

Recommendation re: Task Authorization with Miller Electric Company for Gate Camera Installations and Controller Replacements at Lakeland Linder International Airport

Lakeland Linder International Airport (LLIA) requests approval of a Task Authorization with Miller Electric Company, in the amount of \$143,083.31, to install seven additional gate cameras and replace 16 gate and door controllers across the airport that are no longer supported by the City's computer-controlled access system.

Services performed under this Task Authorization will be according to the City's Continuing Contract for Security Systems Repairs, Maintenance, and Upgrades dated December 17, 2018, RFQ No. 8235, and Miller Electric Company's proposals dated June 2, 2023 (controller replacements) and August 4, 2023 (gate camera additions).

Funding for this project is as follows:

Source	Amount	%
Florida Department of Transportation Public Transportation Grant	\$ 114,466.65	80%
Airport Fund	\$ 28,616.66	20%

Staff recommends approval of the Task Authorization with Miller Electric Company for Gate Camera Installations and Controller Replacements at LLIA in the amount of \$143,083.31.
