areas into Lake Parker under an industrial wastewater facility permit. As such, the Larsen Plant is subject to Florida Administrative Code 62-620, Wastewater Facility and Activities Permitting, which includes requirements for the abandonment of wastewater facilities.

The Florida Department of Environmental Protection (FDEP) has not provided information regarding the tasks that will need to be performed at the Larsen Plant in order to safeguard public health and safety. Lakeland Electric currently does not anticipate that there will be a need for any infrastructure at the plant to safeguard public health and safety beyond security fencing, which already exists at the Larsen Plant. Because Lakeland Electric is currently unable to determine what additional tasks will need to be performed, Lakeland Electric currently does not consider costs for this ARO liability to be reasonably estimable.

It is possible that, through discussions with FDEP, Lakeland Electric will identify additional tasks that will need to be performed to sufficiently safeguard public health and safety. If additional tasks are identified, a cost estimate will be prepared to complete these tasks and the ARO liability will be adjusted, as needed.

### Subsequent ARO Measurement and Recognition

The current value of the ARO for the effects of general inflation or deflation is adjusted annually using the Consumer Price Index (CPI) as published by the United States Department of Labor Bureau of Labor Statistics to perform the annual computation of the change in the ARO liability. The statement also requires the evaluation, at least annually, of all relevant factors to determine whether the effect of one or more of those factors is expected to significantly increase or decrease the estimated outlays associated with the ARO and the re-measurement of the ARO when results of the evaluation indicate a significant change in the estimated outlays resulting from changes in prices other than inflation/deflation, changes in technology, changes in legal or regulatory requirements, changes in equipment, facilities or services needed to retire the assets. The changes in the estimated outlays will be recognized as increases or decreases in the carrying amount of the ARO liability.

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### E. Revenues, Expenditures, and Expenses

Substantially all governmental fund revenues are accrued. Property taxes, which are levied annually based on the value of real property and tangible personal property as assessed on January 1 and are collected from November through the following March. Accordingly, these revenues are recognized in the same fiscal period in which payment is collected.

Revenues of proprietary funds types are categorized as either operating or non-operating. Operating revenues represent the user charges that are assessed directly to the persons benefiting from the service provided by that fund. All other revenues, including grant revenues and capital contributions, are classified as non-operating.

In the Government-wide Statement of Activities, revenue that is derived directly from the program itself or from outside sources if restricted to a specific program is called program revenue. Program revenue is classified as either charges for services, operating grants or capital grants. Charges for services is revenue received by a particular function for the services that it provides to both entities outside of the City and to other City functions. Operating grant revenues come from other government entities to support the operation costs of particular functions and also from the earnings of permanent funds that are legally restricted to a particular function. Capital grants come from other government entities for the purpose of constructing or purchasing capital assets.

All revenues included in the classification of operating revenues, in proprietary fund types, are pledged as security for revenue bonds to the extent such indebtedness exists within each fund type, except for the indebtedness of the RP Funding Center Fund. The debt of the RP Funding Center Fund is secured by a pledge of the utility tax revenues accounted for within the General Fund.

Unearned revenues that are received prior to revenue recognition are classified as liabilities.

### 1. Property Taxes

The millage rate levied by the City for the fiscal year ended September 30, 2022 was 5.4323 mills. Current tax collections for the City were approximately 97.80% of the total levy. The property tax calendar provides for the tax revenue to be billed and collected within the applicable fiscal year.

The property tax calendar for revenues billed, received, and accrued for fiscal year ended September 30, 2022 is as follows:

Lien date
Levy date
Certificate of Taxable Value (DR-420)
Final public hearing to adopted proposed millage rate
Certificate of Final Taxable Value (DR-422)
Beginning of fiscal year for tax assessment
Due Dates
Delinquent date

January 1, 2021 January 1, 2021 July 1, 2021 September 23, 2021 September 28, 2021 October 1, 2021 November 1, 2021 through March 31, 2022 April 1, 2022

On or before June 1, 2022

### 2. Miscellaneous Revenues

Tax certificate sale

Within the Government-wide Statement of Activities, revenues are either classified as program or general revenues. Included in general revenues are miscellaneous revenues that represent revenues received outside of normal operations. The balances of miscellaneous revenues in the governmental and proprietary funds are as follows:

|                                     | G  | overnmental<br>Activities | В  | usiness-type<br>Activities | Total |           |  |
|-------------------------------------|----|---------------------------|----|----------------------------|-------|-----------|--|
| Misc. revenues:                     |    |                           |    |                            |       |           |  |
| Rents and royalties                 | \$ | 289,755                   | \$ | -                          | \$    | 289,755   |  |
| Lease revenues                      |    | 628,478                   |    | -                          |       | 628,478   |  |
| Settlements                         |    | 100,067                   |    | -                          |       | 100,067   |  |
| Sales of fixed assets               |    | 148,090                   |    | -                          |       | 148,090   |  |
| Sale of surplus materials and scrap |    | 4,791                     |    | 202,390                    |       | 207,181   |  |
| Other miscellaneous revenues        |    | 6,230,004                 |    | 2,008,921                  |       | 8,238,925 |  |
|                                     | \$ | 7,401,185                 | \$ | 2,211,311                  | \$    | 9,612,496 |  |
|                                     |    |                           |    |                            |       |           |  |

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### E. Revenues, Expenditures, and Expenses (continued)

### 3. Indirect Expenses

Within the government-wide Statement of Activities, indirect expenses are not allocated to the functions of governmental activities. All expenses represent only direct expenses of each function.

### 4. Expenses

Expenses of proprietary funds types are categorized as either operating or non-operating. Operating expenses represent personnel services, other expenses incurred in the normal operations of the proprietary fund, and depreciation expense. All other expenses are classified as non-operating.

### F. Use of Estimates

Management has made estimates and assumptions relating to the reporting of assets and liabilities in conformity with GAAP. Actual results may differ.

### G. Amortization

Bond discounts and premiums are amortized over the life of the issue using the straight-line method for all funds with the exception of Lakeland Electric which uses the effective interest rate method. The City considered the effective interest method of amortizing bond discounts and determined that no material difference results from the continued use of the straight-line method. GASB 65, which was implemented by the City for FY 2013, generally requires that unamortized debt issuance costs be expensed in the current period. However, Lakeland Electric elects to follow accounting for regulated operations under GASB 62, which allows debt issuance costs to be classified as a regulatory asset and recovered through rates over the life of the associated debt.

### H. Fair Value Hierarchy

The table illustrating investment holdings by the fair value hierarchy can be found in Note 3 - Cash, Cash Equivalents and Investments

### I. Negative Fund Balances

At September 30, 2022, the following governmental funds reported negative fund balances:

<u>Public Improvement Fund</u> - Unassigned Fund Balance - (\$18,073,749) - The negative fund balance is a result of the amount the deferred inflows of resources related to leases that exceeded the value of the investments held from the \$215 million lease prepayment due to the \$26 million decline in the fair value of investments held at year end.

<u>State Housing Initiatives Partnership Program</u> - Unassigned Fund Balance - (\$1,525) - The negative fund balance is a result of prior years grant ineligible expenditures.

### NOTES TO FINANCIAL STATEMENTS

### **SEPTEMBER 30, 2022**

### **NOTE 2 – ACCOUNTING AND REPORTING CHANGES**

### **New Accounting Pronouncements**

In June 2017, the GASB issued Statement No. 87, Leases. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provision of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this Statement are effective for fiscal years beginning after June 15, 2021. This GASB statement was implemented and additional notes provided in Note 8 for the fiscal period ending September 30, 2022. A restatement of the beginning net position was not required due to this change.

In June 2018, the GASB issued Statement No. 89, Accounting for Interest Cost Incurred Before the End of a Construction Period. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statement prepared using the economic resources measurement focus. It also reiterates that in financial statements prepared using the current financial resources measurement focus, interest cost incurred before the end of a construction period should be recognized as an expenditure on a basis consistent with governmental fund accounting principles. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020. The City does not recognize capital interest other than the Electric regulated operations. Electric will continue to follow GASB 62, paragraph 485 criteria for regulated operations regarding capitalization of qualifying interest cost as a regulatory asset which should remain applicable.

In May 2019, the GASB issued Statement No. 91, Conduit Debt Obligations. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2021. Management has not determined what impact, if any, this GASB statement might have on its financial statements ending September 30, 2023.

In January 2020, the GASB issued Statement No. 92, *Omnibus 2020*. The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. The requirements of this Statement will enhance the comparability in the application of accounting and financial reporting requirements and will improve the usefulness of information for users of state and local government financial statements.

The requirements of this Statement are effective as follows:

- The requirements related to the effective date of Statement 87 and Implementation Guide 2019-3, reinsurance recoveries, and terminology used to refer to derivative instruments are effective upon issuance.
- The requirements related to intra-entity transfers of assets and those related to the applicability of Statements 73 and 74 are effective for fiscal years beginning after June 15, 2021.
- The requirements related to application of Statement 84 to postemployment benefit arrangements and those related to nonrecurring fair value measurements of assets or liabilities are effective for reporting periods beginning after June 15, 2021.
- The requirement related to the measurement of liabilities (and assets, if any) associated with Asset Retirement Obligations (ARO's) in a government acquisition are effective for the government acquisitions occurring in reporting periods beginning June 15, 2021.

This GASB statement was implemented for the fiscal period ending September 30, 2022 resulting in a restatement of the beginning leases receivable and deferred inflows of resources related to leases balances to reflect the implementation of this standard as noted in Note 8. A restatement of beginning net position due to the change in accounting principle was not required.

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 2 – ACCOUNTING AND REPORTING CHANGES (continued)

### **New Accounting Pronouncements (continued)**

In March 2020, the GASB issued Statement No. 93, *Replacement of Interbank Offered Rates*. Some governments entered into agreements in which variable payments made or received depend on an interbank offered rate (IBOR). Most notably, the London Interbank Offered Rate (LIBOR). Because of global reference rate reform, LIBOR is expected to cease to exist in its current form as the end of 2021, prompting governments to amend or replace financial instruments for the purpose of replacing LIBOR with other reference rates, by either changing the reference rate or adding or changing fallback provision related to the reference rate. The objective of this Statement is to address those and other accounting and finance reporting implications from the result from the replacement of IBOR.

This Statement achieves that objective by:

- Providing exceptions for certain hedging derivative instruments to the hedge accounting termination provisions when an IBOR is replaced as the reference rate of the hedging derivative instrument's variable payment
- Clarifying the hedge accounting termination provisions when a hedged item is amended to replace the reference rate
- Clarifying that the uncertainty related to the continued availability of IBORs does not, by itself, affect the assessment of whether the occurrence of a hedged expected transaction is probable
- Removing LIBOR as an appropriate benchmark interest rate for the qualitative evaluation of the effectiveness of an interest rate swap
- Identifying a Secured Overnight Financing Rate and the Effective Federal Funds Rate as appropriate benchmark interest rates for the qualitative evaluation of the effectiveness of an interest rate swap
- Clarifying the definition of reference rate, as it is used in Statement 53, as amended

The removal of LIBOR as an appropriate benchmark interest rate is effective for the reporting period ending after December 31, 2021. Lease modifications exceptions for certain lease contracts that are amended to replace and IBOR is effective for fiscal years beginning after June 15, 2021. The City currently has outstanding four interest rate swap agreements totaling \$88,205,000, which are based on the LIBOR index. Based on fallback provisions adopted by the International Swap Dealers Association, those agreements will convert to using the SOFR Index in February, 2023. This change is not expected to have any significant economic impact on the City.

In March 2020, the GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. The objectives of this Statement are to improve financial reporting by addressing issues related to public-private and public-public partnerships (PPPs). A PPP arrangement, as used in this Statement, is when a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. This Statement provides accounting and financial reporting requirements for all other PPPs: those that either (1) meet the definition of an service concession arrangement (SCA) or (2) are not within the scope of Statement 87, as amended (as clarified by this Statement). The requirements of this Statement are effective for fiscal years beginning after June 15, 2022. Management has not determined what impact, if any, this GASB statement might have on its financial statements ending September 30, 2023.

In May 2020, the GASB issued Statement No. 96, Subscription-Based Information Technology Arrangements. The objective of this Statement is to provide guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, Leases, as amended. The requirements of this Statement are effective for fiscal years beginning after June 15, 2022. Management has not determined what impact, if any, this GASB statement might have on its financial statements ending September 30, 2023.

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 2 – ACCOUNTING AND REPORTING CHANGES (continued)

### **New Accounting Pronouncements (continued)**

In June 2020, the GASB issued Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans. The objectives of this Statements are to (1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans. The requirements of (a) paragraph 4 of this Statement as it applies to defined contribution pension plans, defined contribution OPEB plans, and other employee benefit plans and (b) paragraph 5 of this Statement are effective immediately. The requirements of this Statement for OPEB and all other requirements are effective for fiscal years beginning after June 15, 2021. Implementation of GASB 97 had no effect on the financial statements of the City.

In April 2022, the GASB issued Statement No. 99, *Omnibus 2022*. The objectives of Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. Management has not determined what impact, if any, this GASB statement might have on its financial statements ending September 30, 2023.

In June 2022, the GASB issued Statement No. 100, Accounting Changes and Error Corrections an amendment of GASB Statement No. 62. The objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decision or assessing accountability. Statement 100 defines a government should disclose Changes in accounting principles, Changes in accounting estimates, Changes to or within the financial reporting entity, and Corrections of errors in previously issued financial statements. The requirements of this Statement are effective for accounting changes and error corrections made in the fiscal years beginning after June 15, 2023, and all reporting periods thereafter. Management has not determined what impact, if any, this GASB statement might have on its financial statements ending September 30, 2024.

In June 2022, the GASB issued Statement No. 101, *Compensated Absences*. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. This Statement requires that liabilities for compensated absences be recognized for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. The requirements of this Statement are effective for fiscal years beginning after December 15, 2023. Management has not determined what impact, if any, this GASB statement might have on its financial statements ending September 30, 2025.

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 3 - CASH, CASH EQUIVALENTS AND INVESTMENTS

### A. Deposits

The carrying amount of the amounts on deposit in banks, financial institutions, and cash on hand as of September 30, 2022 is as follows:

|                         | Prima | <b>Primary Government</b> |  |  |  |  |
|-------------------------|-------|---------------------------|--|--|--|--|
| Demand Deposits         | \$    | 5,650,741                 |  |  |  |  |
| Cash with Paying Agents |       | 48,212,529                |  |  |  |  |
| Cash on Hand            |       | 120,115                   |  |  |  |  |
| Total Deposits          | \$    | 53,983,385                |  |  |  |  |
|                         |       |                           |  |  |  |  |
| Balance per bank        | _\$   | 9,161,207                 |  |  |  |  |

All balances are collateralized with securities held by the pledging financial institutions but not in the name of the City of Lakeland. This collateral consists of insurance provided by the FDIC and securities held by the State of Florida Public Deposit Security Trust Fund.

<u>Custodial Credit Risk</u> - Custodial credit risk is the risk that in the event of a bank failure the City of Lakeland's deposits may not be returned. Florida Statutes Chapter 280, *Florida Security for Public Deposits Act* requires deposits by governmental units in a financial institution be collateralized. The City of Lakeland's policy, in accordance with Florida Statutes, also requires the use of only authorized dealers, institutions and qualified public depositories meeting the standards as set forth by the State of Florida and the Securities and Exchange Commission's Rule 15c3-1. In the event of a failure of a qualified public depository, the remaining public depositories would be responsible for covering any resulting losses. Accordingly, all amounts reported as deposits are deemed as insured or collateralized with securities held by the entity or its agent in the entity's name. As of September 30, 2022, \$9,161,207 and \$48,212,529 of the City of Lakeland's bank balance and paying agent deposits were exposed to custodial credit risk as follows:

|   | Primary          |
|---|------------------|
| Depository Account                        | Government       |
| Insured                                   | \$<br>795,471    |
| Collateralized:                           |                  |
| Collateral held by the pledging financial |                  |
| institutions not in the City's name:      |                  |
| Banking institutions                      | 8,365,736        |
| Cash with paying agents                   | 48,212,529       |

### B. Fair Value Hierarchy

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles (GAAP). The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; level 2 inputs are significant other observable inputs; and level 3 inputs are significant unobservable inputs. Investment values are measured consistent with the market approach to valuation using prices and other relevant information generated by market transactions involving identical or similar assets, liabilities, or groups of assets and liabilities.

Debt and equity securities classified as level 1 were valued using quoted prices as of September 30 (or the most recent market close date if the markets were closed on September 30) in active markets.

Debt and equity securities classified as level 2 use prices from the custodian bank's external pricing venders. The pricing methodology includes using evaluation models such as matrix pricing, actual trade data, collateral attributes, broker bids, new issue pricing, other observable market information, and alternative pricing source if information is not available from the primary venders.

Debt and equity securities classified as Level 3 are prices from the custodian bank's external pricing vendors or an alternative pricing source, utilizing inputs such as stale prices, cash flow models, broker bids, or cost. Cost or book value may be used as an estimate of fair value when there is a lack of an independent pricing source.

<sup>&</sup>lt;sup>1</sup>Fixed income strategies - This type includes sixteen private equity fixed income type securities invested primarily in secured and unsecured debt instruments of middle market companies and institutions. These securities can include special situations like rescue financing and restructuring to optimize liquidity often with lower fee structures. \*These investments are typically illiquid with disbursements received as underlying assets are liquidated; however, one of these funds is eligible for quarterly redemption with 100 days written notice.

<sup>&</sup>lt;sup>2</sup>Real estate strategies - This type includes thirteen real estate funds invested primarily in commercial and residential real estate. Participation in these funds is typically as a limited partnership with ownership measured in shares of partners' capital. \*These holdings are typically illiquid with distributions received as underlying asset are liquidated; however, one fund is eligible for quarterly disbursement with 30 days' notice subject to available cash as determined by the trustee.

<sup>&</sup>lt;sup>3</sup>Private equity strategies - This type includes sixteen private equity funds that invest in domestic and international equities with a variety of investment strategies. Ownership is measured in shares of partners' capital with distributions received as the underlying investments of the fund are liquidated. 
\*These holdings are typically illiquid with distributions received as underlying assets are liquidated; however, two of these funds are eligible for daily withdrawal subject to a 5 or 10 day notice and one fund is eligible for monthly withdrawal subject to a 5 day notice before month end.

<sup>&</sup>lt;sup>4</sup>Alternative investments - This type includes seven private equity funds with a variety of investment strategies that typically offer superior long-term risk/reward profiles, but with more limited liquidity characteristics. Ownership is measured in shares of partners' capital with distributions received as the underlying investments of the fund are liquidated. \*These holdings are largely illiquid with distributions only received as underlying assets are liquidated. None of these funds are eligible for withdrawal of equity upon request.

### **SEPTEMBER 30, 2022**

### NOTE 3 - CASH, CASH EQUIVALENTS AND INVESTMENTS (continued)

### C. Cash Equivalents and Investments

<u>Pooling of Cash and Investments</u> - Except for cash in certain restricted and special funds, the City will consolidate cash balances from all funds to maximize investment earnings. Investment income will be allocated to the various funds based on their respective participation in each investment pool and in accordance with GAAP.

The City of Lakeland's cash investment pool is considered to be a cash equivalent for reporting purposes because it is an internally managed mutual fund which allows individual funds and sub-funds to, at any time, deposit additional cash or make withdrawals without prior notice or penalty.

Pooled Investments - Swap Transaction - As of September 30, 2022, the City had \$88,205,000 in investment swaps outstanding.

Investments - Several forms of legal and contractual provisions govern the types of investments in which the City may directly invest. Allowable investments consist of US Government obligations, US Government agency or instrumentality obligations, and the obligations of federal government sponsored enterprises (GSE's), which have a liquid market with a readily determinable fair value; securities whose timely payment of principal and interest are fully guaranteed by any of the above; certificates of deposits and other evidences of deposit at financial institutions, provided that any such investments shall be in a qualified public depository (as defined in Chapter 280 of the Florida Statutes) and/or covered by FDIC insurance; investment-grade obligations of state and local governments and public authorities; repurchase agreements whose underlying purchased securities consist of the foregoing; guaranteed investment contracts (GIC's) which are collateralized by the foregoing; dollar denominated money market mutual funds regulated by the SEC; local government investment pools either state administered or through joint powers statutes and other intergovernmental agreement legislation; high grade corporate debt consisting of dollar denominated debt obligations of domestic or foreign corporations, for foreign sovereignty's issued in the US or foreign markets rated in the highest tier by a nationally recognized rating agency. Any such longer-term investments in this category shall be rated investment grade or better by at least two nationally recognized rating agencies, one of which shall be Moody's or Standard & Poor's; and any other qualified investment permitted under Florida Statutes in effect. The SBA is part of the Local Government Surplus Funds Trust Fund which is governed by Chapter 19-7 of the Florida Administrative Code. The pension trust funds are also authorized for investment in corporate stocks and bonds, money market funds and other qualified securities.

The standard of prudence to be used by investment officials shall be the "prudent person" standard and shall be applied in the context of managing an overall portfolio. All trades, where applicable, will be executed by delivery vs. payment (DVP) to ensure that securities are deposited in an eligible financial institution prior to the release of funds. Safekeeping receipts or other evidence of ownership will be audited on a semi-annual basis with a variance report issued to the Investment Administrator. The following investments and maturities, held by the various funds of the City as of September 30, 2022, are collateralized by registered securities held by the City or its agents in the City's name:

<u>Custodial Credit Risk</u> - Custodial credit risk, for an investment, is the risk that, in the event of the failure of the counterparty, the City of Lakeland will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

As of September 30, 2022, the City of Lakeland held \$54,548,917 in Money Market Funds and \$235,614,877 in Mutual Funds. These investments are held by an investment's counterparty, not in the name of the City. The City of Lakeland's investment policy limits the investment in Money Market Funds and Mutual Funds to 10% of total investments in each.

<sup>&</sup>lt;sup>1</sup>Represents accrued interest accounted for within the internally managed pooled investment fund and consolidated investment fund. This asset is allocated to participating funds on a pro-rata basis and is included within the investment caption.

<sup>&</sup>lt;sup>2</sup>The rate of return on the money market funds, exchange traded funds, and mutual funds fluctuates during the year based on market conditions. Also, there is no stated maturity date for this type of investment. These funds may be invested, withdrawn, or reinvested at the City's discretion.

<sup>&</sup>lt;sup>3</sup>The investment maturities of the fixed income strategies, real estate strategies, and private equity strategies are based principally on redemption eligibility. For funds where redemption is not known, maturities have been estimated based on past experience with similar investment funds in relation to remaining uncalled capital and typical liquidation of underlying assets.

### NOTE 3 – CASH, CASH EQUIVALENTS AND INVESTMENTS (continued)

### C. Cash Equivalents and Investments (continued)

<u>Interest Rate Risk</u> - Interest rate risk exists when there is a possibility that changes in interest rates could adversely affect an investment's fair value. The City utilizes the "segmented time distribution" method as a measure of interest rate risk.

The fair value of the City of Lakeland's fixed maturity investments fluctuate in response to changes in market interest rates. Increases in prevailing interest rates generally translate into a decrease in the fair values of those instruments. Fair values of interest rate-sensitive instruments may be affected by the credit worthiness of the issuer, prepayment options, relative values of alternative investments, the liquidity of the instrument, and other market conditions.

As a means of limiting its exposure to fair value losses arising from rising interest rates, the City of Lakeland's investment policy structures the investment portfolio to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity. The City of Lakeland's investment policy limits the length of maturities of investment securities held by funds of the City, except Pension Funds or any other monies invested under separate ordinance, resolution, policy, or agreement. Unless a portion of the investment is matched to a specific cash flow and invested in cash equivalent investments, the City will not directly invest in securities maturing more than ten (10) years from the date of purchase or in accordance with state and local statutes and ordinances. However, Section IV.7.b of the policy provides for investment horizons exceeding ten years for reserve funds and non-operating funds if, in the judgment of the Investment Administrator, any such investments are sufficiently liquid to provide for unexpected use of such funds. The City owns a significant amount of mortgage-backed debt that have long legal maturities; however, these bonds actually have relatively short average lives. The investment maturity limits and actual limits of investments held by funds of the City as of September 30, 2022, except for the aforementioned funds, are as follows:

| Investment Security Maturity Limitations | Maximum Investment Maturity % of Total | Actual Investment Maturity % of Total |
|--|--|---------------------------------------|
| 0-1 years                                | 100%                                   | 46.2%                                 |
| 1-5 years                                | 75%                                    | 11.4%                                 |
| 5-10 years                               | 50%                                    | 19.1%                                 |

<sup>\*</sup> Except as provided for in section IV.7.b of the Investment Policy.

<u>Foreign Currency Risk</u> - Foreign currency risk, for an investment, is the risk associated with currency fluctuations when an investment is denominated in a foreign currency.

The Pooled Investment Fund held \$11,256,056 (1.8%) in equity investments of foreign issuers or non-US companies. The investment policy for this fund allows investments in high grade corporate debt consisting of U.S. dollar denominated debt obligations of domestic or foreign corporations, or foreign sovereignties issued in the U.S. or in foreign markets. As of September 30, 2022, the fund's foreign investment holdings were as follows:

### NOTE 3 - CASH, CASH EQUIVALENTS AND INVESTMENTS (continued)

### C. Cash Equivalents and Investments (continued)

The investments of the City's Perpetual Care Cemetery Fund, Survivor's Benefit Fund, the Baldwin Book Fund, and the Retiree Health Healthcare Trust Fund were pooled into the Consolidated Investment Fund. Section I.2 of the investment policy provides that the funds covered under the policy can be "pooled" for investment purposes to maximize earnings and to minimize associated fees. The Consolidated Investment Fund held \$146,300 (0.9%) in equity investments of foreign issuers or non-US companies. The investment policy for this fund limits the investments in foreign securities up to 30% of the fair value of the equity assets held by the fund. As of September 30, 2022, the fund holdings were as follows:

| Foreign Investments:      |     |         |              |          |
|---------------------------|-----|---------|--------------|----------|

### NOTE 3 - CASH, CASH EQUIVALENTS AND INVESTMENTS (continued)

### C. Cash Equivalents and Investments (continued)

Credit Risk Credit risk is the risk of loss due to the failure of the security issuer or other counterparty.

The purpose of the City of Lakeland's investment policy is to minimize credit risk by limiting investments in securities that have higher credit risks, pre-qualifying the financial institutions, brokers/dealers, intermediaries, and advisors with which the City will do business, and diversifying the investment portfolio so that potential losses on individual securities will be minimized.

The City of Lakeland's investment policy requires the following Standard & Poor's (S&P) or Moody's uninsured credit quality ratings for fixed income securities of the Employee Pension Fund, the Municipal Police Officers' Pension Fund, the City of Lakeland Firefighters' Retirement System Fund, the Public Improvement Endowment Fund, and the Consolidated Investment Fund:

| Investment Class   | S & P Rating   | Moody's Rating   | Maximum %        |

### NOTE 3 – CASH, CASH EQUIVALENTS AND INVESTMENTS (continued)

### C. Cash Equivalents and Investments (continued)

<u>Concentration of Credit Risk</u> The City of Lakeland limits investments to avoid over-concentration in securities from a specific issuer or business sector (excluding U.S. Treasury securities) and continuously invests a portion of the portfolio in readily available funds such as local government investment pools, money market funds or overnight repurchase agreements.

The City of Lakeland's overall investment policy concentration limits and actual concentration limits in investment types for all funds with the exception of Pension funds, the Survivors' Benefit Fund, the Baldwin Book Fund, the Cemetery Perpetual Care Fund, and the Consolidated Investment Fund. As of September 30, 2022, the investments in the Pooled Investment fund were as follows:

| Type of Security (Market)                    | Maximum % of Total | % of Total |
|--|--------------------|------------|
| US Government Obligations                    | 100%               | 10.0%      |
| Local Government Investment Pools            | 100%               | 0.0%       |
| Federal Agency & Instrumentality Obligations | 100%               | 20.3%      |
| Asset Backed Securities                      | 25%                | 38.2%      |
| High Grade Corporate Debt & CP               | 25%                | 19.5%      |
| State and Local Government Obligations*      | 25%                | 5.8%       |
| Collateralized Repurchase Agreements         | 15%                | 0.0%       |
| Certificates of Deposit                      | 10%                | 0.0%       |
| Other Investment Pools (rated "A" or better) | 10%                | 6.2%       |
| * Except as provided for in section IV.7.b   |                    |            |

Investment policy provides discretion for temporary variances due to market changes, etc.; therefore, the Asset Backed Securities exceeds the maximum percentage, but the percentages are corrected in the subsequent quarter due to changes in the market. No investments in a single security exceeded 5% of the fixed income portfolio. No individual security should exceed the greater of 50% of the issue or \$5 million.

The City of Lakeland's Consolidated Investment Fund and Public Improvement Endowment Fund are managed in accordance with the guidelines set forth by city ordinance. The investment manager may invest in common stocks, long-term fixed income investments and cash equivalents. Fixed income securities may be US government and agency obligations, obligations guaranteed by the US government, marketable corporate bonds and notes, GNMAs, US agency collateralized mortgage-backed securities, debentures, hybrid securities, commercial paper, and CDs. Up to 10% of fixed income investments may consist of issuers not domiciled in the US. Policy allows for temporary variances due to market shifts and allows the administrator to bring investment allocations into compliance within a short term time frame. As of September 30, 2022 these funds held investments in the following percentages:

| Asset Class (Market)                          | Minimum % | Maximum % | Actual % |
|---|-----------|-----------|----------|
| Consolidated Investment Fund Domestic Equity: |           |           |          |

### NOTE 3 - CASH, CASH EQUIVALENTS AND INVESTMENTS (continued)

### C. Cash Equivalents and Investments (continued)

The City of Lakeland's Employee Pension Fund, Firefighters' Retirement System, and Municipal Police Officers' Retirement Fund are each managed by their respective Pension Board of Trustees (Board). The Boards employ investment professionals to oversee and invest the assets of their respective funds. Assets are diversified to minimize overall portfolio risk consistent with the level of expected return to improve the long-term return potential of assets. If at the end of any calendar quarter the allocation of an asset class falls outside its allowable range (barring extenuating circumstances) the asset allocation is rebalanced into the allowable range. As of September 30, 2022 no single company's fixed securities or common stock represented more than 3% and 5% respectively of the fair value of assets in any fund. The investment allocation limits and actual percentages for these funds as of September 30, 2022 are as follows:

| Asset Class (Fair Value)                                       | Minimum % | Maximum % | Actual % |

The transfers to the General Fund are made for the purpose of subsidizing recurring operating losses incurred within the fund for those programs and activities do not generate sufficient dedicated revenues to finance those costs in their entirety. Transfers to the Internal Service Funds, Public Improvement Fund, and Non-major Goverbnmental Funds are intended to finance capital acquisitions accounted for in those funds.

In addition to the transfers above, \$14,587,905 in net assets and (\$8,615) in liabilities were transfers from the RP Funding Center (a non-major enterprise fund) to the General and the Public Improvement funds respectively. There are no other significant transfers occurring on a routine basis.

### **NOTE 6 - LONG-TERM LIABILITIES**

### A. Totals by Activity

The following is a summary of long-term liability transactions of the City for the year ended September 30, 2022. Additional details are provided on subsequent pages.

### NOTES TO FINANCIAL STATEMENTS

### **SEPTEMBER 30, 2022**

### NOTE 6 - LONG-TERM LIABILITIES (continued)

### A. Totals by Activity (continued)

Revenue bond and note obligations issued for the benefit of governmental activities are paid from amounts accumulated in legally required sinking funds maintained in the debt service fund. Loans issued for the benefit of governmental activities are not secured by one specific revenue pledge. These obligations are repaid directly from various revenue sources accounted for within special revenue funds.

Long-term liabilities payable from the resources of business-type activities are paid from the net revenues generated by those activities.

Other long-term liabilities of governmental activities consisting of compensated absences are repaid as employees separate from service, using current revenues of the general fund as the funding source.

The net OPEB and pension liabilities of governmental activities have been liquidated in prior years using revenues of the general fund, LCRA, stormwater, building inspection, and community development funds.

Long-term liabilities are classified in the Statement of Net Position as follows:

|  | G  | Sovernmental | В  | Business-type |                   |
|--|----|--------------|----|---------------|-------------------|
| <u>Current</u>                           |    | Activities   |    | Activities    | Total             |

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 6 - LONG-TERM LIABILITIES (continued)

### B. Revenue Bonds, Notes, Loans Outstanding

The City's outstanding notes from direct borrowings related to governmental activities of \$49,538,725 and outstanding bonds of \$38,816,105 contain provisions that in the event of default, outstanding amounts become immediately due if the City is unable to make a payment and are subject to acceleration clauses in the event material adverse changes occur.

The City's outstanding notes from direct borrowings related to business-type activities of \$163,383,032, loans payable of \$35,976,101 and outstanding bonds of \$453,838,895 contain provisions that in the event of default, outstanding amounts become immediately due if the City is unable to make a payment and are subject to acceleration clauses and/or cancelations of the lines of credit in the event material adverse changes occur.

The City has an unused line of credit from Water and Wastewater Revolving Loan program of \$2.2 million.

Revenue bonds, notes, and loans issued and outstanding as of September 30, 2022 are as follows:

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 6 - LONG-TERM LIABILITIES (continued)

### C. Revenue Bonds, Notes Outstanding

### Capital Improvement Revenue and Refunding Bonds, Series 2010

In September 2010, the City issued Capital Improvement Revenue and Refunding Bonds, Series A, B, & C in the amounts of \$48,490,000, \$10,140,000, and \$21,115,000 respectively to finance the cost of various capital improvements in the City, to refund, on a current basis, all of the City's outstanding Capital Improvement Revenue Bonds, Refunding Series 1997, and certain other outstanding indebtedness of the City (Sunshine Loans), and to pay certain costs and expenses related to the issuance of the Series 2010 Bonds. The Series 2010A bonds will mature on October 1, 2023. The Series 2010B bonds matured on October 1, 2020. The Series 2010C bonds will mature on October 1, 2040. Principal payments are payable on October 1 of each year and interest payments are payable October 1 and April 1 of each year.

The Capital Improvement Revenue Bonds are secured by a covenant to budget and appropriate non-ad valorem revenues of the City in sufficient annual amounts to satisfy the debt service requirements on those bonds in each such fiscal year. The City pledged future non ad-valorem revenues to repay \$79,745,000 Capital Improvement Revenue and Refunding bonds. The total principal and interest remaining to be paid on the Capital Improvement Revenue bonds aggregate \$29,387,242.

The Capital Improvement bonds require the establishment of debt service reserve accounts and sinking funds to accumulate the funds needed to make annual debt service payments. Principal and Interest paid for the current year and total non-ad valorem revenues were \$2,317,890 and \$107,477,852 respectively.

### Capital Improvement Refunding Note, Series 2012

In September 2013, the City issued Capital Improvement Refunding Notes, Series A, and B, in the amounts of \$15,983,000, and \$1,625,000 respectively, to refund, on a current basis, all of the City's outstanding 2002 Utility Tax Revenue Refunding Bonds, Series A and B, and 2002 Tourist Development Series C and to pay certain costs and expenses relating to the issuance of the Series 2012 Bonds. A portion of the Series 2012A bonds matured on October 1, 2015 and the remainder of the Series 2012A bonds will mature on October 1, 2022. The Series 2012B bonds matured on October 1, 2017. Principal payments are payable on October 1 of each year and interest payments are payable October 1 and April 1 of each year. The total remaining principal and interest requirement of these bonds aggregate \$2,030,613.

### Capital Improvement Revenue Bonds, Series 2015

In May, 2015, the City issued Capital Improvement Revenue Bonds, Series 2015, in the amount of \$51,465,000 to pay a variety of capital improvement projects within the City, including the renovation of Joker Marchant Stadium, the spring training facility for the Detroit Tigers professional baseball team and to pay certain costs and expenses relating to the issuance of the Series 2015 note. The series will mature on October 1, 2036. Principal payments are payable on October 1 of each year and interest payments are payable October 1 and April 1 of each year. The total remaining principal and interest requirement of these bonds aggregate \$47,858,974.

### Capital Improvement Revenue Notes, Series 2017A and 2017B

In May, 2017, the City issued its Series 2017A and 2017B Capital Improvement Revenue Notes in the amounts of \$16,370,569 and \$15,879,855 respectively. The 2017A Notes were issued to fund improvements at the City's civic center and certain improvements at the Lakeland Linder International Airport. The 2017A Notes bear interest at the rate of 2.44% and mature on April 1, 2032. The 2017B Notes were issued to fund certain other improvements at the Lakeland Linder International Airport. The 2017B Notes bear interest at the rate of 2.10% and mature on April 1, 2026. Both the 2017A and 2017B Notes are payable from non-ad valorem revenues of the City. In addition, the 2017A Notes are payable, in part, from certain tourist development tax revenues payable to the City by Polk County. The total remaining principal and interest requirement of these bonds aggregate \$17,452,050.

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 6 - LONG-TERM LIABILITIES (continued)

### C. Revenue Bonds, Notes Outstanding (continued)

### Water and Wastewater Revenue Refunding and Improvement Bonds, Series 2021

The Series 2021 Bonds are secured by an irrevocable, valid, and binding lien on and security interest in the gross revenues derived from the operation of the City's Water and Wastewater Utility system, certain connection charges, moneys deposited into certain funds and accounts created by the Bond Ordinance and the earnings thereon, on parity with the Series 2012 Bonds that are subject to optional and mandatory redemption payable on Octoberof each year, all of which were refunded in connection with the issuance of the Series 2021 Bonds, all in the manner and to the extent provided in the Bond Ordinance. Principal and interest paid for the current year and total net customer revenues were \$603,908 and \$42,562,518 respectively.

In October 2019, The City of Lakeland entered into a forward delivery agreement with Bank of America, N.A. for the issuance and delivery of the Water and Wastewater Refunding Bond, Series 2021 in the amount of \$28,220,000. The bond refunded the outstanding Water and Wastewater Revenue Refunding and Improvement Bonds, Series 2012A maturing on and after October 1, 2021 and pay the issuance costs of the 2021 Bonds. The bonds were issued on October 1, 2021. These Bonds will mature on October 1, 2032. The Series 2012 Bonds are subject to optional and mandatory redemption payable October 1 of each year. Interest on the Series 2021 Bonds is payable on October 1 and April 1 of each year. The total remaining principal and interest requirement for these bonds aggregate \$31,667,542.

### Water and Wastewater Revenue Note, Series 2015

In November 2015, the City issued the Water and Wastewater Revenue Note, Series 2015 in the amount of \$10,600,000 to finance the construction and acquisition of improvements to the City's Water and Wastewater Systems and to pay certain costs and expenses relating to the issuance of the Series 2015 note. The series will mature on October 1, 2025. Principal payments are payable on October 1 of each year and interest payments are payable October 1 and April 1 of each year. The total remaining principal and interest requirement of these bonds aggregate \$7,337,580.

### Energy System Refunding and Revenue Bonds, Series 2010

In October 2010, the City issued the Energy System Revenue and Refunding Bonds, Series 2010 in the amount of \$199,300,000 to (1) finance certain capital improvements to the electric power system of the City, (2) to refund on a current basis, a portion of the City's outstanding Electric and Water Refunding Revenue Bonds, Series 1999A and to refund on an advance basis, all of the City's outstanding Energy System Revenue Bonds, Series 2001B, (3) to pay costs associated with the termination of a conditional bond warrant agreement, and (4) to pay certain costs and expenses related to the issuance of the Bonds. The bonds mature on October 1, 2036. Principal payments are payable October 1 of each year and interest payments are payable October 1 and April 1 of each year. The remaining principal and interest requirement for these bonds aggregate \$133,837,044.

### Energy System Revenue and Refunding Bonds, Series 2016

In February 2016, the City issued the Energy System Revenue and Refunding Bonds, Series 2016 in the amount of \$138,650,000. The Series 2016 bonds refunded all of the Series 2014 bonds, a portion of the outstanding Series 2006 bonds, and provided \$37.4 million in proceeds to fund Electric System capital projects. The Series 2016 bonds bear fixed interest rates ranging from 2.00% to 5.00%, and mature from October 1, 2016 through October 1, 2036. In concert with the refunding of the 2014 bonds, which were variable rate obligations, the City terminated portions of three associated floating-to-fixed interest rate swaps. The refunding portion of the transaction did not produce net present value savings or a material economic gain or loss; rather, it was designed to restructure and simplify the Electric System's debt profile. The remaining principal and interest requirements for these bonds aggregate to \$129,514,605. See Footnote 6.G regarding the interest rate swaps associated with the refunding.

### Variable Rate Energy System Refunding Bonds, Series 2017

In August 2017, the City issued the Variable Rate Energy System Refunding Bond, Series 2017 in the amount of \$97,000,000 to pay the City's outstanding Variable Rate Energy System Revenue and Refunding Bonds, Series 2012 that were scheduled to mature on October 1, 2017. Immediately prior to this 2017 refunding, the City paid down \$3,000,000 of outstanding principal on the Series 2012 Bonds. The bonds bear a variable rate of interest equal to the one-month LIBOR index plus 0.52 percent. Interest payments are payable on the first business day of each month. Although the 2017 bonds bear a variable rate of interest, they have been effectively converted to a fixed rate as a result of pre-existing interest rate swap agreements. There was no gain or loss on refunding of the debt. The remaining principal and interest payments for these bonds aggregate \$103,703,883.

### NOTE 6 - LONG-TERM LIABILITIES (continued)

### C. Revenue Bonds, Notes Outstanding (continued)

### Energy System Revenue Bonds, Series 2018

In September 2018, the City issued the Energy System Revenue Bonds, Series 2018 in the amount of \$43,945,000. Proceeds of the bonds were used to fund various capital projects for Lakeland Electric, including the acquisition and installation of a 125 megawatt peaking unit. The 2018 bonds mature in serial installments on October 1, 2020 through October 1, 2037. The bonds bear interest rates of between 3.25% and 5.00%, with interest payable on April 1 and October 1 of each year. The remaining principal and interest payments for these bonds aggregate to \$50,098,069.

### Energy System Revenue Bonds, Series 2021

In December 2021, the City issued the Energy System Revenue Bonds, Series 2021 in the amount of \$123,295,000. Proceeds of the bonds were used to finance the acquisition and installment of new electric generation units and the acquisition, construction and equipping of certain other capital improvements to the electric power system of the City and paying certain costs and expenses related to the inssuance of the Bonds. The 2021 Bonds mature in serial installments on October 1, 2022 through October 1, 2048. The Bonds bear interest rates between 4.00% and 5.00%, with interst payable on April 1 and October 1 of each year. The remaining payments for these bonds aggregate to \$210,985,775.

The Electric and Energy bonds series are secured by a pledge of operating revenues of the Electric Utility. The total principal and interest remaining to be paid on all of the Electric Revenue Bonds is \$628,139,376. Principal and interest paid for the current year and total net customer revenues were \$39,223,822 and \$126,652,539 respectively.

### Florida Taxable Pension Liability Reduction Note, Series 2020

In March 2020, the City issued its Taxable Pension Liability Reduction Note, Series 2020 in the amount of \$81,000,000. The Note is secured by a pledge to budget and appropriate non-ad valorem revenues of the City. The Note, which was issued in the form of a bank loan from Toronto Dominion Bank, N.A, pays interest on April 1 and October 1 of each year at a fixed rate of 2.42%. The note amortizes, paying interest on October 1 of each year, with a final maturity of October 1, 2040. Proceeds of the Note were used to reduce the unfunded liabilities in the City's three pension plans and to pay associated cost of issuance. Issuance of the note resulted in present value savings of approximately \$27.1 million. The required contributions to the various pension plans will be reduced by amounts exceeding the allocable debt service on the bonds. The remaining principal and interest payments for this note aggregate to \$83,806,023.

### Capital Improvement Revenue and Refunding Bonds, Series 2021 A, B, & C

In July 2021, the City issued its Capital Improvement Revenue and Refunding Bonds, Series A, B and C in an aggregate principal amount of \$45,490,000. The bonds are secured by a pledge to budget and appropriate non-ad valorem revenues of the City. The bonds pay interest on April 1 and October 1 of each year, beginning on October 1, 2021, with a final maturity of October 1, 2041. The bonds, which were sold at a premium, generated approximately \$55.3 million of proceeds which will fund a variety of projects including numerous projects at the City's Lakeland Linder International Airport, the current refunding of certain prior loans and bonds, and several other projects of the City. The bonds were sold at an all-in true interest cost of 1.86% and have debt service payments totaling approximately \$63.5 million through final maturity. The remaining principal and interest payments for these bonds aggregate to \$62,241,380. The current refundings resulted in a net positive cash difference of \$606,066 and an economic gain of \$524,445.

As of September 30, 2022, the City is in compliance with all required covenants of the bond ordinances, including compliance with federal arbitrage regulations.

### NOTES TO FINANCIAL STATEMENTS

### **SEPTEMBER 30, 2022**

### NOTE 6 - LONG-TERM LIABILITIES (continued)

### D. Loans Payable

The debt service requirements of promissory notes are not secured by pledges of any specific revenue sources of the City. Annual debt service payments are made from a variety of non-ad valorem revenues.

### State of Florida Revolving Loan Program

The State of Florida Revolving Loan Program provides low-interest loans for planning, designing, and constructing water pollution control and public water facilities Currently, the City has eleven loans outstanding. The loan program operates on a reimbursement basis. When proceeds are remitted, the loans accrue interest based upon the rate approved by the State at the date of closing. The liability due to the State is the loan amount (as amended) plus accrued interest.

At September 30, 2022, the City had total loans outstanding of \$64,742,419 payable to the State. The loans are secured by a pledge of excess revenues of the Wastewater and Water Utility systems and by a pledge of certain amounts deposited into a loan amortization account and loan amortization reserve established by the City for the purpose of funding future debt service on the loans. Amounts required for deposit are classified as restricted assets.

As of September 30, 2022, the City is in compliance with all covenants of these loan agreements.

### E. Conduit Debt

The City has issued industrial revenue bonds to provide financial assistance to private businesses for economic development purposes. This includes bonds issued to finance capital improvements at the Lakeland Regional Health Systems having an unmatured principal balance of \$224,060,000 as of September 30, 2022.

Neither the City nor any political subdivision thereof is obligated in any manner for repayment of these bonds.

### **G. Interest Rate Swaps**

As a means to reduce borrowing costs, and to hedge the variable rate exposure related to certain bonds, the City has entered into a number of interest rate swap agreements.

An interest rate swap is a derivative i.e. a financial instrument whose value and terms are derived from a specified financial index (SIFMA). In the case of the interest rate swaps employed by the City of Lakeland, the intent is two-fold. First to achieve an all-in financing cost (representing interest payments to bondholders combined with net interest payments and receipts on the derivatives) that is less than the financing cost associated with traditional fixed rate bonds based on market conditions at the time of each bond issue. The second objective is to minimize the interest rate risk associated with the inherent volatility associated with "naked" variable rate debt. Under the terms of these interest rate swaps, the City of Lakeland pays an amount to a counterparty that is based on a specified notional amount (which closely approximates the outstanding principal amount of the related bonds) times a specified fixed interest rate. In exchange, the counterparty makes a payment to the City that is based on the same notional amount times a variable rate of interest. When the variable and fixed components of the interest rate swaps are combined with the variable cash payments made by the City to the actual bondholders, the end result is a net, fixed rate of interest.

In the case of the City's interest rate swaps, effectiveness testing measures the extent to which the terms of the interest rate swaps insulated the City from changes in the market rate of interest payable on the bonds. All of the interest rate swaps employed by the City have passed at least one of the effectiveness tests prescribed by the GASB 53. Accordingly, the fair values of the derivatives are recorded as offsetting items on the balance sheet i.e. recognition of changes in fair value are deferred. The fair value of Lakeland Electric's interest rate swaps as of September 30, 2022 was \$(11,759,486).

### **NOTES TO FINANCIAL STATEMENTS**

### NOTE 6 - LONG-TERM LIABILITIES (continued)

### G. Interest Rate Swaps (continued)

### Variable Rate Hedges

As a means to hedge the variable rate risk exposure related to certain variable rate Electric System bonds, the City has entered into several interest rate swap agreements. These agreements, which were entered into between 2001 and 2008, were related to certain prior variable rate debt, which has been refunded. The City has elected to apply the existing swap agreements to hedge the new variable rate refunding debt. In August 2017, the City issued the Variable Rate Energy System Refunding Bond, Series 2017 which refunded the outstanding Series 2012 bonds, which were variable rate obligations. Concurrently, the City modified the terms of several of the outstanding variable rate hedges to bring them into closer alignment with the outstanding variable rate bonds. No termination payments were made. The existing swap agreements are summarized in the chart below:

| Notional<br>9/30/2022 | Counterparty   | Start Date     | Maturity<br>Date | City Receives           | City Pays | Fair Market<br>Value<br>9/30/2022* |

|                       |  |                |                  |                         |           |                                    |

<sup>\*</sup> Modelled on Bloomberg by COL

As a result of the swap agreements, the City will receive variable rate payments equal to 67% of LIBOR times the notional amount of the swap agreements. The notional amount of the swap agreements roughly corresponds to the outstanding amount of the Series 2017 variable rate bond. In return, the City will make fixed rate payments of between 3.163% and 3.92% times the notional amount of the swap agreements. These agreements fix the variable rate exposure of the 2017 bond at the fixed rates noted above (plus the fixed rate spread paid on the bond) to the extent that the variable rate payments received by the City under the swap agreements are equal to the variable rates paid by the City on the 2017 Bond. Over time the variable rates paid and received are expected to be equivalent.

The swap agreements use the International Swap Dealers Association Master Agreement, which includes standard termination events, such as failure to pay, bankruptcy, or rating downgrades to either counterparty. As of September 30, 2022, the City was not subject to credit risk with its counterparties because the fair values of the swap agreements were negative.

Accordingly, the fair values of the derivatives are recorded as offsetting items on the balance sheet i.e. recognition of changes in fair value are deferred (see Note 1 D15).

### **NOTE 8 - LEASES**

### A. Lease Financings

Included in the capital leases payable is the carrying value of capital leases that the City has entered into for the acquisition of golf carts and maintenance equipment for the benefit of the City-owned Cleveland Heights Golf Course, two Gradall Excavators and three Wheel loaders to assist Construction and Maintenance with projects, six street sweepers for street sweeping operations, two Vactor Trucks and a Cues truck for Stormwater maintenance, and various HVAC Equipment purchases and installations at the RP Funding Center. Information about these leases are as follows:

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 8 - LEASES (continued)

### **B.** Lessee Leases

The City is a lessee in many non-cancellable leases in the form of equipment, vehicles, parking spaces, and buildings ranging from over one year to thirty years. An initial lease liability of \$3,027,470 was recorded on October 1, 2021 upon implementation of GASB 87 with net additions of \$1,391,563 and net reductions of \$482,717 during the year. Total payments made for the fiscal year ended September 30, 2022 amounted to \$525,395 inclusive of interest of \$28,935 at rates ranging from 0.2900% to 2.9507%. As of September 30, 2022, the values of the right-to-use assets and its accumulated amortization were \$7,262,574 and \$915,339 respectively. The difference between the lease liability and right-to-use assets is due to prepayment of \$2.5M lease consideration tor Summit Consulting at the commencement of parking/building lease. Also, the lease liability payable had a balance of \$3,921,416 as of September 30, 2022. The expected principal and interest payments to maturity is summarized in the tables below.

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 8 - LEASES (continued)

### C. Lessor Leases

The City is a lessor in many noncancellable leases of parking spaces, land space and land improvements, office spaces, cell tower spaces, fiber infrastructure, hangers, event spaces and buildings for term ranging from over one (1) year to seventy-five (75) years. An initial lease receivable of \$42,614,716 was recorded on October 1,2021, upon implementation of GASB 87 with additions of \$1,049,585 and reductions of \$2,512,533 during the year. Total payments received for fiscal year end September 30, 2022 amounted to \$13,692,347 inclusive of interest of \$669,313 at rates ranging from 0.2900% to 2.5382%%. The City recognized lease revenue of \$13,692,347. As of September 30, 2022, the value of the lease receivables and deferred inflow of resources are \$41,151,768 and \$245,100,826 respectively. The large difference between the lease receivable and deferred inflow of resources is due to prepayment of \$215 million lease consideration paid by Lakeland Regional Health and \$200,000 lease consideration paid by Joe G. Tedder Tax collector for Parking spaces.

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 8 - LEASES (continued)

### D. Variable Lease

City has some leases which were excluded from GASB 87 as the receipts from lease depended on future performance of gross sales or receipts. Those leases are considered as variable leases and are excluded from the measurement of lease receivables and deferred inflow of resources. The amount of variable rent recognized in fiscal year ending September 30, 2022, is \$83,698.

### E. Regulated Leases

City has many regulated leases belonging to Lakeland Linder Airport which were determined per GASB 87. Based on GASB 87, all leases that are aeronautical leases are considered to be regulated leases due to the regulatory obligations of the FAA and FDOT airport leases. An aeronautical use of an airport is any activity that involves, makes possible, or is required for the safety of or is otherwise directly related to the operation of an aircraft. This would include services provided by airlines related to movement of passengers, baggage, and cargo. In addition to commercial operations, private hangars or storage of aircraft would be excluded from GASB 87.

The following activities, commonly conducted on airports are aeronautical activities within this definition:

- Aircraft sales and services.
- Airframe, powerplant and accessory maintenance and repair services.
- Aircraft rental services.
- · Flight training services.
- · Aircraft charter and air taxi services.
- Avionics, instrument maintenance and repair services.
- Aerial applications (crop dusting, firefighting, etc.)
- · Aviation fuels and petroleum products sales.
- · Sale of aircraft parts.
- Sale, rental or sublease of aircraft hangar, parking, and tie-down space.
- · Air carrier operations.
- · Air freight or cargo operations.
- · Banner towing and aerial advertising.
- · Aircraft storage, hangar, tiedown, parking,
- Office and shop rental/subleasing.
- · Ground servicing of air carrier aircraft.
- · Aerial photography or survey.
- Aircraft washing and cleaning services (interior and exterior).
- Any other activities which because of their direct relationship to the operation or repair of aircraft can be appropriately regarded as aeronautical activities.

One of the Regulated leases-Hanger Lease leased to Foster's Aircraft Refinishing Inc for both fixed monthly payment and variable based on 13%-15% of gross sales as mentioned in lease agreement. Fixed monthly lease revenue will increase annually based on CPI which was included in revenue recognized in amount above. The variable portion of lease revenue recognized during FY 22 is \$35,024.

Total revenue recognized for regulated leases for fiscal year end September 30,2022 amounted to \$6,064,470. The Future Minimum Expected Receipts until Maturity are presented in the table below:

|             |    |               |  |  |  |

### NOTE 9 - DONOR RESTRICTED ENDOWMENTS

The City is the recipient of donor-restricted endowments used to finance maintenance of a mausoleum located at a City-owned cemetery, to finance maintenance of City-owned cemeteries, and to purchase reading materials for the City-owned library system. Total assets held by the City for these endowments equaled \$5,734,188 and total nonspendable fund balances were \$5,355,658 and total restricted fund balances were \$252,233 as of September 30, 2022. The dollar value of these assets experienced a net decrease of \$1,454,445 for the year ended September 30, 2022.

Funds are expended in accordance with the terms of the original endowments, which were established by City Ordinance. Expenditure of investment income and other appreciation is controlled by the City's Parks and Recreation Department, subject to the scrutiny of the City's Finance Department.

The net position is reported in the Government-wide Statement of Net Position under Governmental Activities as restricted for endowments – nonexpendable, and as a component of nonspendable fund balance of "Other Governmental Funds" within the Governmental Funds in the Fund Financial Statements.

### NOTES TO FINANCIAL STATEMENTS

### **SEPTEMBER 30, 2022**

### **NOTE 10 – RISK FINANCING ACTIVITIES**

The City has established a self-insurance fund for worker's compensation, general liability, automobile liability, prescriptions, and health insurance. Significant losses from other forms of risk, including property damage, are covered by commercial insurance. Settlements exceeded the cost of insurance coverage in Fiscal Year 2016-2017 as a result of the McIntosh Power Plant Unit 5 GSU Transformer claim. Settlements have not exceeded the cost of insurance coverage in Fiscal Years 2015-2016, 2017-2018, 2018-2019, 2019-2020, 2020-2021 nor 2021-2022.

At year-end, claim expense accounts and liabilities are adjusted in the health insurance and self-insurance reserves to accrue any changes in unpaid claims outstanding at year-end and the estimated liability for incurred but not reported claims (IBNR). The IBNR includes known and unknown loss events and expected future development on claims already reported.

The IBNR reserve for the self-insurance reserve portion of the fund is the actuarially determined funding requirement minus any unpaid claims outstanding at year-end (current liability). As of September 30, 2022, the current claims due within one year for the self-insurance reserve portion are \$5,907,633. The IBNR reserve for the health insurance reserve portion of the fund is actuarially determined, plus any unpaid claims outstanding at year-end (current liability). As of September 30, 2022, the claims due within one year for the health insurance reserve portion are \$2,063,116. City policy requires that all claims be submitted to the administrator within 90 days of the date of service. Claims received after that period will not be paid. However, any possible liability related to any such claims must be recognized. Expenses resulting from these claims could be incurred over subsequent periods.

The City has also purchased a stop-loss policy to reduce the City's exposure to large losses on health insurance claims. This policy reimburses the City for expenses related to claims exceeding \$435,000. As of September 30, 2022, the City paid \$977,023 in premiums for its stop-loss insurance policy and no amounts were deducted from claims liability.

All claims pending and a provision for incurred but not reported claims have been accrued in the financial statements of the self-insurance fund. A reconciliation of the change in the aggregate liabilities reported as liabilities payable from apportioned assets in the Basic Financial Statements of the self-insurance fund as of September 30, 2022 is as follows:

|                                       | 2022             | <br>2021         |
|---------------------------------------|------------------|------------------|
| Claims liability at beginning of year | \$<br>24,450,145 | \$<br>24,890,719 |
| Claims incurred during the year       | (36,527,423)     | (35,078,763)     |
| Changes in the estimate for claims    | 181,126          | 81,906           |
| Claims payments                       | 36,160,241       | 34,556,283       |
| Claims liability at end of year       | \$<br>24,264,089 | \$<br>24,450,145 |
| Amount due within one year            | _                | _                |
| Self insurance reserve                | \$<br>5,907,633  | \$<br>5,616,990  |
| Health insurance reserve              | 2,063,116        | <br>2,347,871    |
| Total amount due within one year      | \$<br>7,970,749  | \$<br>7,964,861  |

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 11 – UTILITY PLANT PARTICIPATION AGREEMENT

On April 4, 1978, the City entered into a fifty-year participation agreement with the Orlando Utilities Commission (OUC). Under the terms of this agreement, the City of Lakeland has a 60 percent interest and OUC a 40 percent interest in McIntosh Unit 3, a 365 MW coal-fired steam generating unit. The Orlando Utilities Commission constructed, at its expense, a 230 KV transmission line to deliver its share of the output to its service area.

The City of Lakeland issued revenue bonds to cover a portion of its initial investment in the plant. OUC also issued revenue bonds to cover a portion of its investment in the plant and the cost of its 230 KV transmission line. Each participant is solely responsible for its debt issued.

The City has operational control of this project and accounts for its undivided ownership interest based on its pro-rata share of the project's construction costs and operating expenses. Shared operating expenses and capital costs for the fiscal year ending September 30, 2022 were as follows:

|   |    | City Share                                |    | OUC Share                                 |    | Total                                      |
|---|----|---|----|---|----|--|
| Operating Costs:  McIntosh unit #3 fuel expense  McIntosh unit #3 direct operating & maintenance expenses  Other shared operating & administrative expenses | \$ | 4,062<br>1,763,922<br>76,894<br>1,844,878 | \$ | 2,708<br>1,175,948<br>51,263<br>1,229,919 | \$ | 6,770<br>2,939,870<br>128,157<br>3,074,797 |
|   | Ψ  | 1,044,070                                 | Ψ  | 1,229,919                                 | Ψ  | 3,014,191                                  |
| Capital Costs: McIntosh unit #3   | \$ | 84,617                                    | \$ | 56,411                                    | \$ | 141,028                                    |

There are no separate financial statements issued for the utility participation agreement.

Lakeland Electric, as part of its NextGen strategic plan for future generation needs, had made a decision in 2019 to mothball its generation asset, McIntosh Unit #3 - a coal-fired generator co-owned with Orlando Utilities Commission in fiscal year 2024. Economic factors such as inexpensive natural gas and increased maintenance costs on the generation unit led management to alter that decision. Lakeland Electric recommended to the Utility Committee in January 2021 to shutter the plant effective March 31, 2021. The Lakeland City Commission voted on January 19, 2021 to retire McIntosh Unit #3 effective March 31, 2021.

On April 4, 2021, McIntosh Unit #3 ceased operations and was retired.

### **NOTE 12 - FUND BALANCES**

Fund Balance – As defined by the Governmental Accounting, Auditing, and Financial Reporting of the Government Finance Officers Association, fund balance is "the difference between assets, deferred outflows, deferred inflows, and liabilities reported in a governmental fund." In accordance with GASB 54, the funds balances of governmental funds are classified as follows:

- Non-spendable Fund Balance Amounts that are (a) not in spendable form or (b) legally or contractually required to be maintained intact. This includes items that are not expected to be converted to cash, for example, inventories and prepaid amounts. It also includes the long-term amount of loans and notes receivable, as well as property acquired for resale.
- Restricted Fund Balance Amounts that are restricted for a specific purpose when constraints are (a) externally imposed by
  creditors (through debt covenants), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law
  through constitutional provisions or enabling legislation.
- Committed Fund Balance Amounts that can be used only for the specific purposes pursuant to constraints imposed by a formal action (ordinance) of the City Commission, the City's highest level of decision making authority.
- Assigned Fund Balance Spendable amounts established by Management of the City (i.e. City Manager or designee), per
  the City's expenditure and budgetary policy, intended to be used for specific purposes, but are neither restricted nor
  committed. Assigned fund balance includes (a) all remaining amounts (except for negative balances) that are reported in
  governmental funds (Debt Service, Capital Projects, and Special Revenue Funds), other than the general fund that are not
  classified as non-spendable and are neither restricted or committed and (b) amounts in the general fund intended to be used
  for a specific purpose.

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 12 - FUND BALANCES (continued)

Unassigned Fund Balance – The residual classification for the general fund. This classification represents fund balance that has
not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general
fund

### A. Non-Spendable Fund Balance

Non-Spendable fund balance as of September 30, 2022 is described below:

<u>Prepaids</u> – this represents the value of non-current resources of which the expenditures will be recognized in subsequent periods.

<u>Permanent Fund Principal</u> – this represents the principal amounts of permanent funds that are legally or contractually required to remain intact.

<u>Cemetery Endowment</u> – represents earnings set aside to fund maintenance of all city owned cemeteries after all lots are sold that are contractually required to remain intact.

### **B. Restricted Fund Balance**

Restricted fund balance as of September 30, 2022 is described below:

Restricted for CRA – this represents unexpended resources from property taxes within the Lakeland Community Redevelopment Districts used to finance redevelopment plans of the Agency for residential and commercial activities.

Restricted for Law Enforcement – this represents the value of contraband seized by the Lakeland Police Department. The use of which is restricted by state law.

Restricted for Impact Fee Programs – this represents resources from impact fee collections on new construction projects used to finance transportation, police, fire, and parks & recreation capital related expenditures pursuant to Article VIII of the Florida Constitution and Chapters 163 and 166, Florida Statutes to allocate the fair share of the cost of new public facilities to new users.

Restricted for Capital Improvement – this represents unexpended bond proceeds restricted for capital purposes.

<u>Restricted for Transportation</u> – this represents resources such as state and local gas taxes, developer contributions, grants, impact fees, and other revenues used to finance transportation construction and maintenance capital projects.

Restricted for Donations Received – this represents unexpended net position derived contributions and donations given to the City and spendable amounts of permanent funds legally or contractually maintained for specified purposes such as for the purchase of certain books and periodicals, maintenance of certain parks, and maintenance of the Scott Morris Mausoleum.

Restricted for Debt Service – this represents resources accumulated for and the payment of general long-term debt principal and interest.

<u>Restricted for Grant Programs - Community Development</u> – this represents unexpended net position derived from federal and state grant revenues used to finance housing related expenditures.

<u>Restricted for Grant Programs - Law Enforcement</u> - this represents unexpended net position derived from federal and state grant revenues used to finance law enforcement related expenditures.

<u>Restricted for Building Inspection</u> - this represents unexpended resources from building inspection fees collected used to finance building inspection expenses as defined by State Legislature.

### C. Committed Fund Balances

Committed fund balances in the Fund Financial Statements are as follows:

Stormwater – represents stormwater revenues used to finance stormwater related maintenance and capital expenditures.

Working Capital – represents revenues designated by the City Commission for long-term investments.

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 12 - FUND BALANCES (continued)

### D. Assigned Fund Balances

Assigned fund balances in the Fund Financial Statements are as follows:

<u>Subsequent Year's Expenditure</u> – represents the subsequent year's budget fund balance of the General Fund assigned by City Management as set forth in the annual budget (and any amendments thereto) to appropriate a portion of the existing unassigned fund balance to eliminate a projected deficit in the subsequent year's budget in an amount no greater than the projected excess of expected expenditures over expected revenues.

<u>Cultural Activities</u> – funds assigned by the City Commission to strengthen the cultural organizations of Lakeland; to make their programs more accessible to Lakeland citizens; and to enrich the lives of the citizens.

Capital Projects - funds assigned by the City Commission to finance various construction and maintenance capital projects.

Recreational Facilities – revenues assigned by the City Commission for the purpose of capital recreational expenditures.

<u>Debt Service</u> – revenues assigned by the City Commission for repayment of general long-term debt principal and interest.

### E. Unassigned Fund Balances

Unassigned fund balances in the Fund Financial Statements are as follows:

<u>General Fund</u> – represents the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund.

The governmental fund balance in detail as of September 30, 2022 is as follows:

|                                |                 | Public              | Other                 | Total                 |
|--------------------------------|-----------------|---------------------|-----------------------|-----------------------|
|                                | General<br>Fund | Improvement<br>Fund | Governmental<br>Funds | Governmental<br>Funds |
| Fund Balances:                 |                 |                     |                       |                       |
| Nonspendable:                  |                 |                     |                       |                       |
| Cemetery endowment             | \$ -            | \$ -                | \$ 5,326,182          | \$ 5,326,182          |
| Permanent fund principal       | -               | -                   | 29,476                | 29,476                |
| Prepaids                       | 1,088,275       | -                   | -                     | 1,088,275             |

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### **NOTE 13 – DEFINED BENEFIT PENSION PLANS**

The City maintains three separate single employer defined benefit pension plans for its employees. These plans were established by, and are subject to modifications in funding levels and benefits, by ordinance as approved by the City Commission. All three plans are subject to periodic review by an independent actuary. This review is used to determine the required funding level upon which the City bases its annual contributions to the Employees' Pension and Retirement System, the Police Officers' Defined Benefit Retirement System, and the Firefighters' Retirement System.

The City obtains annual reviews from independent actuaries. Each year, the actuary completes a review utilizing census data covering both retired and active members of each plan and balance sheet data regarding net position of the plan based on an effective date of October 1 of the year just ended. Those reports are generally issued within 6 months of the end of the fiscal year. Any changes in the funding requirements as identified in each actuarial review are applied to the City's budget year commencing immediately after the report issuance. The funding requirements for FY22 were based off the actuarial report with an effective date of October 1, 2020.

The City of Lakeland implemented GASB Statement 68 in 2015. With the new reporting change, the City recognizes the net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense associated with each plan. Decisions regarding the allocations are made by the administrators of the pension plans, not by the City of Lakeland's management. For more information, pertaining to the Plans, refer to the City of Lakeland, Florida stand-alone financial statements for each plan, which can be obtained by contacting the City of Lakeland, Finance Department, City Hall, 228 S. Massachusetts Ave., Lakeland, FL 33801-5086.

On-behalf Payments - Within the basic financial statements, the proceeds of the excise tax from the State of Florida in The City of Lakeland Firefighters' Retirement System and the Police Officers' Defined Benefit Retirement System are recorded as operating grants and contributions and public safety expenses in the amounts of \$964,435 and \$1,175,145 respectively in the Government-wide Statement of Activities.

For the fiscal year ended September 30, 2022, the City recognized an aggregate pension expense of \$(24,484,213).

### A. Employees' Pension and Retirement System

### Summary of Significant Accounting Principles

For purposes of measuring the net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions, pension expenses, information about the fiduciary net position of the City of Lakeland's Employees' Pension and Retirement System, and additions to/deductions from the Employees' Pension and Retirement System's fiduciary net position have been determined on the same basis as that are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

The Plan is maintained using the accrual basis of accounting. Employee and employer contributions are recognized as revenue in the period in which the employee services are performed. Expenses are recognized when they are incurred and revenues are recognized when they are earned. Benefits and refunds are recognized when due and payable in accordance with plan terms. Accounting Principles Generally Accepted in the United States of America require management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results can differ from those estimates. Investments are recorded at fair value. Dividends and interest are recognized when earned. Realized gains and losses are recognized as of trade date.

### Plan Description

The City of Lakeland Employees' Pension and Retirement System administers the City of Lakeland Employees' Pension Plan – a single employer defined benefit pension plan that provides pension benefits for all full-time, regular employees of the City. The authority for the establishment and amendment of the Plan, benefits, vesting, and contributions are established by City Ordinances. Government plans are not subject to the provisions of the Employee's Retirement Income Security Act of 1974 (ERISA). Management of the plan is vested in the Employees' Pension Board, which is comprised of seven active members serving staggered three-year terms; three of which are elected by plan members, three appointed by the City Commission and one appointed by the board.

This Plan is a pension trust fund (fiduciary fund type) of the City that contains three pension plan options (Plans A, B, and C). Each plan option is part of a single employer, defined benefit pension plan offered by the City with a defined contribution option available to certain eligible employees. Plan A is eligible to employees of the City hired prior to October 1, 2003. Plan B is eligible to employees hired on or after October 1, 2003 through February 15, 2012. Plan C is eligible to employees hired after December 29, 2011 or who have made an irrevocable election to convert their prospective benefit calculation to Plan C as of February 15, 2012. The defined contribution option allows certain eligible employees to cease participation in this Plan and begin participation in the City's defined contribution plan.

### **SEPTEMBER 30, 2022**

### **NOTE 13 - DEFINED BENEFIT PENSION PLANS (continued)**

### A. Employees' Pension and Retirement System (continued)

Pension plan membership for the Plan as of the actuarial valuation date October 1, 2020 is shown in the following table.

| Active plan members            | 1,390 |
|--------------------------------|-------|
| Retirees and beneficiaries     | 1,232 |
| DROP Participants              | 181   |
| Terminated vested plan members | 119   |
| Transferred Members            | 10    |
|                                | 2,932 |
|                                |       |

### Deferred Retirement Option Plan (DROP)

A Deferred Retirement Option Plan (DROP) was enacted on December 19, 2009 by Ordinance 4727. Under this Plan, participants who have attained eligibility may continue working with the city for up to sixty months while receiving a retirement benefit that is deposited into a DROP account. At October 1, 2020, there were 181 DROP participants.

### Cost of Living Adjustment

No cost of living increase was awarded for fiscal year 2022.

### Funding Policy, Contributions Required, and Contributions Made

As a result of the renegotiation of the lease agreement between the hospital and the City, the City received a one-time \$15 million payment from LRH, effective October 1, 2015. The purpose of the payment was to compensate the City for agreeing to cap the growth in the hospital's lease payments for the next 25 years. The City Commission expressed an interest in investing the one-time payment on a long-term basis so that a significant amount would accrue by the time the lease needs to be renegotiated in 25 years. In lieu of creating a new investment fund, the Commission approved an alternative plan per Resolution No. 5242 whereby the \$15 million was sent to the Employee Pension Fund as an advance payment against the employer's share of the unfunded pension liability. In return for this advance payment, the City (as the employer) will receive an annual credit of \$1,546,989 against its regular payment into the fund. This credit will be consistent with the current amortization schedule and methodology for the Fund's unfunded liability. The budgetary savings from this reduced annual payment are channeled into a separate investment fund so that the City can recoup its initial payment, plus interest.

The alternative plan will NOT affect employee contribution rates into the pension fund. They will remain unchanged. The alternative plan can be thought of as paying off a mortgage or a credit card balance early. Once the obligation is paid off, the monthly payments (which include interest) no longer have to be made. The monthly savings can then be put in a savings account for the future.

In FY20 the City issued a Pension Liability Reduction Note in the amount of \$81 million and contributed \$57.7 million of the proceeds to the plan as advance payment against the employer's and employee's unfunded share of the unfunded pension liability. In return for this advance payment, the City (as the employer) and the employees will receive an annual credit against the regular payment.

The City obtains an annual review by an independent actuary utilizing census data covering both retired and active plan members and balance sheet data regarding net position of the Plan based on an effective date of October 1 with the report being issued within 6 months of the fiscal year. This review is used to determine the required funding level upon which the City bases its annual contribution to the Employees' Pension and Retirement System for the budget year commencing after the issuance of that report. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. The contribution rate for FY22 was calculated as follows:

| 19.33%  |
|---------|
| (0.27)% |
| (0.89)% |
| (0.09)% |
| 0.45%   |
| 0.26%   |
| (0.11)% |
| 18.68%  |
|         |

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### **NOTE 13 - DEFINED BENEFIT PENSION PLANS (continued)**

### A. Employees' Pension and Retirement System (continued)

Funding Policy, Contributions Required, and Contributions Made (continued)

In a revised actuarial report completed for the Employees' Retirement System in March 2022, system asset values were reset to their full market values as of 9/30/2021. Including the full recognition of the proceeds from the pension notes that were deposited into the fund. Pursuant to Resolution No. 5745, the remaining credit balance of \$50,661,662 was added to the asset value as of September 30, 2021. The credit balance related to the pension notes was eliminated for FY2022 and thereafter. Contribution rates (for FY2022 and FY2023) for both the employer and employees were recalculated, resulting in net savings for both parties.

The expected and blended contribution rates per Resolution No. 5745 for the fiscal year ending September 30, 2022 are presented in the table below.

|                              | Expected Actual Contribution Rates |                              |       |  |  |  |
|------------------------------|------------------------------------|------------------------------|-------|--|--|--|
|                              | 10/1/2021 to                       | Blended Rates for the Fiscal |       |  |  |  |
|                              | 2/26/2022                          | 2/27/2022 to<br>9/30/2022    | Year  |  |  |  |
| Employer Contribution Rate   | 10.88%                             | 7.31%                        | 8.80% |  |  |  |
| Employee Contribution Rates: |                                    |                              |       |  |  |  |
| Plan A/B                     | 10.19%                             | 7.83%                        | 8.81% |  |  |  |
| Plan C                       | 5.44%                              | 3.08%                        | 4.06% |  |  |  |

A similar process and result was employed by the Police Officers Pension System. The Firefighters' Pension System did not make the aforementioned change.

The contributions developed are calculated based on payments to the Plan at the end of each biweekly pay period. For the fiscal year ending September 30, 2022, the amount contributed by the City plus \$1,546,989 for the application of the credit balance must equal at least 8.04% of covered payroll. For the year ended September 30, 2021, the City contributed \$6,393,795 and the employees contributed \$4,894,277, including buybacks.

### Net Pension Liability

The City's actuarial valuation date is October 1, 2020 rolled forward to September 30, 2021 and net pension liability was measured as of September 30, 2021.

Actuarial assumptions. The total pension liability in the October 1, 2020 actuarial evaluation rolled-forward to September 30, 2021 was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Investment rate of return 7.25%

Salary increases 4.0% to 12.50% depending on service, including inflation

Inflation rate 2.50%
Post-retirement benefit increases N/A
Retirement rate (1)

Mortality table PUB-2010 Headcount Weighted General Below Median Employee

Table (for pre-retirement mortality) and the PUB-2010 Headcount Weighted General Below Median Table (post-retirement mortality), with mortality improvements projected to all future years using

scale MP-2018. (2)

(1) Experienced-based table of rates that are specific to the type of eligibility condition.

(2) The mortality table and improvement scales were changed to the mortality assumption used by the Florida Retirement System (FRS) for Regular Class members in the FRS actuarial valuation report as of July 1, 2020, as mandated by Chapter 112.63, Florida Statutues.

### NOTES TO FINANCIAL STATEMENTS

### **SEPTEMBER 30, 2022**

### **NOTE 13 - DEFINED BENEFIT PENSION PLANS (continued)**

### A. Employees' Pension and Retirement System (continued)

### Net Pension Liability (continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The projected long-term real rate of return for the Plan net of investment expenses is 6.025%. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of measurement date September 30, 2022 (see the discussion of the pension plan's investment policy) are summarized in the following table as required by GASB 67 and 68:

|                             |                   | Long-term<br>Expected | Asset Group  |
|-----------------------------|-------------------|-----------------------|--------------|
| Asset Class (Fair<br>Value) | Target Allocation | Real Rate of Return   | Contribution |
| Domestic Equity             | 47.50%            | 7.50%                 | 3.563%       |
| International Equity        | 15.00%            | 8.50%                 | 1.275%       |
| Domestic Bonds              | 25.00%            | 2.50%                 | 0.625%       |
| Real Estate                 | 12.50%            | 4.50%                 | 0.563%       |
| Total Investments           | 100.00%           |                       | 6.025%       |

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that the plan members' contributions will be made at the current contribution rate and the City contributions will be made at the rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments (7.25%) was applied to all periods of projected benefit payments to determine the total pension liability.

### Changes in the Net Pension Liability (Asset)

|  | Increase (Decrease) |               |              |                    |           |                 |  |

|   | Rate (6.25%) | Rate (7.25%)       | Rate (8.25%)        |
|   |              |                    |                     |
| City's net pension liability (asset) \$ | 2,354,717    | \$<br>(73,677,096) | \$<br>(137,811,533) |

### Changes in Assumptions

There was a change made to the mortaligy assumption. Florida Statutes Chapter 112.63(1)(f) mandates the use of the same mortality tables used by the Florida Retirement System (FRS) in either of its two most recently published actuarial valuation reports.

### Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued Employee's Pension and Retirement System financial report.

### Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the fiscal year ended September 30, 2022, the City recognized pension expenses of \$(20,874,523) At September 30, 2022, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|   | -  | Deferred<br>Outflows of<br>Resources | Deferred<br>Inflows of<br>Resources |                         |  |
|---|----|--------------------------------------|-------------------------------------|-------------------------|--|
| Difference between actual and expected experience<br>Net Difference between projected and actual earnings | \$ | 705,124                              | \$                                  | 1,839,998<br>92,095,986 |  |
| Changes of Assumptions  |    | _                                    |                                     | 10,661,323              |  |
| Cost Share Change   |    | 2,034,313                            |                                     | 2,034,312               |  |
| Contributions Subsequent to the Measurement Date  |    | 6,393,795                            |                                     |                         |  |
| Total   | \$ | 9,133,232                            | \$                                  | 106,631,619             |  |

\$6,393,795 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date of the net pension liability but before the end of the current fiscal year will be recognized as a reduction of the net pension liability in the year ending September 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

|                              | <br>Total  |
|------------------------------|--|
| 2022<br>2023<br>2024<br>2025 | \$<br>(26,206,775)<br>(23,523,190)<br>(29,100,941)<br>(25,061,276) |
|                              | \$<br>(103,892,182)  |

### Payable to the Pension Plan

At September 30, 2022, the City reported a payable of \$456,240 for the outstanding amount of contributions to the pension plan required for the year ended September 30, 2022.

### NOTES TO FINANCIAL STATEMENTS

### **SEPTEMBER 30, 2022**

### NOTE 13 – DEFINED BENEFIT PENSION PLANS (continued)

### B. Police Officers' Defined Benefit Retirement System

### Summary of Significant Accounting Principles

For purposes of measuring the net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions, pension expenses, information about the fiduciary net position of the City of Lakeland's Police Officers' Defined Benefit Retirement System, and additions to/deductions from the Police Officers' Defined Benefit Retirement System's fiduciary net position have been determined on the same basis as that reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

The accrual basis of accounting is used for the Plan. Under the accrual basis of accounting, revenues are recognized when they are earned and collection is reasonably assured, and expenses are recognized when the liability is incurred. Plan participant contributions are recognized in the period in which the contributions are due. City contributions to the plan as calculated by the Plan's actuary, are recognized as revenue when due and the City has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Investments in common stock and bonds traded on a national securities exchange are valued at the last reported sales price on the last business day of the year; securities traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the mean between the past reported bid and asked prices; investments in securities not having an established market value are valued at fair value as determined by the Board of Trustees. The fair value of an investment is the amount that the Plan could reasonably expect to receive for it in an orderly transaction between market participants at the measurement date. Purchases and sales of investments are recorded on a trade date basis.

Investment income is recognized on the accrual basis as earned. Unrealized appreciation in fair value of investments includes the difference between cost and fair value of investments held. The net realized and unrealized investment appreciation or depreciation for the year is reflected in the Statement of Changes in Fiduciary Net Position.

### Plan Description

The Plan is a defined benefit pension plan covering all full-time police officers of the City of Lakeland as established by local law subject to the provisions of Chapter 185 of the State of Florida Statutes. Participation in the Plan is required as a condition of employment. The Plan provides for pension, death, and disability benefits.

The Plan, in accordance with the above statutes, is governed by a five-member pension board. Two police officers who are elected by a majority of the members of the Plan, two City residents, and a fifth member elected by the other four members constitute the pension board. The City and the Plan participants are obligated to fund all Plan costs based upon actuarial valuations. The City is authorized to establish benefit levels and the Board of Trustees approves the actuarial assumptions used in the determination of contribution levels.

On June 1, 2009 the Lakeland City Commission adopted ordinances 5096 and 5095 - which removed all active and retired police officers from the City of Lakeland Employee Pension Plan (the General Plan) and transferred those individuals to an amended version of the Police Officers' Supplemental Pension and Retirement System (the Supplemental Plan) - which had the effect of creating an entirely new replacement plan called the Police Officers' Retirement System (the Police Plan).

Under the terms of this change, all retired police officers and/or their beneficiaries who were receiving benefits from the General Plan and/or the Supplemental Plan as of the effective date of the transfer would from that point forward be paid the exact same level of combined benefits from the Police Plan. All future retired police officers and/or their beneficiaries will receive their retirement benefits exclusively from the Police Plan based on a new defined benefit calculation formula that replaces the benefit formulas that previously existed within the General Plan and the Supplemental Plan.

Three Tier Structure - The current members of the plan have the option of making an election of one of the following 3 tiers within 45 days of the effective date of the Police Plan. Tier 2 is the only option for officers hired after May 20, 2009.

Tier 1 - these members shall have benefits accrued under the provisions of the City of Lakeland Employees' Pension and Retirement System, the City of Lakeland Police Officers' Supplemental Pension and Retirement System (PORF) and the Lakeland Police Officers' Share Benefit Plan frozen as of the effective date of the Police Plan. On and after the effective date of the system, Tier 1 members shall be subject to the same provisions as Tier 2 members except as otherwise provided. These members shall be eligible to have benefits accrued in the PORF included in the City of Lakeland Employees' Pension and Retirement System Section 23.4.5 DROP upon attainment of age sixty (60).

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 13 – DEFINED BENEFIT PENSION PLANS (continued)

### B. Police Officers' Defined Benefit Retirement System (continued)

### Plan Description (continued)

Tier 2 - these members shall be subject to the provisions of the City of Lakeland Police Officers' Retirement System not including those administered pursuant to other City of Lakeland Plans or Systems for Tier 1 or Tier 3 members.

Tier 3 – these members who are DROP participants pursuant to Section 23.4.5 of the City of Lakeland Employees' Pension and Retirement System and making contributions to the City of Lakeland police Officers' Supplemental Pension and Retirement System (PORF) which contributions shall continue after the effective date of the City of Lakeland Police Officers' Retirement System in an amount calculated annually by the system's actuary and shall be administered pursuant to the provisions of those systems. These members shall be eligible to have benefits accrued in the PORF included in the Section 23.4.5 DROP upon attainment of age sixty (60).

Pension plan membership for the Plan as of the actuary report dated October 1, 2020 is shown in the following table.

| Active plan members            | 218 |
|--------------------------------|-----|
| Retirees and beneficiaries     | 229 |
| DROP Participants              | 18  |
| Terminated vested plan members | 24  |
|                                | 489 |
|                                |     |

### Deferred Retirement Option Plan (DROP)

Any participant who is eligible to receive a normal retirement pension benefit may elect to participate in a deferred retirement option plan (DROP) while continuing his or her active employment as a police officer. Upon participation in the DROP, the participant becomes a retiree for all plan purposes so that he or she ceases to accrue any further benefits under the pension plan. Normal retirement payments that would have been payable to the participant as a result of retirement are accumulated and invested in the DROP to be distributed to the participant upon his or her termination of employment. Participation in the DROP ceases for a member after the 60 months. At October 1, 2020, there were 18 DROP participants.

### Post Retirement Investment Account (PRIA)

During fiscal year ended September 30, 2017, the PRIA was established. In lieu of receiving a payment from the DROP Plan, a retiree terminating his employment as a police officer may elect to defer receipt of DROP Plan payments and elect to participate in the PRIA. A retiree who elects to participate in the PRIA may participate in the PRIA for sixty months after separation from service or the end of the quarter in which the retiree reaches age sixty-five.

### Partial Lump Sum Option Plan (PLOP)

A participant that does not elect to participate in the DROP may elect to receive an initial lump-sum payment equal to 5%, 10%, 15% or 20% of the participant's accrued benefit with the remaining 95%, 90%, 85% or 80%, respectively, payable in a form selected by the participant.

### Cost of Living Adjustment

No cost of living increase was awarded for fiscal year 2022.

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 13 - DEFINED BENEFIT PENSION PLANS (continued)

### B. Police Officers' Defined Benefit Retirement System (continued)

### Funding Policy, Contributions Required, and Contributions Made

The Tier 2 participant contribution rate is re-determined each year, such that the increase in the City's required contribution and the participant's required contribution are equal. The required participant's contribution rate for Tier 2 was 16.53% of salary for the period of October 1, 2020 through September 30, 2021.

Pursuant to Chapter 185 of the Florida Statutes, a premium tax on certain casualty insurance contracts written on City of Lakeland properties is collected by the State and is remitted to the Plan. The City is required to contribute the remaining amounts necessary to finance the benefits through periodic contributions of actuarially determined amounts.

The Fund may also accept rollover contributions from participants' other qualified deferred compensation plans. Rollover contributions may be used to purchase additional credited service. Participants are immediately vested in rollover contributions.

A rehired member may buy back not more than 5 years of continuous past service by paying into the Plan the amount of contributions that the participant would otherwise have paid for such continuous past service, plus the interest that would have been earned had such funds been invested by the Plan during that time.

The City's funding policy is to make an actuarially computed annual contribution to the Plan in an amount, such that when combined with participants' contributions and the State insurance excise tax rebate, all participants' benefits will be fully provided for by the time that they retire.

The City's actuarially determined contribution rate for the year ended September 30, 2022 was 14.95%.

For the year ended September 30, 2022, the City contributed \$2,240,500 and the employees contributed \$2,398,739.

### Net Pension Liability (Asset)

The City's actuarial valuation date is October 1, 2020 rolled forward to September 30, 2021 and net pension liability was measured as of September 30, 2021.

Actuarial assumptions. The total pension liability in the October 1, 2020 actuarial evaluation rolled-forward to September 30, 2021 was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Investment rate of return 7.35%
Salary increases Service based
Inflation rate 2.50%

### NOTES TO FINANCIAL STATEMENTS

### **SEPTEMBER 30, 2022**

### NOTE 13 – DEFINED BENEFIT PENSION PLANS (continued)

### B. Police Officers' Defined Benefit Retirement System (continued)

### Net Pension Liability (Asset) (continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of geometric real rates of return for each major asset class included in the Pension Plan's target asset allocation as of measurement date September 30, 2021 are summarized in the following table:

|                           |                   | Long-term Expected Real |
|---------------------------|-------------------|-------------------------|
| Asset Class (Fair Value)  | Target Allocation | Rate of Return          |
| Domestic equity           | 40.00%            | 7.50%                   |
| International equity      | 17.50%            | 8.50%                   |
| Broad market fixed income | 12.50%            | 2.50%                   |
| Real estate               | 10.00%            | 4.50%                   |
| Private equity            | 10.00%            | 8.50%                   |
| Alternative               | 10.00%            | 6.78%                   |
| TOTAL                     | 100.00%           | _                       |
| <u> </u>                  |                   | _                       |

The discount rate used to measure the total pension liability was 7.35%. The projection of cash flows used to determine the discount rate assumed that the plan members' contributions will be made at the current contribution rate and the City contributions will be made at the rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments (7.35%) was applied to all periods of projected benefit payments to determine the total pension liability.

### Changes in the Net Pension Liability (Asset)

|   | Increase (Decrease) |               |                    |              |             | _               |
|---|---------------------|---------------|--------------------|--------------|-------------|-----------------|
|   | Total Pension       |               | Plan Fiduciary Net |              | Net Pension |                 |

### Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the City, calculated using the discount rate of 7.35%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.35%) or 1-percentage point higher (8.35%) than the current rate.

| _                                    | Decrease     |         | Discount     |              | Increase     |              |  |
|--------------------------------------|--------------|---------|--------------|--------------|--------------|--------------|--|
|                                      | Rate (6.35%) |         | Rate (7.35%) |              | Rate (8.35%) |              |  |
| City's net pension liability (asset) | \$ 4,9       | 910,559 | \$           | (13,684,987) | \$           | (28,577,627) |  |

### Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued Police Officers' Benefit Retirement System financial report.

### Changes in Assumptions

For measurement date 09/30/2021, amounts reported as changes of assumptions resulted from lowering the interest rate from 7.50% to 7.35% per year compounded annually, net of investment related expenses.

### Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the fiscal year ended September 30, 2022, the City recognized pension expenses of \$(3,860,249). At September 30, 2022, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|  | Deferred<br>Outflows of<br>Resources |   | Deferred<br>Inflows of<br>Resources |  |
|--|--------------------------------------|---|-------------------------------------|--|
| Contributions subsequent to measurement date Difference between actual and expected experience Changes of assumptions Net difference between projected and actual earnings Total | \$                                   | 3,415,645<br>279,557<br>1,969,185<br>-<br>5,664,387 | \$                                  | 625,630<br>963,946<br>21,932,455<br>23,522,031 |
|  |                                      |   |                                     | <u> </u>                                       |

\$3,415,645 reported as deferred outflows of resources related to pensions resulting from City and State contributions subsequent to the measurement date of the net pension liability but before the end of the current fiscal year will be recognized as a reduction of the net pension liability in the year ending September 30, 2022. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Fiscal year ended September 30th: |                    |
|-----------------------------------|--------------------|
| 2023                              | \$<br>(5,227,175)  |
| 2024                              | (5,374,508)        |
| 2025                              | (6,246,078)        |
| 2026                              | (4,425,528)        |
|                                   | \$<br>(21,273,289) |

### Payable to the Pension Plan

At September 30, 2022, the City reported a payable of \$157,535 for the outstanding amount of contributions to the pension plan required for the year ended September 30, 2022.

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### **NOTE 13 - DEFERRED BENEFIT PENSION PLANS (continued)**

### C. Firefighters' Retirement System

### Summary of Significant Accounting Principles

For purposes of measuring the net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions, pension expenses, information about the fiduciary net position of the City of Lakeland's Firefighters' Retirement System, and additions to/deductions from the Firefighters' Retirement System's fiduciary net position have been determined on the same basis as that reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms

Basis of accounting is the method by which revenues and expenses are recognized in the accounts and are reported in the financial statements. The accrual basis of accounting is used for the Plan. Under the accrual basis of accounting, revenues are recognized when they are earned and collection is reasonably assured, and expenses are recognized when the liability is incurred. Plan member contributions are recognized in the period in which the contributions are due. City contributions to the plan as calculated by the Plan's actuary, are recognized as revenue when due and the City has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Investments in common stock and bonds traded on a national securities exchange are valued at the last reported sales price on the last business day of the year; securities traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the mean between the past reported bid and asked prices; investments in securities not having an established value are valued at fair value as determined by the Board of Trustees. The fair value of an investment is the amount that the Plan could reasonably expect to receive for it in a current sale between a willing buyer and a willing seller, other than in a forced or liquidation sale. Purchases and sales of investments are recorded on a trade date basis.

Investment income is recognized on the accrual basis as earned. Unrealized appreciation in fair value of investments includes the difference between cost and fair value of investments held. The net realized and unrealized investment appreciation or depreciation for the year is reflected in the Statement of Changes in Fiduciary Net Position.

### Plan Description

The Plan is a pension trust fund (fiduciary fund type) of the City which accounts for the single employer defined benefit pension plan for all City Firefighters. The provisions of the Plan provide for retirement, disabilitt, and survivor benefits.

On November 19, 2012 the Lakeland City Commission adopted ordinance 5341 - which removed all active and retired firefighters from the City of Lakeland Employee Pension Plan (the General Plan) and transferred those individuals to an amended version of the Firefighters' Supplemental Pension Plan (the Supplemental Plan) - which had the effect of creating an entirely new replacement plan called the Firefighters' Retirement System (the Fire Plan).

Under the terms of this change, all retired firefighters and/or their beneficiaries who were receiving benefits from the General Plan and/or the Supplemental Plan as of the effective date of the transfer would from that point forward be paid the exact same level of combined benefits from the Fire Plan. All future retired firefighters and/or their beneficiaries will receive their retirement benefits exclusively from the Fire Plan based on a new defined benefit calculation formula that replaces the benefit formulas that previously existed within the General Plan and the Supplemental Plan.

In conjunction with the change, certain assets and liabilities of the General Plan were transferred to the Fire Plan. The value of the assets transferred was based on the relative percentage of the actuarial accrued liability (EAN method) payable from the General Plan that was determined to be attributable to both active and retired firefighters as of September 30, 2012.

The restructured Plan is a defined benefit pension plan covering all full-time firefighters of the City of Lakeland, Florida (City). Participation in the Plan is required as a condition of employment. The Plan provides for pension, death and disability benefits. In addition, the Plan is a local law plan subject to provisions of Chapter 175 of the State of Florida Statutes.

The Plan, in accordance with the above statutes, is governed by a five-member pension board. Two firefighters who are elected by a majority of the members of the Plan, two are City residents, and a fifth member elected by the other four members constitute the pension board. The City and the Plan participants are obligated to fund all Plan costs based upon actuarial valuations. The City is authorized to establish benefit levels and the Board of Trustees approves the actuarial assumptions used in the determination of contribution levels.

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### NOTE 13 - DEFERRED BENEFIT PENSION PLANS (continued)

### C. Firefighters' Retirement System

### Plan Description (continued)

Pension Benefits - The pension plan provides retirement, death and disability benefits for its participants. A participant may retire early after reaching age 50 and accumulating 10 or more years of credited service; normal retirement age is 55 and completing 10 years of credited service or after reaching age 52 with 25 years of credited service.

The amount of the normal retirement benefit is as follows:

A member who began employment as a firefighter prior to October 1, 2003 and retires on or after the normal retirement date shall receive a monthly benefit of 3.30 percent of average final compensation for each year of credited service. A member who began employment as a firefighter on or after October 1, 2003 and retires on or after the normal retirement date shall receive a monthly benefit of 3.0 percent of average final compensation for each year of credited service. The monthly benefit shall commence on the first day of the month coincident with or next following a member's retirement and be continued thereafter during the member's lifetime, ceasing upon death, but with 120 monthly payments guaranteed in any event.

Disability Benefits - A member having 10 or more years of credited service or a member who becomes totally and permanently disabled in the line of duty regardless of length of service, may retire from the City if the member becomes totally and permanently disabled as defined in subsection (b) by reason of any cause other than a cause set out in subsection at on or after the effective date of the plan. Such retirement shall herein be referred to as "disability retirement." The applicable disability presumptions in Florida Statutes 112 and 175, in effect at the time of disability shall apply.

Death Benefits - If the participant dies prior to retirement the beneficiary shall receive the following benefit:

- (1) Prior to Vesting. The beneficiary of a deceased member who was not yet vested, or who has no surviving spouse, shall receive a refund of 100% of the member's accumulated contributions, without interest.
- (2) Deceased Firefighters with Ten or More Years Credited Service. For any actively employed member who has ten or more years of credited service as of his date of death, his or her beneficiary is entitled to the benefits otherwise payable to the member at early or normal retirement age.

Pension plan membership for the Plan as of the actuary report dated October 1, 2020 is shown in the following table.

| Active plan members            | 159 |
|--------------------------------|-----|
| Retirees and beneficiaries     | 118 |
| DROP participants              | 10  |
| Terminated vested plan members | 11  |
|                                | 298 |
|                                |     |

### Deferred Retirement Option Plan (DROP)

Any eligible participant may elect to participate in a deferred retirement option plan (DROP) while continuing his or her active employment as a firefighter. Upon participation in the DROP, the participant becomes a retiree for all plan purposes so that he or she ceases to accrue any further benefits under the pension plan. Normal retirement payments that would have been payable to the participant as a result of retirement are accumulated and invested in the DROP to be distributed to the participant upon his or her termination of employment. An eligible member may participate in DROP for a maximum of sixty months or any time before and must provide a thirty-day advance notice.

### **Back DROP**

An eligible member may elect the Back-DROP option and must immediately retire and terminate city employment, and is not eligible to participate in DROP or PLOP. Under this option, a member receives a lump sum amount equal to up to sixty months of retirement benefits plus interest at a rate of 3% per annum, upon entry into the DROP, deposited into the DROP account. The member's monthly benefit is actuarially reduced to reflect the actuarial cost to the system of the lump sum amount. The monthly pension benefit is calculated based on the benefit levels in place on the date the member first became eligible for DROP.

### **NOTES TO FINANCIAL STATEMENTS**

### **SEPTEMBER 30, 2022**

### **NOTE 13 - DEFERRED BENEFIT PENSION PLANS (continued)**

### C. Firefighters' Retirement System

### Plan Description (continued)

### Partial Lump Sum (PLOP)

A member with twenty-five (25) or more years of credited service who is eligible for normal or early retirement may, at the time of retirement or entry into DROP, elect to receive or have deposited into the member's DROP account, up to a maximum of twenty percent (20%) in five percent increments, of the total actuarial equivalent value of the member's accrued benefit paid as a lump sum, with the remaining percentage paid in a monthly amount in accordance with the option selected by the member. The benefit amount of the member who has attained age 50 but is not eligible for normal retirement upon electing a partial lump sum option shall be reduced in accordance with the terms of the Plan. The benefit amount of a member who elects a partial lump sum option prior to age 50 shall be actuarially reduced to reflect the actuarial cost to the system of the partial lump sum option.

### Cost of Living Adjustment

No cost of living increase was awarded for fiscal year 2022.

### Funding Policy, Contributions Required, and Contributions Made

As of September 30, 2022 participants were required to contribute 9.41% of their annual earnings to the Plan. The exception is for members that were already participating in the Employees Plan DROP Plan.

Prior to October 1, 1995, contributions to the Plan were made on an after-tax basis. Subsequent to this date, contributions are made on a pre-tax basis pursuant to an amendment to the Plan terms. These contributions are designated as employee contributions under Section 414(h)(2) of the Internal Revenue Code. Contribution requirements of the Plan's participants are established and may be amended by the City of Lakeland, Florida.

The City's funding policy is to make actuarially computed monthly contributions to the Plan in amounts, such that when combined with participants' contributions and the State insurance excise tax rebate, all participants' benefits will be fully provided for by the time that they retire.

Actuarially determined contribution rates are calculated as of October 1, two years prior to the end of the fiscal year in which contributions are reported.

The City's actuarially determined contribution rate for the year ended September 30, 2022 was 20.35%. For the year ended September 30, 2022, the City contributed \$1,774,003 and the employees contributed \$1,207,662.

### Net Pension Liability (Asset)

Mortality table

The City's net pension liability was measured as of September 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial assumptions. The total pension liability in the October 1, 2020 actuarial evaluation updated to September 30, 2021 was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Investment rate of return 7.00%
Salary increases Age based
Inflation rate 2.50%

Active employees Female: PubS.H-2010 for employees, set forward one year. Scale MP-2018.

Male: PubS.H-2010 for employees, set forward one year. Scale MP-2018.

Retired pensioners Female: PubS.H-2010 for Healthy Retirees, set forward one year. Scale MP-2018.

Male: PubS.H-2010 for Healthy Retirees, set forward one year. Scale MP-2018.

Beneficiaries Female: PubG.H-2010 for Healthy Retirees. Scale MP-2018.

Male: PubG.H-2010 for Healthy Retirees, set back one year. Scale MP-2018.

Disabled pensioners 80% PubG.H-2010 for Disabled Retirees / 20% PubS.H-2010 for Disable Retirees. Scale

MP-2018.

## **NOTES TO FINANCIAL STATEMENTS**

## **SEPTEMBER 30, 2022**

## **NOTE 13 – DEFINED BENEFIT PENSION PLANS (continued)**

## C. Firefighters' Retirement System (continued)

## Net Pension Liability (Asset) (continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of measurement date September 30, 2021 are summarized in the following table:

|                          |                   | Long-term      |
|--------------------------|-------------------|----------------|
|                          |                   | Expected Real  |
| Asset Class (Fair Value) | Target Allocation | Rate of Return |
| Domestic Equity          | 45.00%            | 7.50%          |
| International Equity     | 15.00%            | 8.50%          |
| Broad market fixed       |                   |                |
| income                   | 20.00%            | 2.50%          |
| Private equity           | 5.00%             | 8.50%          |
| Real Estate              | 5.00%             | 4.50%          |
| Alternative              | 10.00%            | 6.42%          |
| TOTAL                    | 100.00%           |                |
| <del>-</del>             |                   |                |

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that sponsor contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

## NOTES TO FINANCIAL STATEMENTS

## **SEPTEMBER 30, 2022**

## NOTE 13 - DEFINED BENEFIT PENSION PLANS (continued)

## C. Firefighters' Retirement System (continued)

## Changes in Assumptions

For measurement date 09/30/2021, amounts reported as changes of assumptions resulted from lowering the investment return from 7.35% to 7.00% per year (net of investment related expenses).

For measurement date September 30, 2020, as mandated by Chapter 2015-157, Laws of Florida, the assumed rates of mortality were changed to the rates used in Millimans July 1, 2019 FRS valuation report for special risk employees, with appropriate adjustments made based on plan demographics. Additionally, as approved by the Board of Trustees, the investment return assumption has been changed from 7.50% per year (gross of expenses) to 7.35% per year (net of investment related expenses).

## Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued City of Lakeland's Firefighters' Retirement System financial report.

## Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the fiscal year ended September 30, 2022, the City recognized pension expenses of \$250,559. At September 30, 2022, the City reported deferred outflows of resources related to pensions from the following sources:

Deferred

|  |    | Deterred Outflows of Resources                         | <br>Inflows of Resources                       |  |
|--|----|--|--|--|
| Contributions subsequent to the measurement date<br>Difference between actual and expected experience<br>Changes if assumptions<br>Net difference between projected and actual earnings<br>Total | \$ | 2,738,438<br>2,867,614<br>4,917,810<br>-<br>10,523,862 | \$<br>118,571<br>-<br>14,908,178<br>15,026,749 |  |

\$2,738,438 reported as deferred outflows of resources related to pensions resulting from City and State contributions subsequent to the measurement date of the net pension liability but before the end of the current fiscal year will be recognized as a reduction of the net pension liability in the year ending September 30, 2023. Other amounts reported as Deferred Outflows of Resources and Deferred Inflows of Resources related to pensions will be recognized in Pension Expense as follows:

| Fiscal year ended September 30th: |                   |
|-----------------------------------|-------------------|
| 2023                              | \$<br>(1,845,960) |

For more information, pertaining to the aforementioned plans refer to the City of Lakeland, Florida stand-alone financial statements for each plan, which can be obtained by contacting the City of Lakeland, Finance Department, City Hall, 228 S. Massachusetts Ave., Lakeland, FL 33801-5086.

## NOTE 14 - DEFINED CONTRIBUTION PENSION PLAN

The Police Officers' Defined Benefit Retirement System (PODBRS) included a defined contribution Share plan component as of September 30, 2010. In subsequent years, the PODBRS Board will determine Share allocations based on election made by the participants in the plan and their service during the plan year.

For more information pertaining to the PODBRS refer to the City of Lakeland, Florida stand-alone financial statements for the plan, which can be obtained by contacting the City of Lakeland, Finance Department, City Hall, 228 S. Massachusetts Ave., Lakeland, FL 33801-5086.

The assets of the City's Alternate Pension Plan were transferred to a third party administrator in the name of the participants. The City no longer has any fiduciary responsibilities concerning the plan. The City's involvement in the plan is limited to remitting the amounts paid by the participants to a third party.

## **NOTES TO FINANCIAL STATEMENTS**

## **SEPTEMBER 30, 2022**

## **NOTE 15 – OTHER POST EMPLOYMENT BENEFITS**

## A. Health Insurance Trust Fund

## Plan Description

Effective October 1, 2017, the Retiree Healthcare Trust Fund adopted the provisions of GASB Statement No. 75, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. This Statement replaces Statements No. 45, *Financial Reporting for Post-Employment Benefit Plans Other Than Pension Plans*. In addition to the relevant disclosures within this note, the City's financial statements reflect a long-term liability of \$84,606,753 and \$71,899,463, and related expenses of \$2,861,430 and \$(530,140) in governmental and business-type activities respectively, resulting from the adoption.

In addition to providing pension benefits, the City Commission has agreed to offer subsidized post-employment health care benefits to former employees who are receiving retirement benefits from the City in conjunction with the Employees' Pension and Retirement System Plan.

The Retiree Health Insurance Plan is a single-employer defined benefit healthcare plan administered by the City of Lakeland Retiree Healthcare Trust. The City Commission serves as the trustees of the plan. The plan provides for healthcare insurance for eligible retirees and their spouses and dependents through the City-sponsored health insurance plan as formally adopted by City ordinance. One other form of subsidy consists of a payment of up to 50 percent of the cost of Part A Medicare insurance coverage purchased by a former employee who is not otherwise eligible for Medicare coverage. To date, there have been no participants in this program. Under Florida Statue 112.08 if the City offers insurance to active employees, the City must offer the same to the retirees. The difference is the City can charge the full premium to the retiree based on the active employees'/city portion of the premiums for the plan their enrolled in.

## **Funding Policy**

The contribution percentages are set forth by City ordinance. The City subsidy is equal to \$5 per month for each year of service accumulated at retirement (maximum 30 years of service or \$150 per month). The City will fund the benefit by placing 1.5% of annual covered payroll into a trust. Retirees are required to make an election as to participation in the City-sponsored health insurance plan upon retirement. Effective January 1, 2003, any employee, who wishes to have his/her spouse and dependents insured on the City of Lakeland's Health Insurance Plan prior to retirement, will be required to have them on the plan one year prior to retirement. Should a participant at any time elect not to purchase coverage from the City-sponsored plan, all eligibility for future participation in that plan, including rights to the subsidy, is terminated. Plan provisions may be amended by city ordinance.

Effective January 1, 2003, all new hires will not be eligible for the retiree subsidy plan which has been formally adopted by City ordinance 4379. The City has established a Trust to accumulate and invest assets necessary to pay for the accumulated liability.

## Plan Membership

A summary of the current active and inactive employees and the criteria of the classes participating in the plan is as follows:

| Active plan members                                    | 1,906 |
|--|-------|
| Inactive plan members participating in the health plan | 606   |
| Inactive plan members currently receiving a subsidy    | 1,542 |

|                               | Normal Retirement              | Early Retirement          |
|-------------------------------|--------------------------------|---------------------------|
| General Employees:            |                                |                           |
| Hired before October 1, 2003  | 60 + 10 years                  | 50 + 10 years or 30 years |
| Hire after September 30, 2003 | 62 + 10 years                  | 52 + 10 years or 30 years |
| Hired after February 25, 2012 | 62 + 5 years                   | 52 + 5 years              |
| Firefighters                  | 55 + 10 years or 52 + 25 years | 50 + 10 years             |
| Police                        | 55 + 10 years or 25 years      | 50 + 10 years             |

## **Actuarial assumptions**

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of the valuation and the historical pattern of sharing of actuarial methods and assumptions used including techniques that are designed to reduce the effects of short-term volatility in actuarial liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events into the future; as such these actuarial amounts are subject to continual valuation.

Significant Assumptions: The date of the actuarial valuation on which the plan's liability was determined is September 30, 2022. The following actuarial assumptions were applied.

| Actuarial cost method  Valuation Date     | Entry age normal based on level percentage of projected salary October 1, 2021 |
|---|--|
| Measurement Date Discount rate:           | September 30, 2022   |
| Implicit                                  | 4.02%  |
| Explicit                                  | 6.84%  |
| Health care cost trend rate:              |  |
| Pre-medicare medical & Rx benefits Select | 6.75%  |
| Ultimate                                  | 4.00%  |
| Medical benefits                          |  |
| Select                                    | 5.75%  |
| Ultimate<br>Stop loss fees                | 4.00%  |
| Select                                    | 7.00%  |
| Ultimate                                  | 4.00%  |
| Administrative                            | 4.000/   |
| Select<br>Ultimate                        | 4.00%<br>4.00%   |
| Salary changes                            | 3.5% per annum   |
| Postemployment benefit changes            | N/A  |
| Mortality rates                           | PUB-2010, projected forward using SOA Scale<br>MP-2019                         |
| Long-term expected rate of return         | tax-exempt, high quality municipal bond  |
| Asset valuation                           | fair value   |
| Date of experience study                  | 24 months ending September 30, 2021  |
|   |  |

The total OPEB liability was determined by an actuarial valuation as of October 1, 2021, using the previously listed actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified. The discount rate, the medical trend rates, the plan participation assumption, retirement rates, and termination rates are the only applicable changes in the evaluation.

## Interest rates

Discount (or interest) rates are used to reflect the time value of money. Discount rates are used in determining the present value of the valuation date of future cash flows currently expected to be required to satisfy the postretirement benefit obligation. The long-term expected rate of return using arithmetic mean on OPEB investments was determined using the rate of return on tax-exempt, high quality municipal bonds (20 year, tax-exempt municipal bond - 4.02%) blended with the expected rate of return on trust assets.

The discount rate used to measure the total OPEB liability was 2.26% for the implicit subsidy and 6.84% for the explicit subsidy. The discount rate increased from 2.26%. The municipal bond rate used in the discount rate is the Bond Buyer 20-Bond GO Index.

The annual money-weighted rate of return that expresses investment performance, net of investment expense, adjusted for changes in the amount actually invested was -18.9%.

## **NOTES TO FINANCIAL STATEMENTS**

## **SEPTEMBER 30, 2022**

## NOTE 15 - OTHER POST EMPLOYMENT BENEFITS (continued)

## A. Health Insurance Trust Fund (continued)

## Investments

Investments are held in the City's Consolidated Investment Fund. For information regarding the Consolidated Fund's investment policies, asset allocations, and descriptions of significant investments, refer to Note 3.C.

## Concentration

The Plan's investment in the consolidated fund comprised of more than 5% of the Plan's total fiduciary net position. However, no individual investment of the Plan's share of the consolidated fund (2%) comprised of more than 5% of the Plan's total fiduciary net position.

The rate of return for the assets of the Trust as of September 30, 2022 are summarized in the following table.

| Asset Allocation:   | %       | Returns (with inflation) | Balance         | % of Net Position |
|---------------------|---------|--------------------------|-----------------|-------------------|
| Consolidated funds  | 99.41%  | 7.25%                    | \$<br>9,458,171 | 100%              |
| Money market funds  | 0.00%   | 0.49%                    | -               | 0%                |
| Accounts receivable | 0.59%   | 0.00%                    | 3,018           | 0%                |
| Total               | 100.00% |                          | \$<br>9,461,189 | 100%              |

## Rate of Return

For the year ended September 30, 2022, the annual rate of return (with inflation) was 6.84%.

## **Projected Benefit Payments**

The long-term expected rate of return is used for the first two years of the benefit payments. Thereafter, the municipal bond rate index is applied to the remainder of the life of the plan.

## **Net OPEB Liability**

The components of the Net OPEB Liability for the Health Insurance Trust Fund as September 30, 2022 were as follows:

| Total OPEB Liability   | \$<br>171,824,274 |
|------------------------|-------------------|
| Fiduciary Net Position | 15,318,058        |
| Net OPEB Liability     | \$<br>156,506,216 |

Fiduciary Net Position as a percentage of the total OPEB liability 8.91%

## Changes in Net OPEB Liability

|   | Total OPEB<br>Liability | Pla | n Fiduciary Net<br>Position | Net OPEB<br>Liability |

## NOTES TO FINANCIAL STATEMENTS

## **SEPTEMBER 30, 2022**

## NOTE 15 - OTHER POST EMPLOYMENT BENEFITS (continued)

## A. Health Insurance Trust Fund continued)

## Sensitivity of the net OPEB liability to changes in the discount rate

The sensitivity of the net OPEB liability to a discount rate 1% (7.22%) higher and 1% lower (5.22%) than the discount rate of 6.22% is as follows:

| Discount Rate | Net | <b>OPEB Liability</b> | % Difference |
|---------------|-----|-----------------------|--------------|
| 7.22%         | \$  | 128,700,000           | (18)%        |
| 6.22%         |     | 156,506,216           | N/A          |
| 5 22%         |     | 194 082 000           | 24%          |

## Sensitivity to the net OPEB liability to changes in the healthcare cost trend rate

The sensitivity of the net OPEB liability using healthcare cost trend rates 1% higher and 1% lower than the current trend rates is as follows:

| Trend         | Net | OPEB Liability | % Difference |
|---------------|-----|----------------|--------------|
| 1% decrease   | \$  | 125,769,000    | (20)%        |
| Current trend |     | 156,506,216    | N/A          |
| 1% increase   |     | 197.162.000    | 26%          |

## **Changes in Assumptions**

The following assumption changes were since the prior evaluation:

- The discount rate for the implicit subsidy was increased from 2.26% to 4.02% from the prior measurement date.
- The discount rate for explicit subsidy was decreased 7.22% to 6.84% from the prior measurement date.
- The plan participation assumption was updated from 62% to 72%.
- The initial year medical trend rate was updated from 7.0% to 6.75% for pre-Medicare costs and from 6.0% to 5.75% for post-Medicare costs to reflect the generally low claims experience environment.

## Plan Fiduciary Net Position

The Plan does not issue a stand-alone publicly available financial report. In accordance with the requirements of GASB Statement 74, Financial Reporting for Post Employment Benefit Plans Other Than Pension Plans, the City has elected to present the Lakeland Retiree Healthcare Trust as fiduciary fund and include the required disclosures and required supplementary information in its annual financial statements.

## OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the fiscal year ended September 30, 2022, the City recognized OPEB expenses of \$2,331,290 At September 30, 2022, the City reported deferred inflows and outflows of resources related to OPEB from the following sources:

|   | De | eferred Outflows of<br>Resources | С  | Deferred Inflows of Resources |
|---|----|----------------------------------|----|-------------------------------|
| Difference between projected and actual earnings  | \$ | -                                | \$ | 1,293,220                     |
| Difference between actual and expected experience |    | -                                |    | 81,803,586                    |
| Changes in assumptions                            |    | 76,537,872                       |    | 8,852,996                     |
| Change in cost share allocation                   |    | 9,195,318                        |    | 9,195,318                     |

## **NOTES TO FINANCIAL STATEMENTS**

## **SEPTEMBER 30, 2022**

## NOTE 15 – OTHER POST EMPLOYMENT BENEFITS (continued)

### **B. Survivor Benefit Trust Fund**

The City Commission through Ordinance No. 3434, established the Employees' Survivor's Benefit Fund to provide a life insurance benefit of 12 times the monthly retiree benefits up to \$150,000 to eligible beneficiaries of certain retirees meeting eligibility requirements. Upon the death of any employee who is regularly retired and currently receiving a pension benefit under the City of Lakeland Employee Pension Fund. The City pays an annual insurance premium to the underwriter who assumes the liability for benefit payments to beneficiaries. The City paid \$776,930 in insurance premiums for fiscal year 2022.

## NOTE 16 - COMMITMENTS AND CONTINGENCIES

## A. Litigation

Various suits and claims arising in the ordinary course of operations are pending against the City. The ultimate effect of such would not result in losses which would materially affect the financial position of the City or materially compromise its operations. The City relies upon the sovereign immunity protection afforded to local governments under Section 768.28, Florida Statutes, which limits the collection of any judgment to \$200,000 per person and to \$300,000 arising out of the same incident or occurrence. Some cases which arise out of police activity represent a possibility of exposure that would exceed sovereign immunity limits, although the City carries excess coverage for that risk.

## **B. Contractual Commitments**

At September 30, 2022, the City's Fleet Management Operations had \$5,755,008 in outstanding contracts to purchase motor vehices.

Lakeland Electric has contracts for the supply and transportation of natural gas requiring the purchase and transportation of a minimum and a maximum number of cubic feet of natural gas per year.

Lakeland Electric has contracts for the purchase/sale and delivery of electric energy setting a maximum number of megawatts available for purchase.

Lakeland Electric has a long-term service agreement with Siemens/Westinghouse to provide labor, parts, and materials to cover all planned annual outages for McIntosh Unit 5, a 395 MW combined cycle gas turbine unit. In April 2020, the Lakeland City Commission approved changes to the contract which included a revised payment schedule. During fiscal year 2022 milestone payments of \$7,665,253 were made under the contract. The agreement, which is scheduled to run through 2031, include annual milestone payments and an economic index escalation factor. Future base payments per the schedule, excluding escalation, are as follows:

| Fiscal Year | <br>Operating   | <br>Capital      | Total            |
|-------------|-----------------|------------------|------------------|
| 2023        | \$<br>417,964   | \$<br>7,608,254  | \$<br>8,026,218  |
| 2024        | 423,398         | 7,707,161        | 8,130,559        |
| 2025        | 428,902         | 6,702,123        | 7,131,025        |
| 2026        | 434,478         | 2,181,285        | 2,615,763        |
| 2027-2031   | <br>2,258,593   | 27,495,238       | <br>29,753,831   |
|             | \$<br>3,963,335 | \$<br>51,694,061 | \$<br>55,657,396 |
|             |                 |                  |                  |

Lakeland Electric entered into a total of five Solar Energy Participation Agreements (SEPAs) with Sun Edison, LLC from 2009 through 2016. As of September 30, 2022, Sun Edison's former ownership interests were assigned as follows:

| Location          | SEPA Owner                   | COD        | Years | MWs/AC | Rate         |
|-------------------|------------------------------|------------|-------|--------|--------------|
| Airport I         | Longroad Energy Holding, LLC | 12/22/2011 | 25    | 2.25   | \$<br>190.00 |
| Airport II        | Renewable Holdco I, LLC      | 9/16/2012  | 25    | 2.75   | 176.50       |
| Airport III       | Clearway Energy Group, LLC   | 12/21/2016 | 25    | 3.15   | 112.52       |
| RP Funding Center | Longroad Energy Holding, LLC | 4/4/2010   | 20    | 0.25   | 280.99       |
| West Bella Vista  | Brookfield Renewable         | 7/6/2015   | 25    | 6      | 112.52       |

Lakeland Electric has no equity interest in and assumes no financial responsibility for the solar generation systems. Four systems are located on properties owned by the City of Lakeland. The West Bella Vista property is owned by the vendor. Solar energy system installations are as follows: the roof of the RP Funding Center, the runway protection zones of the Lakeland Linder International Airport, and 70 acres adjacent to the Sutton Electric Substation. Four of the SEPAs are in effect for twenty-five years and one is at twenty years at a fixed price per MWh with no price escalation clauses. Lakeland Electric's purchases under the SEPAs for the current and previous year were as follows:

|                |    | 2022      |    | 2021      |
|----------------|----|-----------|----|-----------|
| Sales Revenue  | \$ | 2,386,463 | \$ | 2,809,557 |
| MegaWatts Sold |    | 17,916    |    | 21,381    |
| Average per MW | \$ | 133.20    | \$ | 131.40    |
| E - 84         |    |           |    |           |
| (continued)    |    |           |    |           |

## **NOTES TO FINANCIAL STATEMENTS**

## **SEPTEMBER 30, 2022**

## NOTE 16 - COMMITMENTS AND CONTINGENCIES (continued)

## **B. Contractual Commitments (continued)**

Lakeland Electric participates in federal and state programs that are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies. In the opinion of management, no significant contingent liabilities exist related to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies.

The City has active construction projects as of September 30, 2022. The projects include infrastructure projects, construction of existing streets, wastewater treatment facilities, and electric plant. The commitments of major construction projects and capital outlay issued by the City which have not been completed as of September 30, 2022, are as follows:

| Transportation/street projects                   | \$<br>7,023,124  | * |
|--|------------------|---|
| Public Improvement projects                      | 9,040,652        | * |
| Public Safety projects                           | 2,550,488        | * |
| Airport projects                                 | 6,884,927        | * |
| Wastewater treatment facilities projects         | 17,191,227       | * |
| Water Distribution projects                      | 18,152,327       | * |
| McIntosh unit 5 renewal and replacement projects | 167,976          | * |
| McIntosh gas turbine 2 projects                  | 2,585            | * |
| Larsen unit 8 renewal and replacement projects   | 349,520          | * |
| McIntosh new generation                          | 30,549,140       | * |
| Other power production plant improvements        | 926,111          | * |
| Energy delivery capital projects                 | 1,861,124        | * |
| Building improvement projects                    | 789,611          | * |
| Equipment  | 126,491          | * |
|  | \$<br>95,615,303 |   |
|  |                  |   |

<sup>\*</sup>The amounts reported are included in the outstanding encumbrances below.

## C. Encumbrances

The City had the following encumbrances outstanding as of September 30, 2022 that were not reported as designations:

| Lakeland Linder International Airport Fund | \$<br>6,273,363  |
|--|------------------|
| Electric Utility Fund                      | 3,141,943        |
| Water and Wastewater Utilities             | 6,153,209        |
| Internal Service Funds                     | 6,634,065        |

Doublis

T-4-1

In addition to the commitments for capital projects, Lakeland Electric had other outstanding purchase orders in the amount of \$164,558,551 as of September 30, 2022. \$151,989,054 of which represents contracts for the procurement and transportation of fuel and purchased power. It is the opinion of Lakeland Electric's management that Lakeland Electric complies with the requirements of all contractual commitments.

## **NOTES TO FINANCIAL STATEMENTS**

## **SEPTEMBER 30, 2022**

## **NOTE 17 - SUBSEQUENT EVENTS**

Variable Rate Energy System Refunding Bond, Series 2022

On October 1, 2022, the City issued the Variable Rate Energy System Refunding Bond, Series 2022 in the amount of \$88,205,000 to pay the City's outstanding Variable Rate Energy System Refunding Bond, Series 2017, which matured on the same day in the same amount. There was no gain or loss on the refunding of the prior debt. The Series 2022 bond matures on October 1, 2027 and is secured by a pledge of the operating revenues of the City's electric utility. The Series 2022 bond bears a variable rate of interest equal to 79% times the sum of the SOFR index plus 0.30%. Interest is payable on the first business day of each month. Although the Series 2022 bond bears a variable rate of interest, it has been effectively converted to a fixed rate as a result of pre-existing interest rate swap agreements.

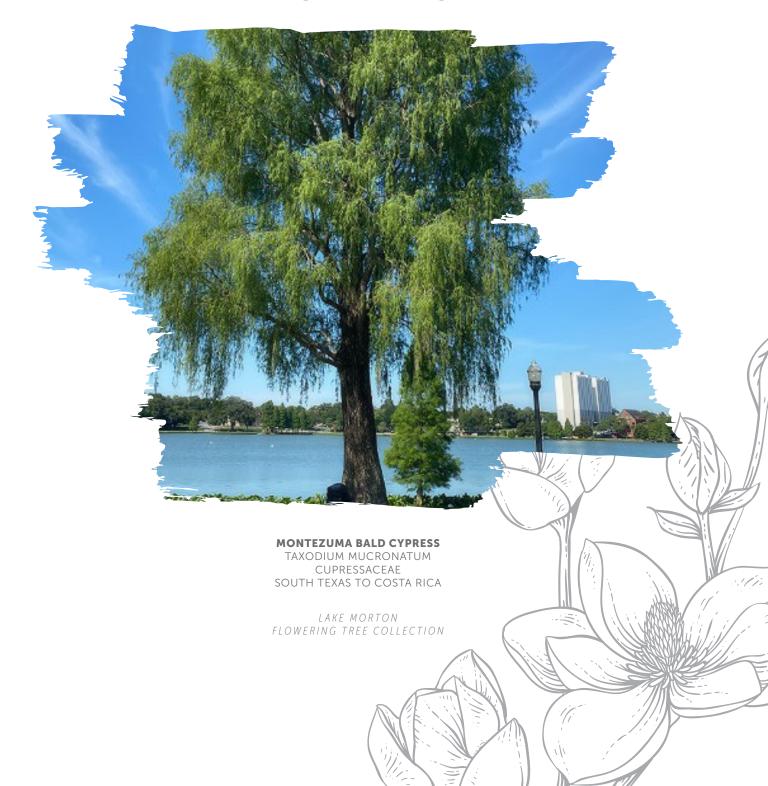

## **NOTE 18 - CURRENT EVENTS**

During December 2019, the Novel Coronavirus (COVID-19) was discovered on the continent of Asia. The COVID-19 was subsequently declared a world-wide pandemic by the World Health Organization. On March 13, 2020, the President declared a National Emergency Concerning the Novel Coronavirus Disease (COVID-19) Outbreak. Although multiple vaccines have been granted authorization for emergency use by the US Food and Drug Administration, the outbreak of COVID-19 has affected travel, commerce and financial markets both domestic and globally, and is widely expected to have a significant impact on economies worldwide.

The City requested and received reimbursement from Polk County for COVID-19 related purchases through September 30, 2020. Charges were tracked through December 31, 2020. At the end of fiscal year 2022, \$222,581 is due from the Federal Government for COVID related expenses.

On February 24, 2022, Russia began an invasion of the nation of Ukraine, which is ongoing at this time. Much of the international community, particularly the United States and most Western European nations, have condemned Russia for its actions, accusing it of breaking international law and violating Ukrainian sovereignty. As a result, many countries have implemented economic sanctions against Russia, Russian individuals, or companies. The ongoing war and the aforementioned economic sanctions have resulted in added volatility in equity and commodity markets, and will likely have significant implications for economic growth and inflation going forward. The full impact of the war is unknown at this time, but could have negative implications for the City's investments, particularly those of the City's pension funds and its Public Improvement Endowment Fund.

<sup>\*</sup> The actuarially determined contribution is calculated as the actuarially determined contribution percentage multiplied by the actual pensionable payroll for the fiscal year.

The City contributed \$15 million to the Employee Pension Fund in FY 2016 as an advance payment against the employer's share of the unfunded pension liability. In return for this advance payment, the City (as the employer) will receive an annual credit against its regular payment into the fund. As a result of the \$15,000,000 advance payment, a contribution deficiency will be reflected in future years thru FY 2031 as the credit will be amortized over the next 15 years.

The City contributed \$57.7 million to the Employee Pension Fund in FY 2020 as an advance payment against the employer's and employee's share of the unfunded pension liability. In return for this advance payment, the City (as the employer) and the employees will receive an annual credit against the regular payment.

The City issued a Pension Liability Reduction Note and contributed the proceeds, \$57.7 million - Employee Pension Plan, \$18.9 million - Police Officers' Retirement System, and \$4.4 million - Firefighters' Retirement System in FY 2020 as an advanced payment against the employer's and employees' unfunded share of the unfunded pension liability. In return for this advance payment, the City (as the employer) and the employees will receive an annual credit against the regular payment into the fund. As a result of the advance payment, a contribution deficiency will be reflected in future yeas thru FY 2040 as a credit amortized each year. The actual employer contribution for the Employee, Police, and Fire Plans reflects the proceeds from the Pension Liability Reduction Note deposited into the Plan's assets.

GASB 68 was implemented in fiscal year 2015. Schedule is intended to show information for 10 years. Additional years will be displayed as they become available.

## NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

## **BUDGETS**

Budgets of the City are adopted on a modified accrual basis of accounting, which is consistent with Generally Accepted Accounting Principles (GAAP). In cases where appropriations and estimated revenues have been revised during the year, budget data represents final authorized amounts. As of September 30, 2022 there were no material violations of budgetary requirements.

## GENERAL, POLICE, AND FIRE PENSION PLANS

Within the basic financial statements, the proceeds of the excise tax from the State of Florida in the City of Lakeland Firefighters' Retirement System and the Police Pension Plan are recorded as operating grants and contributions and public safety expenses in the Government-wide Statement of Activities.

## Changes in assumptions/inputs:

## September 30, 2022

**Employee Pension and Retirement System** 

• There were no revisions in actuarial assumptions or methods since the previous valuation.

## Police Officers' Defined Benefit Retirement System

• There were no revisions in actuarial assumptions or methods since the previous valuation.

## Firefighters' Retirement System

• There were no revisions in actuarial assumptions or methods since the previous valuation.

## September 30, 2021

**Employee Pension and Retirement System** 

• There were no revisions in actuarial assumptions or methods since the previous valuation.

## Police Officers' Defined Benefit Retirement System

• As mandated by FS Chapter 2015-157, the assumed rates of mortality were changed to the rates used in Millman's July 1, 2019 FRS valuation report with the appropriate adjustments made based on plan demographics.

## Firefighters' Retirement System

- As mandated by FS Chapter 2015-157, the assumed rates of mortality were changed to the rates used in Millman's July 1, 2019 FRS valuation report with the appropriate adjustments made based on plan demographics.
- The investment return assumption was changed from 7.50% per year (gross of expenses) to 7.35% per year (net of investment related expenses).

## September 30, 2020:

**Employee Pension and Retirement System** 

• There were no revisions in actuarial assumptions or methods since the previous valuation.

## Police Officers' Defined Benefit Retirement System

• There were no revisions in actuarial assumptions or methods since the previous valuation.

## Firefighters' Retirement System

• There were no revisions in actuarial assumptions or methods since the previous valuation.

## September 30, 2019:

## Employee Pension and Retirement System

• There were no revisions in actuarial assumptions or methods since the previous valuation.

## Police Officers' Defined Benefit Retirement System

• The payroll growth assumption utilized in amortizing the Unfunded Actuarial Accrued Liability was changed from 2.12% to 1.62% in conjunction with the valuation report. This assumption will be reduced by 0.5% in each future valuation report until it reaches the actual historical 10-year average growth of the non-DROP valuation payroll.

## Firefighters' Retirement System

• There were no revisions in actuarial assumptions or methods since the previous valuation.

## REQUIRED SUPPLEMENTARY INFORMATION EMPLOYEE PENSION AND OPEB FUNDS SEPTEMBER 30, 2022

## NOTES TO REQUIRED SUPPLEMENTARY INFORMATION (continued)

## GENERAL, POLICE, AND FIRE PENSION PLANS (continued)

## September 30, 2018:

## **Employee Pension and Retirement System**

- Adoption of the RP2000 Generational Mortality Table
- Salary increase assumption was changed to the service based rates
- The assumed inflation rate was lowered from 3.0% to 2.5%
- The payroll growth rate was lowered from 3.5% to 2.5%
- The amortization period for all existing UAAL bases was shortened to 20 years
- The administrative expense assumption was changed from 0.1% of payroll to average of the actual administrative expenses paid in the prior two fiscal years
- The assumed rate of normal retirement, early retirement, and employment termination were changed

## Police Officers' Defined Benefit Retirement System

- Adoption of the RP2000 Generational Mortality Table
- The assumed rates of mortality were changed
- The assumed rates of individual salary increases were changed from 6.0% to aged based assumptions
- The assumed rates of termination were increased by 10% at each age
- The payroll growth assumption utilized in amortizing the Unfunded Actuarial Accrued Liability was changed from 2.62% to 2.12% in conjunction with the valuation report. This assumption will be reduced by 0.5% in each future valuation report until it reaches the actual historical 10-year average growth of the non-DROP valuation payroll

## September 30, 2017:

## Police Officers' Defined Benefit Retirement System

• The payroll growth assumption utilized in amortizing the Unfunded Actuarial Accrued Liability was changed from 3.01% to 2.62% in conjunction with the valuation report. This assumption will be reduced by 0.5% in each future valuation report until it reaches the actual historical 10-year average growth of the non-DROP valuation payroll.

## Firefighters' Retirement System

- Assumed interest was changed to 7.50%
- Assumed salary increase was changed to 6.0%

For additional information regarding the pensions please refer to Note 13 in the notes to the Basic Financial Statements.

For more information pertaining to the aforementioned plans refer to the City of Lakeland, Florida stand-alone financial statements for each plan, which can be obtained by contacting the City of Lakeland, Finance Department, City Hall, 228 S. Massachusetts Ave., Lakeland, FL 33801- 5086.

## REQUIRED SUPPLEMENTARY INFORMATION EMPLOYEE PENSION AND OPEB FUNDS SEPTEMBER 30, 2022

## NOTES TO REQUIRED SUPPLEMENTARY INFORMATION (continued)

## **OPEB**

For additional information regarding the OPEB Trust Fund please refer to Note 15 in the notes to the Basic Financial Statements.

## Changes in assumptions/inputs

The following assumption changes are reflected in the calculation of the actuarially determined contributions:

## September 30, 2022

The determination of the September 30, 2021 results relies on the following significant assumptions.

- The discount rate for the implicit subsidy was increased from 2.26% to 4.02% from the prior measurement date.
- The discount rate for explicit subsidy was decreased 7.22% to 6.84% from the prior measurement date.
- The plan participation assumption was updated from 62% to 72%.
- The initial year medical trend rate was updated from 7.0% to 6.75% for pre-Medicare costs and from 6.0% to 5.75% for post-Medicare costs to reflect the generally low claims experience environment.

## September 30, 2021

The determination of the September 30, 2021 results relies on the following significant assumptions.

- The discount rate for implicit subsidy benefits was updated from 2.21% at the beginning of the fiscal year to 2.26% at the end of fiscal year.
- The discount rate for explicit subsidy benefits was updated from 7.21% at the beginning of the fiscal year to 7.22% at the end of the fiscal year.
- The plan participation assumption was updated from 62% to 72%.
- The health care cost trend rate was updated from 6.0% to 7.0% for pre-Medicare costs and from 5.0% to 6.0% for post-Medicare costs. The stop-loss trend rate was updated from 6.0% to 7.0% and administrative fees trend was updated from 5.0% to 4.0%.
- The retirement rates for Police and general employees have been updated since 2019, based on the October 1, 2020 pension valuation for each.
- The termination rates for Police, Fire, and General employees have been updated based on the October 1, 2020 pension valuation for each.

## September 30, 2020

The determination of the September 30, 2020 results relies on the following significant assumptions.

- Discount rate for the implicit liability was updated from 2.66% to 2.21%.
- The initial year medical trend rate was updated from 6.5% to 6.0% for pre-Medicare costs and from 5.5% to 5.0% for post-Medicare costs.
- Termination Tables Based on 2018 Lakeland General/Firefighters/Police Retirement System Actuarial Valuations
- Retirement Tables Based on 2018 Lakeland General/Firefighters/Police Retirement System Actuarial Valuations

## September 30, 2019

The discount rate was updated from 4.18% to 2.66% for the implicit liability, and from 6.96% to 7.21% for the explicit liability.

- The termination rates assumption for Police was updated based on the 2018 Lakeland Retirement System Actuarial Valuation.
- The ACA Excise Tax on high-cost employer sponsored healthcare plans is no longer applicable as the bill which repealed it passed on December 20, 2019.
- The mortality assumption was updated from the RP-2014 base mortality with generational scale MP-2016 to the Pub-2010 base table with generational scale MP-2019 to reflect the Society of Actuaries' recent mortality study.
- The initial year medical trend rate was updated from 6.0% to 6.5% for pre-Medicare costs and from 5.0% to 5.5% for post-Medicare costs to reflect the generally low claims experience environment.

## September 30, 2018

The discount rate was changed from 3.63% to 4.18% for the implicit liability.

## September 30, 2017

The mortality table was updated to a generational table.

- The amortization method was changed from the projected unit credit method to the entry age normal method per GASB 75.
- The marriage assumption was updated to reflect the current retiree/spouse mix.

## COMBINING FUND FINANCIAL STATEMENTS

## **NON-MAJOR FUNDS**

## OTHER GOVERNMENTAL FUNDS

## **DEBT SERVICE FUNDS**

Debt service funds are use to account for and report financial resources that are restricted, committed, or assigned to expenditures for principal and interest.

## **SPECIAL REVENUE FUNDS**

Special revenue funds are used to account for proceeds from certain specific revenue sources for purposes other than debt service or capital projects. These funds are recorded separately as directed by legal requirements, regulatory provisions, or administrative action. As with the General Fund, the primary accounting focus is on the sources and uses of available funds and the financial activity is reported using the modified accrual basis accounting.

**Community Development Fund** – The Federal Department of Housing and Urban Development provides funds for improvement projects and economic development assistance in low to moderate –income areas and down payment assistance to first time home buyers.

State Housing Initiatives Partnership Program – The Florida Housing Finance Corporation through the local housing assistance trust fund provides funds for emergency repairs, new construction, rehabilitation, and other assistance in very low to moderate-income areas.

**Neighborhood Stabilization Program** – The Federal Department of Housing and Urban Development provides funds for the purchase and rehabilitation of foreclosed homes in low to moderate income areas.

**Stormwater Fund** – Revenues, received primarily through the collection of residential and commercial fees as well as transfers from the Transportation Fund for drainage and lake projects, are used for projects approved by the City Commission for stormwater capital activities.

**Building Inspection Fund** - Revenues received from building permit and inspection fees, for the purposes of funding the costs of administering building inspection and permitting municipal services and the enforcement thereof, of the Florida Building Code.

**Lakeland Community Redevelopment Agency** – Revenues that are received primarily from the tax increment of the special taxing district established for the purpose of revitalizing the downtown Lakeland area.

## **CAPITAL PROJECTS FUNDS**

Capital Projects Funds are used to account for and report financial resources that are restricted, committed or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

**Transportation Fund** – Major sources of revenues for the Transportation Fund include taxes levied on motor fuels and impact fees. These revenues are used for projects approved by the City Commission, such as street improvements.

**Impact Fee Fund** – The Impact Fee Fund is used to account for impact fees collected for transportation, law enforcement, fire protection, and parks and recreation.

## **PERMANENT FUNDS**

Permanent funds are used to report resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support the reporting government's programs.

**Cemetery Perpetual Care Fund** – When the corpus of this fund is sufficient, it will be used to account for the accumulation of resources used to maintain all City-owned cemeteries.

Scott Morris Mausoleum Fund – This fund accounts for a contribution to provide maintenance of the Scott Morris Mausoleum.

**Webster Book Fund** – This fund accounts for a bequest received by the City to purchase nonfiction books and periodicals for the City of Lakeland Public Library.

**Baldwin Book Fund** – This fund accounts for a bequest received by the City to purchase general science and wholesome fiction books for the City of Lakeland Public Library.

### **NON-MAJOR FUNDS**

### PROPRIETARY FUNDS

### **PROPRIETARY FUNDS**

Proprietary funds are used to account for business-type activities and include both Enterprise funds and Internal Service funds.

### **ENTERPRISE FUNDS**

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises. The primary customer of enterprise funds is the general public and the intent is that the costs relating to providing certain goods or services are primarily recovered through user fees and charges.

Parking System Fund – This fund accounts for operating and maintaining parking facilities throughout the City, including three municipal parking garages.

**RP Funding Center** – This fund accounts for operating and maintaining the RP Funding Center for public shows, civic and cultural events, entertainment and other activities.

**Solid Waste Management Fund** – This fund accounts for all activities necessary to provide refuse collection, disposal services and recycling to residents of the City.

### **NON-MAJOR FUNDS**

### INTERNAL SERVICE FUNDS

### **INTERNAL SERVICE FUNDS**

Internal service funds account for the financing of goods or services provided by one department to other departments of the City on a cost reimbursement basis.

**Purchasing and Stores Fund** – This fund accounts for the costs of purchasing and maintaining custody of supplies and materials. Services provided are billed based on an estimate of actual cost, including operating expenses, and overhead.

**Fleet Management Fund** – This fund accounts for renting and maintaining automotive equipment used by other City departments. User charges are assessed to cover actual costs, including operating expenses, overhead, and depreciation.

**Facilities Maintenance Fund** – This fund accounts for the cost of maintenance and janitorial services for all City-owned buildings. User charges are assessed to cover actual costs, including operating expenses, and overhead.

**Information Technology Fund** – This fund accounts for the cost of the information services incurred in providing network services, telephone, radio communications, and general computer services and supplies. User charges are assessed to cover actual costs, including operating expenses, overhead, and depreciation.

**Self-Insurance Fund** – This fund accounts for the cost of claims and management fees incurred in providing employee health insurance, workers' compensation, general liability, public officials' liability, airport general liability, automobile liability and trustee and fiduciary liability for the City of Lakeland.

**Internal Loan Fund** – This fund accounts for internal loans that are made to other funds of the City of Lakeland for the purpose of financing operating deficits and capital acquisition costs that the City has determined should not be financed through the traditional tax-free debt market. All loans are interest bearing with defined repayment terms.

### THIS PAGE IS INTENTIONALLY BLANK

### **NON-MAJOR FUNDS**

### **FIDUCIARY FUNDS**

### **FIDUCIARY FUNDS**

Fiduciary funds are used to report assets held in a trustee or agency capacity for others and therefore cannot be used to support the government's own programs. Fiduciary funds include both pension trust funds and custodial funds.

**Employees' Pension and Retirement System** – This fund accounts for the accumulation of resources used for retirement payments for City employees. Resources for retirement benefits are contributed by employees at a rate of 8.5% of their salary and by the City at a rate of 17.44% of the covered employee's salary.

**Police Officers' Defined Benefit Retirement System** – This fund accounts for the accumulation of resources used for retirement annuity payments to police officers. Resources are contributed by police officers at a rate of 1% of their salary and by the State of Florida from the proceeds of an excise tax imposed by the City on casualty insurance companies.

**Firefighters' Supplemental Pension Plan** – This fund accounts for the accumulation of resources used for retirement annuity and death benefit payments for firefighters. Resources are contributed by firefighters at a rate of 3% of their salary and by the State of Florida from the proceeds of an excise tax imposed by the City on fire insurance companies. The tax is collected by the State of Florida and remitted to the fund.

Retiree Healthcare Trust Fund – This fund accounts for the accumulation of resources used for health insurance payments for eligible retirees.

**Survivor's Benefit Trust Fund** – This fund accounts for the accumulation of resources used for payment of premiums for the insurance policy purchased by the City for the payment of death benefit to surviving spouses of certain retired employees.

## NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE

## SEPTEMBER 30, 2022

## **NOTE A - BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards and State Financial Assistance include the federal and state activities of the City of Lakeland, Florida. This schedule summarizes the expenditures incurred under all federal programs and state projects by the City of Lakeland, Florida for the fiscal year ended September 30, 2022. For purposes of this schedule, federal programs and state projects include all grants and contracts entered into directly between the City and agencies and departments of the federal and state government with expenditures during the fiscal year ended September 30, 2022. Federal programs and state projects passed through to other government agencies, if any, are also included in the schedule. Grant-related expenditures for the governmental fund types are presented using the modified accrual basis of accounting. Grant-related expenditures for the proprietary fund types are presented using the accrual basis of accounting.

The information in these schedules is presented in accordance with the requirements of 2 CFR 200 – *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, Section 215.97, *Florida Statutes*, and Chapter 10.550, *Rules of the State of Florida Auditor General*. Therefore, some amounts presented in these schedules may differ from amounts presented in, or used in the preparation of, the basic financial statements. The City has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

The City maintains separate grant-related accounts in the general ledger system. Individual grant revenue and expense accounts are assigned at the time the City is awarded a grant and it is approved by the City Commission. All grant revenues and eligible expenses are recorded in the individual accounts. The City's accounting policies relating to encumbrances, receivables, and designations of fund balance, and other financial matters are applied to the grant accounts.

The grant revenue amounts received are subject to audit and adjustment. If any expenditures are disallowed by the grantor agency as a result of an audit or any claim for reimbursement to the grantor agencies, the expenditures would become a liability of the City. All grant expenditures are in compliance with the terms of the grant agreements and applicable federal and state laws and regulations. Expenditures are recognized following the cost principles contained in the Uniform Guidance. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

There were no non-cash awards or Federal Insurance maintained in the current year.

## **NOTE B - LOAN PAYABLE**

The City enters into low interest loan agreements with the State of Florida Department of Environmental Protection to finance the cost of specified capital improvements to the water and wastewater systems. These loans carry a fixed interest rate of 0.00% - 1.160% and are to be repaid over a period of 24 years. The loans are secured by a pledge of excess revenues of the water and wastewater systems, and by a pledge of certain amounts, deposited into a loan amortization account and loan amortization reserve established by the City for the purpose of funding future debt service on the loans. Amounts required for deposit are classified as restricted assets.

The proceeds from the loans are disbursed to the City on a reimbursement basis as eligible construction expenditures are incurred. The total amount of the loans outstanding at September 30, 2022 is \$35,976,101.

## **NOTE C - PRIOR YEAR EXPENDITURES**

The amounts reported on the SEFA for Community Development Block Grants (AL 14.218) as current year expenditures includes \$8,455 of expenses incurred in prior fiscal years that were eligible grant expenditures..

The amounts reported on the SEFA for Airport Improvement Program (AL 20.106) as current year expenditures includes \$4,671 of expenses incurred in prior fiscal years that were eligible grant expenditures as a result of grant amendments in the current year.

The amounts reported on the SEFA for Highway Planning and Construction (AL 20.205) as current year expenditures includes \$54,136 of expenses incurred in prior fiscal years that were eligible grant expenditures as a result of grant amendments in the current year.

The amounts reported on the SEFA for Disaster Grants - Public Assistance (Presidentially Declared Disasters) (AL 97.036) as current year expenditures includes (\$1,399) of expenses incurred in prior fiscal years that were ineligible grant expenditures.

The amounts reported on the SEFA for Aviation Grant Programs (CSFA 55.004) as current year expenditures includes \$3,295,134 of expenses incurred in prior fiscal years that were eligible grant expenditures as a result of grant amendments in the current year.

The amounts reported on the SEFA for Economic Development Transportation Projects (CSFA 55.032) as current year expenditures includes (\$67,151) of expenses incurred in prior years that were ineligible grant expenditures.

## STATISTICAL SECTION

## STATISTICAL SECTION

The Statistical Section of the City of Lakeland's Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

## **FINANCIAL TRENDS**

These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

## **REVENUE CAPACITY**

These schedules contain information to help the reader assess the City's most significant local governmental revenue source, the property tax.

## **DEBT CAPACITY**

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

## **DEMOGRAPHIC AND ECONOMIC INFORMATION**

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.

## **OPERATING INFORMATION**

These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.

<sup>(1)</sup> The State of Florida, by statute, requires property appraisers to assess all property within the State at 100% of market value. Therefore, the assessed valuation and estimated actual value is the same.

Source: Polk County Property Appraiser

<sup>(2)</sup> Total property tax levy minus any discounts given to taxpayers . Therefore, the realized tax rate may be less than the tax rate used to assess property taxes.

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor, City Commissioners and City Manager City of Lakeland, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Lakeland, Florida (the "City") as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated March 24, 2023. Our report includes a reference to other auditors who audited the financial statements of the Police Officers' Defined Benefit Retirement System of the City of Lakeland, Florida (a pension trust fund included in aggregate remaining fund information) and the City of Lakeland Firefighters' Retirement System (a pension trust fund included in aggregate remaining fund information), as described in our report on the City's financial statements. The financial statements of the Police Officers' Defined Benefit Retirement System of the City of Lakeland, Florida and the City of Lakeland Firefighters' Retirement System were not audited in accordance with *Government Auditing Standards*.

## **Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be

material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

## **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

required to be reported under Government Additing Standards

## Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND STATE FINANCIAL ASSISTANCE PROJECT; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE REQUIRED BY THE UNIFORM GUIDANCE AND CHAPTER 10.550 RULES OF THE AUDITOR GENERAL

Honorable Mayor, City Commissioners and City Manager City of Lakeland, Florida

## Report on Compliance for Each Major Federal Program and State Financial Assistance Project

## Opinion on Each Major Federal Program and State Financial Assistance Project

We have audited the City of Lakeland, Florida's (the "City") compliance with the types of compliance requirements identified as subject to audit in the OMB Compliance Supplement and the requirements described in Chapter 10.650, *Rules of the Auditor General* that could have a direct and material effect on each of the City's major federal programs and state financial assistance projects for the year ended September 30, 2022. The City's major federal programs and state financial assistance projects are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the City complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs and state financial assistance projects for the year ended September 30, 2022.

## Basis for Opinion on Each Major Federal Program and State Financial Assistance Project

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States (Government Auditing Standards); the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance); and Chapter 10.650 Rules of the Auditor General. Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program and state financial assistance project. Our audit does not provide a legal determination of the City's compliance with the compliance requirements referred to above.

## Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the City's federal programs and state financial assistance projects.

## Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance and the *Rules of the Auditor General* will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City's compliance with the requirements of each major federal program and state financial assistance project as a whole.

In performing an audit in accordance with GAAS, Government Auditing Standards, the Uniform Guidance and the Rules of the Auditor General, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform
  audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence
  regarding the City's compliance with the compliance requirements referred to above and performing such
  other procedures as we considered necessary in the circumstances.
- obtain an understanding of the City's internal control over compliance relevant to the audit in order to design
  audit procedures that are appropriate in the circumstances and to test and report on internal control over
  compliance in accordance with the Uniform Guidance and the Rules of the Auditor General, but not for the
  purpose of expressing an opinion on the effectiveness of the City's internal control over compliance.
  Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

## **Report on Internal Control Over Compliance**

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program or state financial assistance project on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program or state financial assistance project will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program or state financial assistance project that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and Chapter 10.650, *Rules of the Auditor General*. Accordingly, this report is not suitable for any other purpose

## Report on Schedule of Expenditures of Federal Awards and State Financial Assistance Required by the Uniform Guidance and Chapter 10.550, *Rules of the Auditor General*

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements. We issued our report thereon dated March 24, 2023, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards and state financial assistance are presented for purposes of additional analysis as required by the Uniform Guidance and Chapter 10.550, *Rules of the Auditor General* and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of

the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards and state financial assistance are fairly stated in all material respects in relation to the basic financial statements as a whole.

INDEPENDENT ACCOUNTANT'S REPORT ON COMPLIANCE WITH SECTION 218.415, FLORIDA STATUTES

Honorable Mayor, City Commissioners and City Manager City of Lakeland, Florida

We have examined the City of Lakeland, Florida's (the "City") compliance with Section 218.415, Florida Statutes, concerning the investment of public funds during the year ended September 30, 2022. Management of the City is responsible for the City's compliance with the specified requirements. Our responsibility is to express an opinion on the

City's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the City complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the City complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our

opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

Our examination does not provide a legal determination on the City's compliance with specified requirements.

In our opinion, the City complied, in all material respects, with the requirements contained in Section 218.415, Florida Statutes during the year ended September 30, 2022.

The purpose of this report is solely to comply with Chapter 10.550, Rules of the Florida Auditor General. Accordingly, this report is not suitable for any other purpose.
